

## Taxes, Fees Pay 95% UN Expenses Requested Budget Shows Raise From '45-'47 Grant

(Editor's Note: This is the second of a series of four articles to be published by The Daily Nebraskan dealing with the university's 1947-49 budget, now being considered by the state legislature. Today's article deals with the university's budget needs for the next two years. The Nebraskan urges students to clip this series of articles and mail them to their parents. In this manner it is hoped that an increasing number of persons will become acquainted with the university's problems.)

The University of Nebraska estimates that it will need \$10,103,194 to finance its operations during the 1947-49 biennium.

This money would come from the following sources:  
 \$6,500,000, or 65 percent of the total, from state tax funds.  
 \$3,100,000, or 30 per cent, from student fees.  
 \$433,045, or four per cent, from federal tax funds.  
 \$70,149, or one per cent from endowment income.

### Ag and Medicine.

This money will be used to pay for all personnel and maintenance costs of the city and agricultural college campuses in Lincoln, the College of Medicine and University Hospital in Omaha, the Agriculture Experiment Station in Lincoln, the experimental sub-sta-

tions in North Platte, Valentine, Scottsbluff and Union, The School of Agriculture in Curtis, and the Teachers College High School in Lincoln.

The university's request for state tax funds, generally derived from the state property tax, compares with \$4,500,000 appropriated for the 1945-47 period. It represents an increase of 44 per cent. This request for tax funds from the entire state of Nebraska for the coming two years is roughly equivalent to the amount of money spent in one year alone to operate the public school system of Lincoln and Omaha combined.

### Increase.

The entire budget of \$10,103,194 represents an increase of 23 per cent over the current biennium. How will it be spent?

About \$4,780,000 will be spent for teaching, a sum dictated by the large enrollment at the university which now stands at an all time high. In order to give this huge number of students, particularly the veterans the kind of education they deserve, the university hopes to spend nearly five million on enlarging its instructional staff and purchasing much needed teaching equipment.

The widely varied research program of the university will be expanded to meet the demands of

## Move Lilienthal OK At Special Meeting

### Alpha Phi's, Pi Phi Gals Take Follies BRANCH TNC

Ever since Eve received top billing for her apple act single in the Garden with Adam acting as straight man, women have been trying to get in the act. Last night was their annual "claim to fame nite," they claimed and we fanned.

With deep purple best describing the marks on our throats, placed ever so lightly there by Mimi Ann Johnson's skirted Gestapo band, we watched the Alpha Phi's take blue ribbon honors in the skits and the Pi Phi's do likewise in the curtain acts. Wiggling to second and third slots for the skits were the Thetas and AOPi gals with the Tri-Delts annexing number two position in the acts class.

Jeanne Branch put the Thetas in the double money class by taking home the typical Nebraska coed title in the style show finale.

With these few formalities out of the way comes the time for description of the winners circle. Being all eye balls and drool not many wiggles and shakes escaped unscrutinized.

No. 5 spot proved to be lucky for the Phi's who coyly called their skit "As You Like it" and... we did! Director "Gace" Swanson put a nice show together and the put together gals did all that could be done. Their formula for winning proved to be "Red" Mines and Jo Nebergall on a tricycle, B. J. Olson as the gal

### Faculty Proposes Memorial Letter

By JACK HILL

In an unprecedented move, the university faculty met Tuesday in Sosh auditorium to draft a memorial advocating the immediate acceptance of David E. Lilienthal as chairman of the atomic commission.

It is believed that this university is the first in the nation to make such a move.

Represented by more than 125 members, the meeting was called by a self appointed committee consisting of Professors M. L. Baker, David Fellman, T. Jorgensen, J. L. Saylor, C. H. Oldfather and J. L. Sellers.

### Oldfather Presides.

The meeting was opened by Dean Oldfather, who presided over discussion of the memorial and its practically unanimous passage.

Prof. Sellers, speaking from the floor, commented that in his opinion, the message, which is scheduled to be sent to President Pro Tem of the Senate Arthur Vandenberg and to Senator Bourke Hickenlooper, chairman of the senate and joint senate-house committee on atomic affairs, was not vigorous enough.

Sellers read portions of an article from last Sunday's New York Times, pointing out that M.I.T.'s president, E. A. Compton, was supporting Lilienthal wholeheartedly. In answer to Dean Emeritus J. E. Le Rossignol's objections to paragraph three of the document, Sellers answered that the purpose of this move is to gain public attention and that such attention will come only when "weakness and timidity are bypassed."

