

# Ragged Edges

By Sarah Murray

Just when we thought spring was here and Mac Robinson and Nancy Lawlor had planned big doings for Tuesday afternoon, it gives out with snow and wind... oh, well, such is Nebraska.

The Missouri-Nebraska game saw the revival of the N Club section... sitting there and taking in all were such people like Sprintace Ralph King and Ruth Korb, and Johnny Thompson and Irene Hansen. Also seen among the rooters were Enid Kelse and Ray Spear, Georgia Withers and Dallas Cotton, Pat Bernette and Dick Bogan, and Bob Metheny with Valentine Queen Sally O'Shea. Which all brings about why Don Ashford wouldn't sit with Joan Fankhauser in the band flute section.

### Candy Passes

Monday night and more candy passings... Jim Ligget brought brother Sig Eps over to the Alpha Chi house to celebrate pinning with Pat Graham... and Gene Eaten did likewise with brother ATO's for the Alpha Phi's and Marge Olsen... Not to forget Lu Jane Johanson and Phil Munson.

What we hate to see is an ideal pinning like that of Mary Armour and Dick Stone having difficulty when Male party takes Betty Sparks on spring weather picnics.

Roger Stewart is back on campus on a navy leave, taking in the Pike with Phee Mortlock... Another Lincoln boy home from the army is Bruce Fullerton spending most of his time with Betsy Bahensky.

### Flying Pins

Pins are flying back Omaha way... Jo Radcliffe returned Phi Rho Jack Farner's last week, could be in preference to Marty Williams... Then Chuck Homquist was the recipient of his Beta pin being shed by Sally Payne.

Leaving you with the thought to watch such duos as Mary Lou Armstrong and Chuck Mueller, Bette Heckinlively and Jim Ward, Kay Reese and Dee Bourne, and Jean Compton and Johnny Call... We take leave until tomorrow... same time, same paper, same column.

## Farm Mechanics Discussion Closes Ag Short Course

Farm mechanics will be discussed today at the closing session of the farm operators training program, according to Jerome V. Srb, director of short course work at Ag college.

For the past two months, 90 men have been enrolled in the special classes. Enrollees represent all parts of Nebraska and sections of Iowa and South Dakota. Quarters for the students were set up in the university field house and in private homes. All men either own and operate or work on a farm.

### Fields of Study

Four separate fields of study were taught in the course including farm mechanics, livestock, crop production and field management. In addition to the daily classes, voluntary night courses were also offered. The night work included a study of genetics and electric acetylene welding. Thirty of the men formed a chorus under the direction of Mrs. Altinas Tullis and presented a public performance.

Convocations each week were highlights in the extra-curriculum activities. Guest speakers were Earl Maxwell, tree specialist; Ted

Housewives report Fairmont's "Homo" Milk Best for Cooking

With the milk fat evenly distributed throughout the whole bottle of milk by Homogenization, every cupful is whole milk, rich in cream which adds wonderful flavor and food value to cooked foods.

Homogenization, you know, breaks up the large milk fat globules which are suspended in ordinary milk and distributes them throughout the whole bottle of milk. Every bit of milk down to the last drop is whole milk which is best for cooking and other uses.

**HOMOGENIZED**

Fairmont's Homogenized Milk tastes better. It is carefully Homogenized by skilled dairy-men, using the most modern equipment.
