

## Enrollement Surpasses All Records—Tops 9,000 Mark

Following a record breaking enrollment, 9,500 university students started to classes Monday, according to Dr. George W. Rosenlof, Director of Admissions.

This number includes 9,000 students on the Lincoln campuses and 500 at the Omaha college of medicine and school of nursing. This is a 125 percent increase over last fall when 4,174 students were registered, Rosenlof stated. Highest previous enrollment was 6,789 students in the fall of 1938.

Dr. Rosenlof reports that 40 percent of the enrollment is new students and that over 5,400 veterans of World War II will be in-

cluded in the final registration total.

### Drive Succeeds.

An intensive drive for living accommodations for the record breaking enrollment is almost a complete success, it was announced by W. C. Harper, assistant dean of student affairs.

"No single students enrolled in the university were turned away for lack of a place to live. This means that Lincoln residents opened their homes to over 4,500 students not resident in Lancaster county or living in university or campus dormitories. It is a great tribute to the city of Lincoln," Mr. Harper said.

## New Housing Unit May Be Unnecessary

Development of the Boomer building housing unit for single men may be discarded due to the small response of applicants to date, according to Lawrence Braymen of the university housing office.

Originally planned as a relief measure designed to combat the critical housing shortage among university students, the building has been completely outfitted with double deck bunks and adequate plumbing facilities for accommodating between 80 and 100 students. In addition to the large dormitories are two spacious study rooms and arrangements for a snack bar within the building itself have already been dealt with.

### Good Location.

Braymen urges all single men who as yet have not found suitable quarters to notify the dormitory managers at once by calling 2-2809. The Boomer building is located at 1210 P Street, only a block from the university campus.

## Mobile X-ray Service Begins For Students

Beginning this week the State Health Department's Mobile X-ray Unit will be located on the university campus to give chest X-rays to all university students.

Hours are from 9 to 12 m., and from 1 to 4 p. m. every day for a month. Students were given appointment cards for specific hours when they registered for classes, and should appear at the time of their appointment at the north door of the pharmacy building outside of the Student Health Service for their X-rays.

### One Minute X-Rays.

Members of the Mobile Unit staff say that the actual X-ray takes only one minute, and only a small amount of waiting in line is necessary when a student appears for his X-ray. Since no change of clothing is required, students will be moved thru the line quickly.

If a student has an appointment during a class period, he is to keep his appointment, but is urged to come either a little early or a little late, so that he will miss the minimum amount of his class.