Further questions as to the ad-

visability of using phraseology such as "besmirching... personal malice," and several other adjectives was mentioned by Prof. D. A. Worcester of the educational psychology department.

### Educated Should Protest.

Worcester was answered eloquently by chemistry Prof. Norman Cromwell. "Now is the time to end this business of dragging a man's name thru the mud," the professor said. He continued with pertinent comments in connection with Senator K. A. McKellar, Lilienthal's chief opponent in the senate.

Cromwell referred to McKellar's statements on "General Grove's invention of the atom" as amazing. He said that it was time for the educated to speak

## Faculty Lilienthal Memorial

We the undersigned, members of the instructional and administrative staff of the University of Nebraska, for ourselves in our individual capacities, believe that the international control of atomic energy is necessary for the security of this country and the peace of the world. The Atomic Energy Act of 1946 embodies the sound principles of governmental control that should be preserved and adequately implemented.

We are convinced that the present struggle over the confirmation of Mr. David E. Lilienthal as Chairman of the Atomic Energy Commission does not turn on personal qualifications, but is rather an attack upon the constructive policy to which this country is and should be committed.

We believe that the methods used in this struggle, and above all, the besmirching of character and the appeal of prejudices, are fraught with danger for the future of our democratic institutions.

We therefore strongly urge members of the Senate to ignore considerations of partisanship, personal malice, trumped-up evidence, and "charges of suspicion" and to confirm the appointment of Mr. David E. Lilienthal, an able, experienced, trustworthy, and devoted public servant.

Editors Note: This is the memorial being circulated today by members of the instructional and administrative staff of the university in connection with the Lilienthal appointment confirmation.

## Stanley Long Elected New Regent Head

Stanley D. Long of Grand Island has been elected president of the university board of regents. He succeeds the late V. C. Hascall of Omaha.

Mr. Long was succeeded as vice president of the board by Frank Johnson of Lexington. Mr. Long has served as a member of the Board of Regents for 20 consecutive years. This is his third term as president of the board.

### Important Notice To Veterans

Veterans who have not yet submitted V. A. Form 7-1961, entitled Estimate of Compensation from Productive Labor, or V. A. Form 7-1963, entitled Report of Compensation from Productive Labor (whichever one pertains), will risk suspension of subsistence allowance until one of these forms has been properly executed and filed with the Veterans Administration. These forms may be obtained in the office of the Consultation Board, 101 Mechanical Arts hall, and must be filed not later than March 5, 1947.

Veterans Consultation Board, J. P. COLBERT, Director.

## One Killed, Five Injured In Uni Crash

Donal G. Good, 23 year old freshman in arts and sciences was killed late Monday night in an automobile accident near 17th and A streets when the automobile he was driving missed a jog in the road and ramed into a telephone pole.

John Bergenson, arts and sciences junior, and Marvin W. Houtz, sophomore in business college, were seriously injured in the crash and are confined to Lincoln hospitals, according to police reports.

Other passengers in the wrecked automobile, Fred Good, 24, brother of Donal, Sid Sexson 25, and Dick Gustafson, 19, escaped serious injury, police reported.

### Lock Represents Home Econ Club

Lillian Lock, sophomore, has been chosen to represent the Home Ec club at the State Home Economics meeting to be held at Hastings, Feb. 28 and March 1.

Miss Lock will serve as official delegate from one of the offices of the State Home Economics club. Delegates from six other colleges in the state will be present at the YWCA.

Miss Lock is majoring in vocational education and clothing and textiles. She is a member of the Ag Exec Board and secretary of the Home Ec club and ag college meetings.

## Crosby To Talk At Convo Sponsored By Federalists

Lieutenant Governor Robert B. Crosby will be the speaker at a Student Federalist sponsored all university convocation in the Union ballroom at 3 p. m. Thursday, on the topic of "A Nebraska Approach to World Government."

Crosby, who has been a major figure in state politics, has recently been the subject of wide publicity as a result of his plea for the abolishment of his office of Lieutenant Governor, for he points out that under the present system the lieutenant governor is elected on a partisan ticket to preside over a non-partisan house.

Stating that the abolishment of the office would also tend to shorten the ballot, he commented, "Under the present system the legislature would resent it if the lieutenant governor tried to influence the unicameral. Therefore, he acts merely as a parliamentarian."
