"First Class-Excellent" is the rating given to The Nebraskan in The Associated Collegiate Press Newspaper Scorebook for the year ending January, 1945.

A. C. P.'s scorebooks make it possible for that organization to evaluate and analyze the work of the school publications of America and to appraise them as accurately as possible with a yardstick by which honor ratings can be awarded.

Each school publication is entered in groups according to type of school, enrollment and fre-quency of issue. Papers in each group are judged by standards set by the papers themselves. Each newspaper is scored on news values and sources, news writing and editing, headlines, typography and make-up, department pages and special features.
