

The Daily Nebraskan

Member
Intercollegiate Press
FORTY-SIXTH YEAR

Subscription rates are \$1.50 per semester, \$3.00 per semester mailed, or \$2.00 for the college year. \$3.00 mailed. Single copy 5c. Published daily during the school year except Mondays and Saturdays, vacations and examination periods, by the University of Nebraska under the supervision of the Publication Board. Entered as Second Class Matter at the Post Office in Lincoln, Nebraska, under Act of Congress, March 3, 1879, and at special rate of postage provided for in section 1103, Act of October 3, 1917, authorized September 10, 1932.

The Daily Nebraskan is published by the students of the University of Nebraska as an expression of student news and opinions only. According to article II of the By Laws governing student publications and administered by the Board of Publications: "It is the declared policy of the Board that publications under its jurisdiction shall be free from editorial censorship on the part of the Board, or on the part of any member of the faculty of the university; but members of the staff of The Daily Nebraskan are personally responsible for what they say or do or cause to be printed."

FA School Plans Five Special Music Features for Summer

Five special music features for the University of Nebraska summer school were announced last week by Dr. Arthur Westbrook, Director of the School of Fine Arts.

Max R. Eisberry, Chicago, has been engaged as a visiting instructor who will teach a graduate course in music history, as well as private organ students. He has had extensive experience with the Hammond organ and his instruction on this instrument will be available July 6-30. Students and church organists who wish detailed information should write the School of Fine Arts.

Noonan on Campus

John P. Noonan, nationally known percussion specialist, will be on the campus July 12, 13, and 14 to conduct classes and personal interviews especially for school and band and orchestra directors.

An artist concert series of four programs has been arranged as follows: June 14—Cox and Box, comic opera artists; June 24—Melvin Ritter, violinist; July 7—The Fielder Trio (flute, cello and piano); and July 27—Maud Scheerer, character actress.

Concerts Arranged

Two special concerts have been arranged by university groups. On July 12 there will be a concert by the Summer Chorus and on July 14 a "pop" concert by the summer orchestra.

The All-State High School Music Course will be held on the campus June 10-July 1. The All-State chorus concert is scheduled for June 25, the All-State Orchestra concert for June 27, the All-State Band concert for June 29, and a final concert all three for July 1.

Nutrition Lab Launches Study

A new attack on the old problem of nutritional anemia is being launched at the University's human nutrition laboratory.

This one, financed with a \$4,125 grant from the Smith-Dorsey company of Lincoln, is aimed to find out how readily women absorb iron from certain ferrous compounds.

Dr. Ruth M. Leverton will direct the study. She said 150 women will participate in the project. The initial study will run for about two years and, among other things, will result in a precise record of the effect of certain iron compounds on hemoglobin values.

The grant to finance the study was made to the University Foundation. Last year Dr. Leverton's study on the effectiveness of meat in the diets of babies received wide acceptance across the nation.

GIRL OF THE WEST

Although Paramount's "Whispering Smith" is Brenda Barshall's first film with an Old West setting, she is no stranger to the wide-open spaces. She was born on a plantation in the Philippines, spent her girl-hood in San Antonio, Texas.

1948 Nebraska Builder Award Goes To Historical Society Museum Director

A. T. Hill, director and curator of the Nebraska State Historical Society museum, is the 1948 recipient of the "Nebraska Builder Award," highest non-academic honor conferred by the University of Nebraska.

The award was presented Mr. Hill at commencement exercises of the university Monday, June 7.

The Board of Regents created the award in 1946 to recognize persons who have contributed "outstandingly valuable services to the citizens of the state of Nebraska." The recipient is selected by a committee of university college deans headed by Dear R. M. Green of the College of Engineering and Architecture. Nominations are made by the public.

Won Previously.

Previous award winners were Paul H. Grummann, Omaha, former director of Joslyn Memorial Museum, 1947; and R. H. Willis, chief of the Nebraska Bureau of Irrigation, Water Power and Drainage, 1946.

Mr. Hill, 76, is a native of Illinois. In 1878 the Hill family moved to Kansas where they were sodhouse homesteaders. He grew up there. His formal education ended in grade school.

At the turn of the century Mr. Hill was a wholesale distributor of automobiles. In his travels in Kansas and Nebraska, popularizing the new mode of transportation, he paused on day in 1906 near Republic, Kas. A monument was being unveiled on the supposed location of a visit of Zebulon Pike, explorer after whom Pike's Peak is named, to a Pawnee Indian village. He became interested, extensively studied Pike's travels, and discovered the site was really in Webster county, Neb.

Search Conducted.

This incident led to an amateur, and later a professional, half century's search for historical, and pre-historical information about people who lived in Nebraska. Today Mr. Hill is known as the "father of systematic archeology in Nebraska," which is the science of studying the relics of past human life.

Mr. Hill's interest in Nebraska's past brought him in close association with the Indians of Nebraska, particularly the Pawnees, who made him a member of the tribe.

