

Agronomists Discuss New Methods for Old Problems

New methods of dealing with old problems held the spotlight at the field day sponsored by Ag College agronomists Thursday. The college played host to the states agriculturists.

In keeping with the present trend, 2,4-D received a lion's share of the interest. With Dr. F. D. Keim as acting chairman several of the college's weed experts delivered facts and figures in the morning. J. D. Furrer, Dayton Klingman, and Niel Shaffer all discussed some experiments now being carried out at the station.

Insect Control.
Also in the morning, Dr. Ephraim Hixson, chairman of the Entomology department, told of progress on insect control. A question and answer period was held to clear up any hazy points.

Visitors had a chance to view equipment used in spraying weeds, cleaning and treating of seed, during the remaining time.

Afternoon sessions convened at the agronomy farm, and cropping practices there were explained on a conducted tour. Among the interesting new developments performed was crop spraying by airplane, a wrinkle becoming more popular in modern crop treatment.

Stubble mulch farming received much attention from the agriculturists. Practices in this type of farming have been carried out for the past ten years on the agronomy farm.

Lambert . . .

(Continued from Page 1.)

bert was in the U. S. Department of Agriculture. He directed the livestock breeding program of the Bureau of Animal Industry. This included the work at Beltsville, Maryland; Fort Wingate, New Mexico; Dubois, Idaho; Miles City, Montana; Jeanerett, Louisiana; Brooksville, Florida; and Middlebury, Vermont. During this time, he also helped establish the Bankhead-Jones regional research laboratories at Dubois for sheep, the Ames swine laboratory and the East Lansing poultry laboratory.

In 1940, he went to Purdue university at Lafayette, Indiana, where he was Associate Doctor of the Purdue Agricultural Experiment Station until 1945.

Dr. Lambert was appointed assistant administrator of the agriculture research administration in the U. S. department of agriculture in 1945 and on Nov. 1, 1946, was named the administrator. He has served in that capacity since that time.

Served Many Groups

Dr. Lambert has served on many national and international agricultural groups. He was a member of the United States delegation to the Food and Agriculture Organization of the United Nations to Copenhagen in 1946 and again at the Geneva conference in 1947.

He is a member of the Board of Alternates on the President's Scientific research board, a member of the Government's Interdepartment Committee on Science, a member of the Mexican-United States Agricultural Commission.

He belongs to Sigma Xi, Phi Kappa Phi, Gamma Sigma Delta, Alpha Zeta. In addition, Dr. Lam-

Union Activities Highlighted by Square Dance

Highlighting this week's Union activities will be a square dance in the ballroom starting at 8:30 p.m. Saturday. A portion of the evening will be taken up with instruction and the rest of the evening will be filled with dancing. Dave Saunders will do the calling.

Director Duane Lake has announced a full schedule for the week starting with the Siesta hour on Tuesday at 4:00 p.m. Selected short subjects will be shown on comedy, travel and music.

The craft shop is now open every Tuesday afternoon and Wednesday evening for projects. This week's special project is leather craft and instruction in this art will be given on both days.

A weekly bridge class on Wednesday for beginners will be given at 4:00 p.m. in room 313 of the Union. Dale Ball is in charge of the class. This started last Wednesday.

Sunday will be the busy day as three activities are on deck. An ensemble concert consisting of members of the All-State music conference will be presented at 3:00 in the afternoon in the Union ballroom. Following the concert, the weekly coffee hour will be held. The coffee hour consists of refreshments and a general get together. An organ interlude will be given during the coffee hour.

At 7:30 p.m., a variety show will be presented in the ballroom. feature attraction will be the showing of the film, "Alexander's Ragtime Band," starring Don Ameche, Tyrone Power and Alice Faye.

Pi Lambda Thetans will meet at Student Union for lunch Tues., June 22nd. Drop a card to Elsie Jevons, Faculty Sponsor, 124 Teacher's College or call extension 3224 if you can attend.

bert belongs to a host of national scientific groups such as the American Society of Zoologists, the American Genetics Association, the American Society of Animal Production, the Poultry Science Association.

Dr. and Mrs. Lambert have two daughters—Marilyn 22, and Ann, 16. Mrs. Lambert, a native of Nebraska, also attended the University of Nebraska.

High School Grades Get Scholarships

Two Lincoln high school graduates were named recipients Tuesday of the Lincoln Elks Scholarships of \$150 each. They are William Draver and Joan Hosfield.

The Elks Scholarships, established in 1946 with the University of Nebraska Foundation, are awarded to graduating seniors of any of the high schools in Lincoln on the basis of high scholarship, character, citizenship and financial need, and who plan to enroll in the university.

The recipients were selected by

Student Infirmary Open at All Times

The Student Health service infirmary is now open to students seven days a week and 24 hours a day for emergencies, according to Dr. S. I. Fuenning, director.

This is a new service which was initiated second semester of the past school year. It is to be continued through the summer session and is to be a regular part of student health service.

a University faculty committee composed of Dr. Royce Knapp, Dr. John M. Matzen and R. D. Nortiz.

WHY... I smoke Chesterfield
(FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

Chesterfield buys the best mild, ripe, sweet tobacco. They consistently pay the best prices to get the kind of tobacco they want.

I've been smoking Chesterfields more than 25 years. It's a good, mild cigarette with more real tobacco taste.
