

Goal for All-University Fund Set at \$13,200

A goal of \$13,200 has been set for the All University Fund fall drive, Beth Noerenberg, AUF director, announced today. The purpose of the drive is to raise funds for the Community Chest and the World Student Service Fund.

Since all of the funds raised for the WSSF are obtained thru campuses all over the United States, a greater portion of the funds raised on the Nebraska campus will go to the WSSF. The money is used to provide sufficient material relief for students in war-torn countries to enable them to pursue their university work.

Secretary on Campus.

Bill Allaway, traveling secretary for the WSSF, has been on the campus during the past week helping the AUF officers and planning committee get the fall drive underway. In regards to the needs of students in foreign countries, Allaway stated, "In travelling thru Europe this summer it became more and more evident that unless food and clothing were sent to universities in middle Europe, and students with tuberculosis were permitted to enter sanatoriums, university life would be dominated by the effort needed to just survive rather than an attempt to carry on a course of studies under difficult conditions. Many times the materials provided by the WSSF make the difference between whether or not a student can continue his studies, and in the matter of tubercular students it is a matter, pure and simple, of life and death."

Drive to Open Nov. 3.

The fall drive will not open officially until Nov. 3, Miss Noerenberg stated, but pointed out that in the weeks preceding the drive the AUF planning committee will devote its time to making evident to the student body the great importance of aiding foreign students thru the

WSSF and planning the drive so that every student on campus will have the chance to contribute to the drive. Farmers to Pick Ag Queen Today

Ag Students to Ballot for Queen of Annual Formal

Ag students will go to the polls today from 8:30 a. m. to 5:00 p. m. to elect a farmers formal queen. All Ag students will be eligible to vote in the election which will take place in the student union. The queen and her royal party of six attendants will be chosen from a list of 30 girls named eligible for the honor by the Home Ec department.

Students will vote for three candidates and the girl receiving the most votes will be crowned queen. The next six girls will appear as her attendants when she is presented on the night of the dance.

The purpose of having the election in advance of the dance is to enable the costumes for the honored ones to be prepared in advance, according to Charles Brim and Ned Raun, publicity chairmen for the ball. This method was first tried last year and found to be superior to the old method of voting at the door.

The dance is a formal in name only, and jeans and calico will replace the customary tuxes and formal dresses. Theme of the ball will be a secret until the night of the dance. Last year's theme was "Harvest Time" and decorations included shocks of corn and bales of hay.

Morton Wells and his orchestra have been engaged for the dance. Tickets are two dollars each and are on sale at the office in Ag Hall or in the Ag Union. They will also be available at the voting booth.

Students are also reminded to sign their names at the voting booth tomorrow if they desire the "date bureau" to assist them in getting a date. The bureau is a new idea of the Exec Board to help students in getting acquainted. How well the plan will work depends upon the cooperation of the students.

No GI Checks Until Nov. 1 Director Says

Veterans attending the University on the GI bill should be prepared to meet their personal obligations for at least the first six weeks of the fall term, Ashley Westmoreland, regional VA office director, affirmed Monday.

The time lapse between enrollment and the receipt of the initial check involves two factors, he said.

A veteran generally is not entitled to a subsistence check until he has been in school 30 days, and that normally all checks are mailed the last day of the month, covering the previous 30 days.

Not Till November

On that basis, a veteran who entered school on or after Sept. 15 should not expect a check any earlier than the first of November.

Westmoreland added that the 1947 veteran enrollment is expected to top "by at least 10 percent" the 13,794 total for the state last year.

Other tips for vets from Westmoreland were:

Vets transferring from one school to another should obtain from the VA a supplemental certificate of eligibility.

All vets should give VA immediate notification of any change in their residence addresses at school.

Union Announces Dance Lessons

The Union Activities Committee has announced a series of social dance lessons beginning Tuesday at 7:30 p. m. The lessons are free and under the direction of Miss Donna McCandless, professional dance instructor.

Classes will be held every other Tuesday for both men and women and a free party will be given at the end of the course.

USNR Loans New Projector

A new attraction has been added temporarily to the Union lounge. It is the compact movie projector and screen unit the Naval Reserve has installed to give the students a view of naval life in an effort to promote the U.S.N.R.

At present only one film, on submarines, has been shown, but there is a reserve supply of about a half dozen and a different show is expected every day.

After the film showing unit has been in the Union for a few days, it will be moved to Naval Reserve building on the Lincoln Air Base where it will be used to show training films from the large stock the navy will supply.

An added note of interest is the new Navy Reserve building being constructed on North 10th street.

UN Desires Participation In Foreign Training Plan

Full participation in the educational exchange program authorized by the Fulbright Act is hoped for the university during the 1948-49 academic year, Dean of Faculty C. W. Borgman announced Monday.

The Department of State is authorized by the measure to use certain foreign currencies and credits for programs of educational interchange. The funds were obtained from sale of surplus property abroad.

Financial assistance will be available to U.S. citizens for study, research, teaching and other educational activities in the schools of the participating countries. The assistance payments may be for transportation, students' tuition, teachers' salaries and incidental expenses.

All expenditures must be in the available foreign currencies. Payment for transportation and other expenses can be made only when such currency is acceptable. Veterans will be given preference. It is believed that benefits under this act may be used to supplement those received under Public Law No. 316 or the GI Bill.

Grants probably will be made in accordance with the needs of the individual and the availability of other income.

Selections will be made from candidate residing in all sections of the country. Although scholastic and professional requirements have not yet been established,

Dean Borgman indicated that students will be drawn from the senior or graduate levels.

Co-operating institutions abroad and the fields open will be announced by the Department of State in the near future. Applications are not being accepted at this time.

Interested students should maintain contact with the university administration, Registrar G. W. Rosenlof stated, either through his office or that of Dr. Borgman.

Students, teachers, and other professional persons will be allowed to apply for their respective type of grant as soon as the university learns the requirements of the program. Dr. Rosenlof emphasized that this information is now being sought from governmental sources.

Arrangements with over 22 countries are now being worked out. The countries include the United Kingdom, Australia, New Zealand, Finland, Netherlands, Denmark, Belgium, France, Czechoslovakia, Austria, Hungary, Poland, Italy, Greece, Turkey, Egypt, Iran, China, The Netherlands East Indies, Philippines, Siam and Burma. Several other countries may be added to the list.

The exchange program under the Fulbright Act is not connected with either the current Institute of International Education program or the contemplated UNESCO program.
