Who's the Guy Who Said We Ain't Civilized?

BY NINA SCOTT

Someone once said (interesting beginning) that woman will be the last thing civilized by man . . . such a bombastic statement causes one to think . . . one thinks and wonders why woman is uncivilized . . . she uses each and every device known to society to lure and captivate man . . . she spends hours on end (please) spreading her face with goo, she suffers in beauty salons, she stuffs her stomach with shredded lettuce and saurkraut juice to keep the scales down to "over 115" . . . really, she is busy, but her efforts are, well, not appreciated . . .

Perhaps a few examples of the mastery of feminine wiles could be inserted about here . . .

The success of Gamma Phi Lois Johnson does not come about because she has dimples, but they help . . . there is something about her smile when the corners of her eyes turn up and her dimples go in . . . Lois was born with dimples, but undoubtedly she has learned to use to the supreme advantage . . . lots of people have dimples and don't even know it . . . Lois knows it . . .

Own Personality

Bobby Stryker, Theta pledge, is proof that even tho' one is blessed with looks that can't be beat one must have a trait of personality all one's own . . . Bobby studies people's faces and after thought and rationalization, she tells them what animal they resemble . . . you probably have never thought that your pinmate looks like a skunk (he may act like one, but likeness?) . . . or that your best friend is the image of the cocker spaniel next door . . . or that you yourself may be an ant eater to Bobby . . .

Delt Midge Holtzcherer was dragged bodily down the steps of the Union by two men . . . nothing brutal, mind you . . . just friendly, laughing and pleasantly protesting . . . she loved it and so did the young gentlemen . . . Midge has brains, looks, and one of the deepest attractive voices in many a moon . . . after three grueling years of college Midge knows what so many women long to know about just how to be

dragged down the steps of the union by two men . . .

Feminine Intrigue

Many, many qualities and traits have been developed by feminine minds to prove that they are intriguing . . . there is no point in telling men that there is no such thing as woman's intuition . . . or that women are not hard to figure out . . . guess they just haven't tried . . .

Alpha Phi Blackie Blanchard

has her hair; Kappa pladge Sally Stucht has her wit and humour; Chi O Hink Aasen has her pep and beauty; Pi Phi pledge Joan Palmateer has those eyes; and Alpha Chi Betsy Strain has plenty . . . everyone has something, and everyone cultivates something . . .

There are ways and ways and this is not reaching any point, but you must agree that Nebraska coeds do not take a back seat un-

less there is someone interesting in it . . . they are civilized . . . yes, indeed . . . they know the statistics on the number of women and men . . . something like 3 million more women in the world than men . . . Sallie Emerson, DG, has formed a Three Million Club for all those who seek to prove that women are civilized and, well, look around and reach your own conclusion . . .
