## Statistics Prove Girls' Ratio To Men Increasing Annually

BY ROBERT METRAKOS.

Men—Are you losing weight? Do you have sleepless nights worrying about the source of your next date? Well, don't! According to a recent survey made by James Bender, a well-known Doctor of Psychology of the National Institution of Human Relations, there are seven women to every man in the United States between the ages of 18 and 27. And men, these figures are not decreasing, but increasing each year. Up to now, the fairer sex has been in the drivers' seat because the ratio was in the opposite direction, but now the table has turned.

#### Advice to Girls.

In his speech, the doctor gave sound advice to the fairer sex when he said, "Come down off your horse, gals, and if you have a man that you think anything of, hold on to him. Don't try to analyze his faults too much because you might have the same faults yourself and it is not easy to pick another as you might think." He also said "that men are sick and tired of being on the receiving end and are going to start dishing it out for a change."

He went on to explain that although there are already a great number of bachelors in the United States, more men are going into professions such as scientific research which turn them from married life into bachelor-

hood. Seventeen percent of eligible husbands wish to remain single because of this.

#### Proved Statistics.

You might ask what has all of this to do with the average coed? Just this, I'm not saying all girls in school are looking for a husband, but statistics show that a very high percentage of coeds all over the country marry the man that they meet during their stay in college. So come on, gals, let's break down and give us all a chance. Why make us call two weeks in advance for a date? Isn't a week's notice long enough?

Unless the date is for some big occasion such as the Military ball or Mortor Board party most fellows feel that two weeks is too far in advance. After all, a lot can change in 14 days. I know the argument given by most of you girls is that if a fellow really wants a date with a certain girl, he will call two weeks in advance. Okay, maybe he will. But stop and put yourself in the fellow's shoes. You know we have a little pride. Why not think it over? You can't lose a thing either way.

#### LSA

City campus LSA will install new officers at their meeting today at 5 in First Lutheran church.

Ag LSA will have a Bible study conducted by the Rev. Mr. Petersen at 6:30 in the Ag center.
