

Botany Expert Retires, Plans Virus Studies

Dr. Albert F. Woods, prominent research authority on plant life, and former Nebraskan, has retired as educational advisor of the United States Department of Agriculture Graduate school and plans to join his son, Dr. Mark W. Woods, in an investigation of filterable virus.

Dr. Woods received his Bachelor of Science degree from Nebraska in 1890 and his master's in 1892. In 1912 he was awarded an honorary degree as doctor of agriculture from the university.

Three brothers, Frank H. Woods, Mark W. Woods and George J. Woods, and a sister, Mrs. Helen Woods Haecker, reside in Lincoln.

In addition to his research in viruses, Dr. Woods has done outstanding work in determining causes of plant diseases. Other honors include being chosen as a delegate to the International Institute of Agriculture in Rome in 1905 and president in 1925 of the Land Grant College association. He holds honorary degrees from the University of Maryland and St. John's College, Annapolis.

Dr. and Mrs. Woods now live at Hyattsville, Maryland.

Ragged Edges

By Ellie Swanson.

"And what are you doing this weekend?" I doubtfully asked several young men about the campus in hopes of finding a little news. "Studying, of course," came the replies. "Broke, you know."

Probably the only social event of the weekend which will draw any crowd at all, is Carmen Cavallaro who is playing at the Pike Friday night. Among those attending will be Pat Felger with Harvey Stroud, Sue Cochran and Joe Partington, Janie Buchfink and Mary Bowhay and Jean Guenzel with Don Peglar.

Measle Epidemic?

One of the more amusing incidents of the weekend concerns Bee Smith who came down with measles Friday but didn't know it until Saturday. The ATO's who danced with her at the Pi Phi hour dance Friday thought it was particularly funny... they didn't want to take their finals anyway.

In case you have wondered why Bill Orr hasn't hung his pin on Dottie Manion as yet, there is a very simple explanation. It seems he hung his pin on a girl in Chicago about 1944 and has never seen her since. He is now trying to borrow a pin from his brother

Kappa Sigs but hasn't met with much success.

It seems the Millie Haycraft, Bob Burhans duo which broke up several weeks ago is now back together. They aren't going steady, but everything is patched up. Another interesting couple is the Bob Easter and Marge Anthony combination. They had a blind date Friday and are now well dated up. This may be the solution to Bob's problem.

Permanent Now.

Jean Metzger and Chick Neal passed their pinning look fairly permanent. Bob Berkshire, who hasn't done much dating this year, surprised brother ATO's by kissing Jean on the cheek.

Bill Denker went home suddenly to get his car for this weekend. It seems he thinks he might be a little ahead in the competition for Tootsie Campen if he has a car for these cold days.

One very complicated campus "mess" is well described by this situation. Jerry Whelan who is tentatively going steady with Ginny Kellison has been seeing quite a bit of Jolie Venhorne, also going steady. To make it more confused, he has also been

dating Jo Ackerman and is now inquiring about Peggy Cowles... nice work if you can handle it, Jerry.

Early Bird.

And then there is Sid Wells who got up at 4:30 Tuesday morning to study for an exam. Everything would have been all right if he hadn't spent two hours putting on his bow tie. Anything to be a college Joe.
