Registration Procedure To Begin Wednesday

600-800 Will Complete Class Schedules First Day

Students holding registration tickets 1-50 will begin registering for next semester classes Wednesday at 8 a. m. in Temporary building B. Monday and Tuesday of this week have been set aside as days for students to meet with advisers to finish planning class schedules for next semester.

600-800 to Register.

Dr. Hoover, assistant director of admissions, said that between 600 and 800 students would register the first day and that class assigning would not be completed until about Jan. 12.

Students need not stand in line waiting for their numbers to appear for the number they have ensures their proper place in line.

Students Should Watch Numbers

Dr. Hoover said that it was the intention of the persons in charge of registration to get the job done with the least bit of confusion, and that if students watch for their numbers to come up each day there will be no confusion.

Although numbers 1-50 are the first to come up Monday, the numbers will be changed throughout the day as the initial registering students complete next semester class schedules.

Dr. Hoover also said that students who intend to take Chem 247 next semester are required to get permission from Dr. Muller.

Students not enrolled in the school of music who want to take applied music must see Dr. Arthur Westbrook some time Tuesday.

Dean W. V. Lambert said Monday, "Nebraska lost one of its foremost citizens and public servants in the death of Mr. Frisbie. In his long period of service as state leader of 4-H clubworkers, he made incalculable contributions to the betterment of agriculture and to its youth.

"Mr. Frisbie's loss is irreparable. He will be greatly missed by his thousands of friends on the campus and throughout the state."

Frisbie was a graduate of Wesleyan university, and taught there while working on his degree. He is survived by a son, Lawrence, his wife having preceded him in death Nov. 21, 1947.

The publications board will hold a luncheon at noon Friday, Dec. 17, in Parlor Y of the Union.

Directory Delayed By Printer

Student Foundation sources today reported that the annual Student-Faculty Directory has been delayed because of "faulty printing."

They reported that all copy prepared by the Foundation for the book had been completed three weeks ago. The business side of the pocket-size publication was done shortly after that.

Printing has been slowed down because of a too heavy printing schedule of the contracting printer. He has reported to the Foundation that his staff has been unable to print the book on schedule because of conflicting orders.

The Directory was ready for sale after Thanksgiving vacation last year, though it had always appeared in the second semester previous to that. Administrative officials have reportedly assured the Foundation that under a new system of registering next fall the student lists for the Directory would be available much earlier next year.

Foundation workers had hoped to have the Directory out Monday, but fear it will now be delayed until after Christmas vacation.

Red Cross Unit Will Establish Motor Corps

The addition of a Motor Corps to the Red Cross College Unit will take place this week, Gene Berg, unit president, announced.

The Motor Corps will serve the transportation needs of both the college unit and the local Red Cross chapter. Lois Barelman has been named chairman of the new corps.

A meeting designed to acquaint students with the work of the corps will be held Wednesday at 4 p. m. in Room 313 of the Union. All students with driver's licenses are eligible for the work of the Motor Corps, though a special call has been made for car-owners.

Work of the Motor Corps, as outlined by Miss Barelman, will include carrying College Unit entertainers to the Vet's hospital and other local institutions; transporting crippled children, infantile paralysis victims and spastics to their special classes; and assisting in cases of disasters and emergencies.

"The work of the Motor Corps should appeal to both men and women students," said Miss Barelman. "Because of the great need that exists for this service in the College Unit and the locality, we are anticipating a good response to our call for Motor Corps volunteers."

National Broadcasters Offer Script Writing Scholarship

A full semester of professional radio training in Washington, D.C., is the grand prize offered in the National Academy of Broadcasting script writer's scholarship contest.

The scholarship, offered in celebration of the organization's fifteenth anniversary, will cover all phases of broadcasting studio work. The contest closes Feb. 1.

Any student interested is invited to write directly to the National Academy of Broadcasting, 3338 16th St. N. W., Washington 10, D. C.

Other Prizes Offered

Other prizes will consist of residence courses in announcing, continuity writing or production and a basic course offered by correspondents. Awards will be made by qualified judges on the merits of scripts submitted. Any type of original continuity commercial or dramatic, will be accepted.

"The demand for trained personnel in radio is growing so rapidly," says Miss Alice Keith, president of the broadcasting academy, "that we are unable to fill all the requests for qualified announcers and writers sent us by stations throughout the country. In the class that was graduated in September practically all were placed in stations within two weeks after commencement."

Trained Writers Needed

Trained script writers who are able to announce, produce or do public relations work are in special demand.

College women interested in

conducting broadcasts for women and children or in directing programs are needed everywhere. General radio training for both men and women is most valuable as broadcasters are often called on to double in various branches.
