SUMMER EDITION

Tuesday, June 8, 1948

Registration Procedures Begin; Enrollment May Reach 4,000

Chancellor Gustavson . . .

Chancellor Reuben G. Gustavson, has for the past thirty years a complete broadway play, with been a leader in education in the midwest, first as a professor of one actress taking all parts in the chemistry and later as an administrative officer. He has won numerous awards in the field of bio-chemical research.

Chancellor Gustavson was one of the five United States dele- tire retinue of characters, will gates to the UNESCO conference in Mexico City. He was born in produce a contemporary Broad-Denver, Colo., April 16, 1892. He received his AB and MA in bio- way play on July 27, with the aid chemistry from Denver University in 1916 and 1917 and his Ph.D. of special props and costumes for degree from the University of Chicago in 1925. In the spring of each of the members of the cast

Musicians To Appear

The air-conditioned Union ballroom will be the location to a summer artist series of four outstanding features, including musical and dramatic productions.

The series opens June 14 with the presentation of Sir Arthur Sullivan's comedy-operetta about the housing shortage, "Cox and Box." The New York cast, with three starring roles, includes Art Gallagher as Mr. Cox, Carl Nicholas as Mr. Box, and Ellis Gilbert as Mr. Bouncer. Music for the play is produced by Thomas

Violinist to Play.

The second artist to appear on the Union stage will be Melvin Ritter, New York concert violinist. The program for the June 24th recital will be announced in the near future.

On July 7 the Fielder trio, made up of three artists who have been past soloists with the Dallas and Kansas City symphonies, will give a concert of popular flute, cello and piano melodies.

The final production promises to be one of the most unique to appear on the Nebraska campus, cast, Miss Maud Scheerer, famous for her ability to portray an enway play on July 27, with the aid

Majority Attend 9-Week Session

Registration procedures for new students for summer school will take place today in the coliseum, temporary building B and Grant Memorial. About 2400 have registered early for the summer session and there is reason to think enrollment will total at least 4,000 for the term, according to Registrar G. W. Rosenlof.

It appears now that the majority of students are going to attend the long, nine-week session. Enrollment will probably not reach last summer's record number of 4,500, but there will still be a sizeable enrollment, Rosenlof said.

Change Procedure

Summer procedures have been changed this year. In the past officials have tried to take care of the whole process in the coliseum. However, to avoid the customary confusion and standing in line, registration has been broken into three parts and will take place in

Advisory function will be carried on in the coliseum. Students may see their advisors concerning their summer programs from 8-12 and from 1-4:30. After consultation with advisors, students are to pick up registration tickets at the Northeast corner of the coliseum. There will be signs for the students' convenience. This has been arranged so that all students will not appear at the assignment committee at once, according to Dr. Hoover, assistant registrar.

To Post Numbers

After obtaining tickets, students are to follow signs to Temporary building B where numbers being taken at the time will be posted. Numbers will also be posed in the library and in the Union. Students will see the assignment committee in building B. The committee will take students according to the numbers they hold.

After going through the assignment committee, students are to pay fees at Grant Memorial. Direction signs will be posted.

All classes will start on schedule Wednesday, opening the summer term, Dr. Hoover said.

University to Be Testing Ground for UN **Educational Experiment This Summer**
