Skokan urged that any man with 24 or more hours of credit in the university who wishes to become a Corn Cob pledge attend this first meeting. He stated that all fraternity and barb men are invited.

The purpose of the meeting, which will be attended by Bernie Ulrich, yell king, and Col. C. J. Frankforter, advisor, is to obtain 100 or more pledges. Corn Cobs will co-operate with the Tassels in preparing for the rally before the homecoming game as their first activity.

University Foundation, Baby Organization of Campus, Tackles Job

BY MAROLYN HARTSOOK.

(EDITOR'S NOTE: One of the more unknown organizations on the university campus is the Student Foundation. And as yet all the activities, the Foundation does far more to help and promote the university than any other. So that the students may know more, and the university as a whole appreciate more, the efforts of the hard-working Foundation "gang" we are reprinting here a round-up of the organization by one of its officers.)

"Tackle," in the words of Webster is, "to undertake to do." The word is often applied to athletics, and that is why we use here.

About two years ago, a few of Nebraska's most prominent athletes were looking about this campus with an eye cocked to the future, and apparently, with time on their hands, and a good idea. The nucleus of the idea was publicity for the university. Our

heroes of this episode chose Ellsworth Du Teau to help them promote this new publicity campaign.

Full Support.

Mr. Du Teau gave the men his full support, and has helped to carry the ball over the line for Student Foundation ever since the first day of the Foundation's unobtrusive beginning.

The men worked! They had tackled one of the biggest jobs on this campus. Not only was it a big job, but it was plenty important. And it still is!

No university can be top-notch without the verbal and written support and enthusiasm of its own students. The student body can't expect to leave all the pushing, pulling, working and advancement of the institution to the complete discretion of the alumni. The students are going to have to get in there and help themselves to a chunk of work and responsibility if they expect their university to

be well-known, well-attended, and well-thought of.

Opportunity.

To some of you, this may sound like an article under the heading of "lack of school spirit," but to

us, it sounds like the knocking of opportunity on the door of the Student Foundation office on the third floor of the Union.

Yes, it's true . . . the Foundation is the "baby" organization of the campus. Yet, it is as well-known as the rest of them. We don't mind saying that it probably has more active members than many of the other organizations of the same repute. And rightly, a member of Student Foundation is not just a member, he is a worker. Not a paid worker in the mercenary sense, but he is paid in satisfaction of a job well done. We are proud of the fact that everyone helping on Student Foundation is doing it because he really wants to. Sending out publicity to high schools is not an assignment to be handed in on a certain day. No one is forced into this business. If it were true, probably the Foundation would have been unable to survive.

School Publicity.

We have been "harping" for several paragraphs on school publicity and its relation to Student Foundation. By now you probably wonder just how we do our publicizing.

We feel that it is most important to impress Nebraska high school students, especially those mighty seniors, with the vastness and importance of the University of Nebraska, and to make them aware of the fact that right in their own home state is the best place to continue their education.

We have divided the state into seven districts. Each district is under the supervision of a district chairman, with county chairmen working in each district. Though the county chairman is a beginner in the work of the Foundation, it is to him that much of the credit for the success of the organization is due. It is (See FOUNDATION, page 4.)
