for that reason the London conference of foreign ministers has been a dismal failure. Russia's suspicion of us has increased since our refusal to share the secret of the atomic bomb, and Molotov was very unco-operative at London.

Department of Peace.

Mr. Pearson suggested the formation of a department of peace to work on the problems of peace. We cannot return to isolation. We cannot rely on military force. Militarists did not drop the A-bomb on Japan's last bat-tleship as was planned, because they did not want to show what would happen. It is clear, he said, that we cannot depend on big armies and navies-we must return to our diplomats, our first line of defense.
