

HUSKER HIGHLIGHTS

By George Miller

No one is more confused on the mixed-up coaching situation than we are. From reams of copy already written on the subject and from some information gleaned by our own efforts here is what seems to be the present status of the matter.

One thing is definite in the coaching situation at Nebraska.

Biff Jones is not returning to Lincoln in any capacity. His long awaited letter of refusal, addressed to the Athletic Council, finally arrived and has been duly recorded. The Biffer shows no ill spirit, wishing the council success in later endeavors, but makes it clear that he is not coming back.

Speculation over the next Husker head coach is rampant. A consensus of the various opinions shows that Patsy Clark and Howie Odell are the two most frequently named possibilities. This line of thought is further heightened by the absence of two members of the Athletic Council, John Selleck and Ad Lewandowski, from their campus office quarters.

According to some sources, both gentlemen are in Chicago and so are Clark and Odell. This may

mean something—it may be a coincidence.

Odell, Yale coach this year, is a young man—a midwest product, for he went to high school in Sioux City, and has already established a place for himself among the topflight football tutors.

Patsy Clark, Husker coach the past season, has considerable backing for a return engagement. He is familiar with the athletic setup on the campus and his ability with football players is unquestioned. The way he brought the Huskers to a roaring late season drive which enabled them to finish their play with four straight wins cemented his fame as one of the nation's most capable gridiron mentors.

Other men who have been mentioned for the post are George Sauer and Bernie Masterson, former Husker gridders; Henry Frnka of Tulsa, Bo McMillin of Indiana, Lonnie Stiner, another home state boy now coaching at Oregon State, and even Bernie Bierman, sage of the Northlands, who concluded a disappointing year at Minnesota.

No matter who is chosen, the choice must be made soon. Spring football practice is not too far away, and the head coach must be on hand to get a line on the men who will constitute the Scarlet varsity eleven in 1946.

IM Basketball Season Begins For "B" Leagues

Competition in "B" league basketball enters the intramural picture this week with 14 teams showing their wares on coliseum courts tonight.

The 16 squads entered in "B" team play have been divided into two leagues and each league will play a complete round robin schedule. The two winners will play for the championship. Any organization member not listed on the "A" team roster is eligible to compete for his group.
