

# Agriculture Groups Begin Annual Meet

Ag college plays host to various agricultural organizations of the state today as these groups open their annual meetings on Ag campus. Students may attend all sessions if they secure permission from their instructors.

"Organized Agriculture is one of the most important series of meetings held at the Ag college," said Dean W. W. Burr of the college of agriculture. "Many of the associations meeting here call for the annual meeting of Organized Agriculture in their constitutions. We can always expect a large attendance unless the weather is adverse."

### Joint Meetings.

Registration begins today at the Activities building where two joint meetings of all organizations will be held at 1:00 p. m.

J. S. Russell, farm editor, Des Moines Register, and Dr. L. C. Cunningham, Cornell university, are among the speakers for these joint meetings.

At 3:30 p. m. there will be a tea and open house in the Food and Nutrition building for the delegates of the Home Economics Association.

Today's session of the Honey Producer's Association will include addresses by President John Tideswell of Omaha and Mrs. Henry Puppe of Nebraska City. Among other speakers will be William C. Roberts of Madison, Wisconsin, whose topic is "The Genetics and Strain Improvement Plans for Bee Culture."

### Alumni Gather.

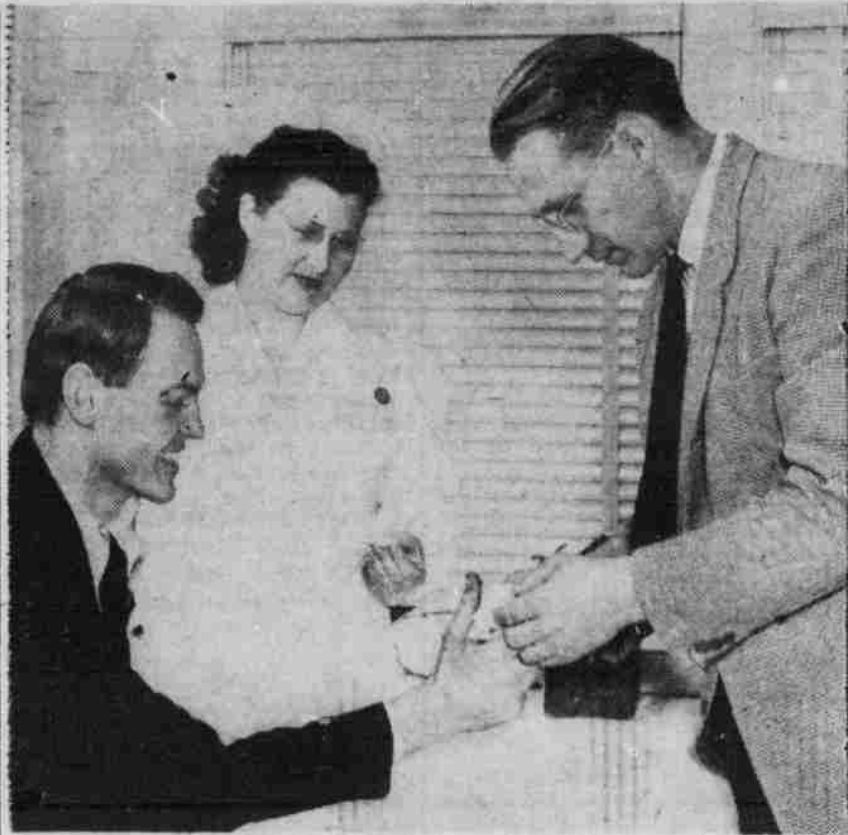

Ag college Alumni Association will have a general meeting at 306 Ag Hall at 7:00 p. m. and the Nebraska Crop Improvement Association will hold its annual banquet at 6:30 p. m.

Many speakers are scheduled for the next three days and a complete program has been outlined.

# Show Atom Film In Union Feb. 5

"God of the Atom", a scientific film in technicolor featuring scenes of the atom bomb blast at Bikini atoll, will be shown in the Union Ballroom at 4 p. m. Thursday, Feb. 5, sponsored by the Inter-Varsity Christian Fellowship.