In the nineteen twenties he was associated with the late Dr. A. E. Sheldon of the Nebraska State Historical Society on field trips and in 1926 became a member of the society. Since that time he has served on the Board and in various offices of the society. Early in 1927, Mr. Hill and A. M. Brookings of Hastings started the Hastings Museum which is now that city's well known "House of Yesterday."

Contributed.

In 1930-31-32 he contributed money and equipment to University of Nebraska archeological expeditions. Since then he has continued to recover the story of Nebraska's past with annual Historical Society expeditions which were interrupted only by the war.

"Mr. Hill is an esteemed public servant. His contribution to the history and pre-history of Nebraska constitutes a great cultural achievement," Dean Green said. "For a half century he has produced much information on Nebraska's past. He has inspired many young men to achieve greater things in life as a wise counselor. His archeological work has received national recognition. He has been a true guardian of the historical resources of this state."

HISTORICAL LAKE

Veronica Lake, co-starring with Alan Ladd in Paramount's "Sargon," is collecting dolls of all nations, and has one group of dolls illustrating the history of the United States.

Kerrigan, Chessen To Head Summer Daily Nebraskan

Jeanne Kerrigan and Irwin Chessen will head the summer Daily Nebraskan staff this year in the positions of editor and business manager respectively. Appointments were made by Dr. W. F. Swindler, director of the school of journalism and chairman of the publications board.

Miss Kerrigan and Chessen were also appointed in May by the Publications board as editor and business manager of The Daily Nebraskan next fall.

Students wishing to report for the summer Nebraskan may contact Miss Kerrigan at the Nebraskan office or 2-7875. Reporters may work in the morning or afternoon depending on when they have free hours.

The summer Nebraskan will be published twice weekly on Tuesday and on Friday.

Disabled Vets' Car Applications Due on July 1

Seriously disabled World War II veterans, eligible for automotive vehicles at government expense, have until July 1, 1948 to submit their applications, Ashley Westmoreland, manager of the Veterans Administration regional office in Lincoln, said today.

Westmoreland advises these veterans in Nebraska to apply for their cars at least 15 days before the deadline to allow ample time to process their applications.

The law provides an automobile or other conveyance, at a cost not to exceed \$1,600, for any World War II veteran who lost, or lost the use of, one or both legs or above the ankle as the result of service-incurred injuries.

Graduate School Scheduled at Ag

A special graduate school for town and country pastors will be held July 6 through 22 at the University agriculture school at Curtis.

Two courses designed to emphasize the practical phases of small church administration will be offered. The work will consist of lectures, discussions and reading.

Conducting the courses will be the Rev. Ralph A. Felton and the Rev. Luther P. Powell, both of McCormick Theological Seminary of Chicago. The accredited courses are arranged by the Seminary in co-operation with the Curtis school.

Severson To Direct Chemurgy

Appointment of Dr. G. M. Severson as the new director of the university chemurgy project, was approved by the board of regents recently.

He is currently chief of research and development of Enzymes, Inc., agricultural crops processing concern of Eagle Grove, Ia. Dr. Severson will assume his duties at the university July 1.

Well Qualified.

"Dr. Severson's academic and industrial experience make him especially well qualified for the job," Dr. C. W. Borgmann, dean of the faculties said. "His appointment is another step to strengthening the chemurgy project. Additional staff members will be named after Dr. Severson takes over. The project is being expanded to take a more active part in developing a sound chemurgy program in the state."

Dr. Severson, a bio-physical chemist and bacteriologist, was research director for the Farm Crops Processing corporation of Omaha in 1945.

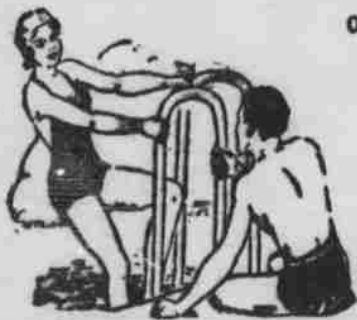

Iowa State Grad.

The new Nebraska chemurgy chief received his bachelor degree in 1931, and his doctor of philosophy in chemistry in 1936, both from Iowa State college. He worked in an industrial alcohol plant at Atchison, Kas. from 1936 to 1939; was a research worker in starch for the Corn Products Refining company from 1939 to 1941.

In 1941 he was a research chemist for the university's chemurgy project, working on the problem of alcohol production in association with the office of production research and development.

AFTER CLASSES

Cool off with a swim in the beautiful salt water pool or bring your books and get a sun tan while you study...

RIDE — SKATE
SWIM — PLAY!

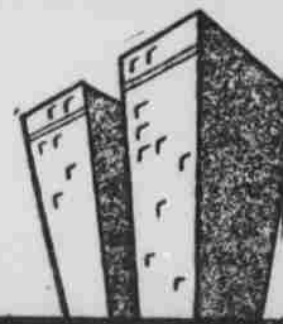

Dance to the music of the Kingsters and his orchestra tonight at Kings

Friday is College Night at Kings—Couples Only

FOR YOUR PLEASURE THIS SUMMER!

Enjoy the air-conditioned comfort and the delightful atmosphere of the Coffee Shop and the Tasty Pastry Shop at Hotel Cornhusker ... where you will find good things to eat, deliciously prepared and attractively served.
