

## NU Cindermen Test Sooners Here Saturday

Oklahoma trackmen will provide the last opposition to Nebraska's indoor squad previous to the conference meet, when they appear here Saturday night. The meet is scheduled for 7:30 under the east stadium.

Top race of the evening will pit three, and perhaps four, of the loop's top half-milers against each other in what should be a thriller.

**SOONER BILL JACOBS**, son of the Oklahoma coach, has been consistently under two minutes for the distance, and has the season's best mark with a 1:57.8 against Missouri.

He will challenge veterans Harold Kopf and Jim Martin. Martin was conference indoor king last year, and Kopf was NU's top outdoor 880 man last spring. Another potential entry in the event is quarter-miler Loyal Hurlburt. Hurlburt found the distance to his liking in the Kansas State dual, and turned in a fine 1:58.7.

Other top duels will be the mile, with Jacobs doubling, hurdles, pole vault, and the two-mile.

**RAY MAGSAMEN** will encounter plenty of opposition in both hurdle events, Hobo Gilstrap in the lows, and Jim Findley in the highs. In the low hurdles, Magsamen and Gilstrap share the best seasonal mark with :06.9. The winner should better the meet record of :07 set by Nebraska's Bill Smutz in 1941.

The Sooners' to pentry in the highs, Jim Findley, has been turning in creditable performances in all of Oklahoma's meets this winter. Nebraska's hopes in the high sticks were boosted with the news that Bob Berkshire, who has been suffering from a bad cold, would probably be

ready to go against the Sooners along with Magsamen and Al Thompson.

The mile will match Bill Mountford with last year's meet winner, Jimmy Smith, and Bill Jacobs. Esref Aydin will return to competition Saturday, and may run in the mile event along with the two-mile. John Canaris, third place winner in last winter's loop meet at Kansas City, should provide the Turk with a strong test.

**BILL CARROLL**, Big Seven indoor vault champ, will be a tough obstacle for NU's sophomore standout, Leonard Kehl. Both boys have been steadily over the 13-foot mark, and may come close to Harold Hunt's 13'9" meet mark.

The Sooners' only weakness appears to be in depth. Nebraska will be hard-pressed in almost every event for first place spots.

## Retherford Strengthens Scoring Lead

Claude (Hip-Shot) Retherford, the greatest scorer in Nebraska cage history, boosted his season's total to 230 with a 20 point effort in the Oklahoma game.

The Rook now leads the Big Seven scoring race in both total points and per-game average. In the six conference games to date his total is six points better than that of Bob Petersen, five foot eight inch sparkplug of the Iowa State club.

Since Coach Harry Good switched him to guard early in the season, Claude has been scoring more consistently for the Huskers. His average now stands

at 15.17 almost four points better than his nearest contender.

**BUS WHITEHEAD**, towering center of the Cornhuskers has the third highest average in the conference with 11.83. This average is just short of the 11.86 boasted by Colorado's center, Bob Rolander.

Also high on the list of scorers is former Husker Gene Petersen who has tallied 83 points in eight conference games for the Kansas Jayhawks. Petersen was second highest scorer in the Big Six for the Huskers in the 1945-46 season.

Top conference scorers:

	Grms	fg	ft	tp	AVE
C. Retherford (N)	6	37	17	81	15.17
B. Rolander (C)	7	28	27	83	11.86
M. Whithead (N)	6	26	19	71	11.83
W. Glasgow (O)	7	24	28	76	10.86
B. Petersen (IS)	5	31	23	85	10.63
C. Houchin (K)	8	35	14	84	10.50
G. Petersen (K)	8	27	29	83	10.38
R. Harman (KR)	7	19	29	67	9.57
B. Haynes (N)	6	20	15	35	9.17
B. Ley (C)	7	21	19	61	8.71

## Athletics Rise

BY BOB PHELPS.  
Daily Nebraskan Sports Editor.

Contrary to pre-season beliefs, Husker athletics are way on the road to the top. An overall look at the records shows that the Cornhuskers are having one of their best all around seasons for many moons.

Ignoring football, all other sports are either on top or near the top in the conference. Basketball is the surprise of the year according to several midwest sportswriters who picked the Huskers for a second division berth. We hate to say it, but we thought that this was coming way last year, by looking at the freshmen team.

Taking a look at the late winter sports, we find Nebraska in the second place slot in Track and Swimming.

## We must pass pretty stiff exams, too

Not only the steel we use must pass a rigid test . . .

We have a "board of examiners" which tests the merits of all the operations of our company.

That "board" consists of our employes, our customers, and our stockholders—the three groups which have a primary interest in our business.

We believe it is to the benefit of the entire social order that we operate our company in the best interests of these three groups. And they give us some pretty tough quizzes from time to time.

We believe our customers deserve the very best product we can manufacture at the lowest possible price. Our employes are entitled to steady employment, good working conditions, and the highest possible income consistent with the economics of the business. Our stockholders should have a reasonable return on the capital they invest in our business. Our constant purpose is to maintain a fair balance between these three groups.

In every college community in the country, one or more of these groups is represented. How well do our principles work out in practice?

**TAKE EMPLOYES.** In the last six years, the number of IH employes has increased from 60,000 to 90,000—an increase of 30,000 jobs. In the same period, the average straight time hourly earnings of our factory employes have increased 92.6%.

**TAKE CUSTOMERS.** Last year we produced more goods and services than ever before. Customers benefited from the fact that our margin of profit on sales was one-third less than in 1941.

**TAKE STOCKHOLDERS.** They have had fair return on the savings they have invested in our Company. Dividends on common stock last year are equivalent to 5% on the book value, as compared with 4% in 1941.

**TAKE THE COMPANY.** Last year we had profits, after taxes, of 5½ cents from each dollar of sales. We believe most people regard this as a reasonable rate of profit.

We know it is our continuing ability to earn a reasonable profit that has made it possible for International Harvester in the past year to serve more people—customers, employes, and stockholders—in greater measure than ever before. Profits mean progress for everyone.

We hope to be able to continue this record with each succeeding year in the future.

This 1,000,000-volt X-ray machine in Harvester's Manufacturing Research Department "looks through" 5½ inches of steel to examine the structure of fabricated parts. To protect operators and others from secondary radiation from its powerful tube, the machine is housed in a room with concrete walls 18 inches thick. Control is from a panel outside the room.