The third in a series produced by Dr. Irwin A. Moody, director of the Moody Institute of Science, the film includes an eye-witness account by Lawrence Johnston, physicist, who was present at all three of the bombings. Also featured are pictures of the giant 184 inch cyclotron at the University of California, of the manufacture of radio-active salt for medical use, and of a demonstration of the Geiger counter, used to detect the presence of radioactivity.

**STUDENT HEALTH SERVICE**—The staff of the student health service includes eight Lincoln physicians, serving on a part time basis. One of them is Dr. Paul Goetowski, above. The patient is Walter Davis, Arts and Science junior from Kearney, and the nurse looking on is Mary Fager.

# Daily Nebraskan

Vol. 48—No. 72 Lincoln 8, Nebraska, Tuesday, February 3, 1948

## Class Changes Start Thursday In Love Library

Drop and adds for the second semester must be made Thursday and Friday, Feb. 5-6, in the west reading room on the first floor of Love library. Dr. Floyd W. Hoover, assistant to the registrar, announced Tuesday.

Students must bring their green copy of the form obtained when they registered. Dr. Hoover explained this is necessary so his office can make proper fee adjustments.

"Graduate students and others registering late will find it to their advantage to register before Wednesday, and miss the rush of undergraduates making schedule changes the end of the week," Dr. Hoover said.

Drop and add numbers will be issued and called by groups as was done during the original registration.

### Graduate Club to Meet Wednesday in Union

Graduate Club will hold its first meeting of the second semester Wednesday in Union parlor X, according to George Fratto, general chairman.

## Enrollment Opens For Night Military Intelligence Class

Applications for enrollment in the ROTC military intelligence classes may be made at the first meeting Feb. 3 at 7:30 p. m. in the new Military and Naval Science building.

The course is open to advanced ROTC students, and reserve and national guard officers, Col. Howard J. John, professor of military science and tactics, said Friday.

The class, which will meet one night a week for ten weeks, will be offered by the military department on an extra-curricular basis. Reserve corps and national guard officers may receive inactive duty credit on an hour-for-hour basis, but no compensation will be paid.

Those completing the course receive secondary military occupational specialization numbers in military intelligence and are eligible for selection for intelligence assignments if called to active duty.

## Phi Beta Kappa To Hold Dinner Meet Feb. 4

Phi Beta Kappa will hold its regular monthly dinner meeting at the Union, Wednesday, Feb. 4, when the members will be addressed by Dr. Walter Militzer of the university faculty. The members of the fall class will be received at the meeting and their keys will be awarded to them.

Dr. Militzer will discuss "Inside Biochemistry". New developments in this field will be discussed, both as to methods employed and the results being obtained.

Members of the society are welcome at all meetings, the president, Dr. Brown, pointed out, and are asked to make their reservations promptly.

Members of the fall class announced in November are: Lois Chantry, Leslie Guildner, John McCorkle, Donald Patterson, Mrs. Beth Ramey, LaRoy Seaver, Elmer Sprague, Jr., Marilyn Stahl, Norman Sundberg and Clarence Tunberg.

### Freshman English

For prompt assignment to permanent sections, it is essential that all students registered in freshman English attend the first meeting of their classes. Certain sections will meet at places different from those announced in the printed schedule, as follows:

- English A, all City Campus sections, 210 NH.
- English 2, Section 60, 107b SS.
- English 2, Section 70, 206 RL.
- English 3, Section 3, 113 SS.

# New Medical Center Now Officially Open

## City Campus Center Will Give Students Entire Health Service

Complete health service for every student became available Monday for the first time in the history of the university with the official opening of the Student Health Center on city campus.

Housed at present in a two-story, war surplus officers barracks which is located north of Teachers College on the mall, the Health Center shares quarters with a temporary hospital of 26 beds.

### Semester Grades Available by Mail

First semester grades will be mailed directly to students about Feb. 15, Dr. G. W. Rosenlof, university registrar, said today.

Under the new one to nine grading system two is a passing grade. Dr. Rosenlof noted that a cumulative grade average of four must be maintained for graduation.

