To the Editor:

Not long ago, Love Memorial library, replete with modern lighting, air conditioning, shiny restroom fixtures, and no small number of excellent books, was officially dedicated to the pursuit of knewledge. Easy access to books, courteous and helpful librarians, and a polite gestape on the sec-ond-floor landing are only a few of its good features.

As you know, many courses in the several colleges of the universay require extra-textbook reading. The books for this purpose are held in reserve, to be checked out only for two-hour periods for study in the library, or, during the closing hour of the library's day, to be checked out for home study until 9:00 a.m. on the next week day. Due to the greatly disproportionate number of students to books, a more satisfactory procedure would be hard to devise.

This situation, however, works considerable hardship on students who live a great distance from the campus; especially during this winter season when frigid and icy conditions render traveling to and from the campus somewhat more than uncomfortable and precarious. The married student, who lives in Huskerville, or the single student who takes his meals with Aunt Piety in Havelock-and I. incidentally, am neither of thesefinds it very inconvenient, if not impractical or even impossible, to finish a lab at 5 o'clock, wait for a bus (which usually doesn't stop because of a full load), ride home, dine, perform the little woman's chores, wait for the bus again, and get back to the library to use reserve books with enough time left to make the trip worth-while.

Why not issue a certain number -say, one-third-of reserve books, for overnight use, beginning at 5 p.m. each evening? The remaining two-thirds would remain on the shelves to be issued in the regular manner, My supposition is that even a conscientious student is often discouraged from making the extra round trip to use them.

Whether the plan as a whole is feasible is a matter for the judgment of the library officials, but I believe that the interests of a considerable number of students merit it worthy of consideration.

Ernie Fruhbauer (Bizad.) Very truly yours,

Editor, The Daily Nebraskan:

Inasmuch as preliminary plans had been made and announced regarding an All-Campus Forum on Russia, we wish to take this op-portunity to explain the reason for the forum's being postponed until February.

Since there is a great deal of public reaction and tension regarding Russia and Communism. we wish to be sure that enough preparation was made by students and faculty for our forum. In connection with this, we referred our plans to Chancellor Gustavson in Mexico. He was very interested in our proposals. He expressed his interest in being sponsor of such a project, and wished that he could be on the campus for such an important event.

In light of the Chancellor's recent return from Mexico and committments from now through January, we have postponed our forum until February.

Resceptfully, Shirley Schnittker, President, University YWCA Ted Sorensen, President, University YMCA
