Navy Unit Continues Program Until June

Previous plans for the termination of the Naval ROTC program at the end of the present semester have been canceled and the program will continue until June, Capt. M. D. Matthews has announced.

The legislation, signed recently by President Truman, does not include the V-12 dental and medical programs which will close at Nebraska on Jan. 26, he added.

Financial Aid
Trainees who elect to continue

their NROTC training after June may receive some financial aid from the government if the present bill before congress is passed. Although differing from the G. I. Bill of Rights, the legislation will provide for tuition and books and some form of monthly payment. If, after completing the four year course, trainees are eligible, they will receive a commission in the naval reserve. A period of active duty, from 15 to 36 months, after being commissioned will enable them to be transferred to the regular navy, Capt. Matthews said.

Law College Opens Doors To Seventy

After being closed for two years during the war, the university law college reopened Monday with an enrollment of 70 students.

According to Dean Frederick K. Beutel, this is a heavy enrollment and is much larger than previously anticipated. Of the total enrolled, however, over 90 per cent are veterans, most of whom are first year law students. Many of them have completed the two year pre-law course and a few have had one or more years of law education. The remaining 10 per cent includes civilian men and women entering first year law work.

New Program.

For the benefit of veterans, a new accelerated program has been established. It will enable a veteran enrolling now to complete the normal three year course in two and one-half years, those with a year of law in a year and a half, and those with two years law instruction in eight months.

Housing Problem Confronts Officials as Enrollment Rises

Sharp increases in the number of veterans and other students registering for second semester classes have brought problems of housing to the front, according to Dr. G. W. Rosenlof, registrar.

With the prospect of from 1,000 to 1,200 new veterans enrolling second semester, university officials have been studying solutions to the housing problem.

L. F. Seaton, operating superintendent, revealed today that army engineers from Omaha have made a survey of the air base hospital

buildings and have approved the transfer of the buildings to the city of Lincoln. Application has been made to Washington for a formal certificate of approval of the transfer.

Lease Air Base Hospital.

Since the city owns the land on which the air base is built, it has agreed to lease the buildings to the university. After the lease is signed, it will be up to the federal housing administration in Chicago to cooperate with the university in furnishing the build-

ings, Seaton stated. He said that the buildings could not be ready by Feb. 1 because of the necessity of reconverting them into rooms and apartments. He admitted the possibility that the buildings would be available a month or so after the beginning of the semester but emphasized that it was only a slight possibility.

When completed, the recon-verted hospital buildings would take care of about 150 families, but will make only a dent in the

university many new problems for solution. The most critical and immediate of these perhaps is the matter of providing housing for returning veteran students. The institution, however, is well organized, well administered, and adequately staffed, and I believe is prepared to cope with the new problem which of necessity will permeate the post-war period."

Other members of the Board of Regents are: Stanley D. Long, Frank M. Johnson, Charles Y. Thompson, Marion A. Shaw, Vincent C. Haskell and John K. Selleck.