The new grade scale compares to the percentage system used through last year as follows:

New grade scale	Percentage rating
9	95-99
8	90-94
7	85-89
6	80-84
5	75-79
4	70-74
3	65-69
2	60-64
1	F
A	Incomplete
	Dropped in good standing

## Kay Menke Wins Chance At KU Contest

Kay Menke, business administration junior, was chosen Union Sweetheart Monday to represent the university at the Sweetheart Swing to be sponsored by the Student Activities Committee of the University of Kansas at Lawrence Saturday, Feb. 14. She is a member of Delta Gamma sorority.

The 12 finalists of the U.N. beauty contest were given the opportunity of entering into the competition. Of this group, only five were able to compete with the prospect of making the Kansas trip. They were Bobby DeJarnette, Barbara Bush, Kay Menke, Sherry Swanson and Priscilla Knudsen. Miss DeJarnette was chosen as alternate.

The new Union Sweetheart is one of the ten most popular girls from the campuses in Kansas, Missouri, and Nebraska to be invited to participate in the K.U. event. She will be escorted through a day of festivity by one of the men selected as the most datable on the University of Kansas campus. In the evening, one of the ten couples will be selected to reign as King and Queen at the Sweetheart Swing.

Contestants were graded upon beauty and personality.

## Singers Name 'Carmen' Chorus and Orchestra

Names of the stage chorus and orchestra personnel for the School of Fine Arts production this weekend of the opera "Carmen" have been announced. Sixteen members of University Singers, mixed choral group, will be on stage in costume, while the remainder of the 120-voice Singers will sing from boxes at either side of the orchestra pit, as in past years.

From the ranks of the 75-piece University symphony orchestra, director Emanuel Wishnow has selected 27 musicians to compose the opera orchestra. Although the size of the orchestra is limited by the size of the orchestra pit, full instrumentation will be used. Wishnow rehearses the orchestra for the Feb. 5, 6, and 7 production, but Dr. Arthur Westbrook, Director of the School of Fine Arts, will conduct the entire ensemble in performance.

Admission tickets may be exchanged for reserved seats at the Temple Theater box office from 12:30 to 6 p. m. through Thursday night. General sales close before opening night, according to business manager Lawrence Tagg. Tickets may be purchased from members of University Singers, the fraternal music organizations, and from Union and School of Music offices.

Included in the stage chorus are

"If a man is in poor health after he graduates, he is no asset either to his community or to his profession," declared Dr. Samuel I. Fuenning, director, as he outlined the Health Center's program of preventive medicine.

### TB Survey Important.

Most important phase of this program thus far, Dr. Fuenning stated, is the TB survey which not only brings to light lesions due to tuberculosis, but also heart, lung and spinal conditions not readily apparent.

Dr. Fuenning emphasized that the present location and facilities of the center are temporary, and that a permanent and more completely equipped structure is tentatively planned.

The number of students who have visited the health center since its transfer to new headquarters has doubled or trebled, the director reported, and the present staff has been kept busy handling the increased group. It is expected that the staff will soon be supplemented with additional members.

### Plan Medical Counselor.

One of Dr. Fuenning's most striking plans for the future is that of Medical Counselor, a trained M. D. who will assist students in preserving or developing better physical and mental health while they are on the university campus. The counselor will be a qualified psychiatrist as well, to enable him to deal expertly with all types of student health problems.

Cost of most of the advantages now available to students is covered by registration fees and includes five major types of health service:

1. General Medical Service
2. Laboratory Service
3. Pharmaceutical Dispensary
4. Hospitalization
5. Dental Examinations

### Voluntary Program.

The entire health program, with the exception of physical entrance examinations, is voluntary.

Eight full and three part time nurses, a part time dietician, two cooks, an X-ray technician, a laboratory technician and two orderlies compose the staff of the Health Center. Staff and consulting physicians are all Lincoln doctors who serve part time.

**NEW DIVISION HEADS**—Heads of three of the university's new operating divisions were announced Friday by John K. Selleck, university business manager, seated left. They are, standing: Carl A. Donaldson, director of the division of purchasing and procurement, left, and James A. Blackman, director of the division of buildings and grounds. Seated next to Mr. Selleck is W. C. Harper, new director of the division of commercial enterprises. A director of a finance division will be named later.
