Alden Receives Johnson Prize For Research

Dr. John R. Alden, UN historian, has been awarded the Franklin E. and Orinda M. Johnson faculty fellowship of \$1,500 for the 1947-48 academic year.

Granted a leave of absence for the fall semester to complete research work on a biography of Gen. Charles Lee, Dr. Alden will spend time in libraries and archives in Ann Arbor, Mich., New York City, Philadelphia and Washington, D. C.

Gen. Lee, an Englishman who came to America in 1773 and became one of the outstanding American leaders of the Revolution, is the only Revolutinary leader about who there has been no full length study, Dr. Alden said.

Dr. Alden hopes to have his study completed late in 1949.

Constitutions . . .

(Continued from Page 1.) of both men and women" has been deleted from the sentence "Vacancies in the Student Council shall be filled by the Student Council." Like the original provision, the revision would have members chosen to fill vacancies be "members of the same sex, class and college as were the original members," but it would detach the phrase "and in the case of men, from the same political party," because the Constitution makes no provision for the yearto-year continuation of any polical party, but rather requires that parties be officially recognized each year.

The several revisions, drawn up by Council members Ned Raun, Harold Mozer and Sam Warren, form an answer to the request for revisions made by council members and general students alike, over the last few years.

Personally Speaking

By Norm Leger

We enjoyed the past week, despite a disgruntled prof or two who didn't appreciate such things as our not showing up in class. We heard the Chancellor speak at the first hearing of the legislative committee on university appropriations, and were proud to know that not only could he present the university's case in a sincere and convincing manner, but could toss in a few humorous comments as well, to jostle the state house Big Boys who were present. Don Kline did a neat job too, and wasn't bothered a bit by one of the legislators who for little reason became rather contentious. It did our heart good to see a student speak to the committee members on a man-toman basis and let them know that the student body is behind the Chancellor.

And then there was the Cornhusker party caucus meet last week. Crib talk would have us believe that the faction (if there is a faction) took a beating, but having heard how shrewd the "sub rosa" boys are we kind of imagine that they'll pull a few tricks out of the bag before spring elections roll around. And don't let the sororities' past actions fool you. Tuesday night's session proved that a few of the greek gals haven't the slightest anti-faction feelings at all.

The University Theatre production of "Macbeth" closed last night, and we want you to know, regardless of what we might have said in our Thursday's criticism, that it was a good show. One of our friends, who described the write-up tersely as "lousy!", felt that we left the reader with the impression that the production was mediocre. It wasn't, for, from a production standpoint alone, it was an admirable undertaking, and Thursday night's audience saw the great improvements made over the opening night. Our heartiest appreciation goes to Hank Lee and Blanche Duckworth (the leads in the show) for thanking, instead of condemning, us for attempting to give an honest report, rather than tossing superlatives around with abandon as one of the city papers did.

And as long as we're on the subject of theatre, we want to put in a word about "The Silver Cord," an experimental production which will be presented Thursday night. It's a fine show, a lot of hard work has been put in it, and people connected with the production would be happy to see more than the usual experimental theatre attendance when the curtain rises. Pee-Wee Novotny, an exceptional BWOC in that she has found time for theatre work as well as for many other campus activities, not the least of which are Mortar Board membership and former president of Student Foundation, has the lead as the domineering mother, Mrs. Phelps, and if Pee-Wee's friends and acquaintances alone come to the play the experimental theatre will be assured of a full house.

Thursday night we pulled a deal, flashed our press eard, and got to see a bit of the Kosmet Klub rehearsal. All that we have to say right now (and we'll be saying more later on) is "look out for Jerry Johnston!" We've heard of comedians who are funny enough

to stop the show, but Jerry does them one better—he stops rehearsals—with his hilarious impersonation of the "On Georgie-Porgie" coed from Aksarben U.
