

LEADING THE PARADE which will mark the opening of the 15th annual Junior Ak-Sar-Ben show at the Fairgrounds Saturday night will be Richard "Dick" Hudson, of Lincoln, with his pinto and plastic saddle. Dick will be carrying an American flag.

Allen, Edmondson Named UNESCO Meet Delegates

Nebraska's delegates to the national UNESCO conference will be Sue Allen and Bill Edmondson.

Their names were revealed today by Marion Crook, chairman of the UNESCO executive council which is selecting University representatives to the meet.

They are the first two delegates for whom funds have been provided. By Tuesday afternoon, two hundred dollars had been collected by the executive council from campus groups, houses and individuals.

THE COLLECTION of money for delegate expenses will continue, announced Miss Crook in revealing the two delegates, in the hope that additional representatives can be sent from the University.

The national meet will be held in Cleveland from March 31 to April 2. Its purpose will be to discuss community and national aspects of UNESCO activity in order to train qualified leaders and teachers of the international education commission.

OTHER UNIVERSITY students eligible for the trip with University support are: Tony Eistetter, Lynn Hutton, Dale Flowerday, George Wilcox, Irene Hunter, Clause Uglia, Adolpho Arrocho and Paul Rider.

When funds are provided for additional delegates, \$100 each for expenses, the following committee will name representatives from the group: Dr. Frank Sorenson, Dr. L. T. Laase, Don Kline, Marion Crook, Shirley Sabin Quisenberry and Eloise Paustian, all asked to serve by Chancellor Gustavson.

A LIST OF all contributors to the UNESCO delegate fund will be printed in Thursday's *Daily Nebraskan*. All gifts turned in to Miss Crook by 5 p.m. Wednesday will be included.

Miss Allen is a sophomore psychology major in the College of Arts and Sciences. She is treasurer of Tassels, YW cabinet member, Coped Counselor board member, vice-president of Alpha Lambda Delta, and a member of the Union Entertainment committee. She has been a member of the UNESCO executive committee and has received much praise for her part in the model conference held on the campus in February.

Edmondson is a junior in Arts and Science majoring in international relations. He represented Belgium during the plenary conference.

Aggies Register For Stubble Title

All men who wish to enter the Farmers Fair whisker contest must register today, clean shaven, in the Ag Union office.

The man judged to have the best growth by April 29, Farmers Fair time, will be crowned the Whisker King at the Cotton and Denim dance, along with the Goddess of Agriculture.

Whisker King and Goddess of Agriculture are both revealed in a unique fashion during intermission at the Farmers Fair eve dance. Both dress in a manner befitting rural royalty.

Last year's Whisker King was Jack Dewulf.

Wenke to Head Political Party

University Party members met Tuesday afternoon to set up the organization of the new campus political group.

Election of officers revealed the following slate: Bob Wenke, president; Jerry Druliner, vice-president; and Dewey Davis, secretary-treasurer.

The nominations and platform committees were chosen by party affiliates. Skip Stahl was appointed chairman of the nominations committee and Winton Buckley was named chairman of the platform committee.

Other committees will be formed in the future when deemed necessary, said Wenke. He announced that the committees will meet sometime this week to write the party platform and to recommend candidates for party backing in coming elections.

Neither the University Party nor the Student Party have been approved by the Faculty Senate, though both have been accepted by the Student Council.

Johnny Long Will Play at Turnpike

Johnny Long and his band, the only college band in America to have recorded "White Star of Sigma Nu," will be featured this Friday and Saturday night at the Turnpike.

One of the best-known bands in the nation, it includes 18 pieces, starring Natalie, the Beachcombers and the Glee club.

Navy Interviews Will End Today

Lt. Commander Klaus will conclude interviews with all male students interested in appointments after graduation as ensigns for U. S. Navy flight training at Pensacola, Florida, on Wednesday, March 23.

Appointments for interviews may be made in Room 104 in Administration hall. Interviews will be held between 9 a. m. and 4 p. m. Lt. Commander Klaus began between 9 a. m. and 4 p. m. Lt. Commander Klaus began the interviews Tuesday.

University Asks 20% Budget Hike to Cover Research Costs

One of the fields in which expansion has taken place on an unprecedented scale is scientific research.

This is one of the factors on which the University has based its request for a 20 percent increase in its operating budget. The ingredients of research are scientists, equipment and supplies.

The demand for these things plus inflation have tremendously boosted the cost of competent research. The University is now at work on the largest research program in its history.

BUT UNIVERSITY salaries lag far behind those paid at other universities. The experienced scientist at Nebraska is paid an average salary of \$4,188. At the typical Big Seven university he is paid \$4,331, and at the typical Big Nine university he is paid \$5,102. If he is employed at one of the 24 universities taking part in the atomic energy program, he is paid an average salary of \$4,728.

Similarly, inexperienced scientists at Nebraska are underpaid in comparison with salaries offered at other schools. The inexperienced scientist at Nebraska receives \$2,800. At the typical Big

Seven university he receives \$3,025; at the typical Big Nine university, \$2,965; at the atomic energy program university, \$2,997.

The graduate student who receives a salary for part-time work in research at the University is also underpaid. He receives an average salary of \$1,000 to \$1,200. The typical Big Seven university pays him \$900 to \$1,100; the typical Big Nine university pays him \$1,200 to \$1,400.

INFLATION has greatly increased the cost of research equipment. In 1940 a microscope cost \$155; in 1946 it cost \$222; in 1948 it cost \$267. The price of an analytical balance rose from \$180 in 1940 to \$264 in 1946 to \$321 in 1948. Stirring meters cost \$24 in 1940. In 1946 they cost \$29, and in 1948 they rose to \$36. The cost of PH meters was \$235 in 1940, \$275 in 1946 and \$320 in 1948.

Research supplies have kept pace with research equipment in rising costs. Glass tubing cost 25 cents in 1940, 28 cents in 1946 and 31 cents in 1948. Denatured alcohol rose from 52 cents in 1940 to 62 cents in 1946 to \$1.17 in 1948. Metallic salts, which cost 12 cents in 1940 and 14 cents in 1946, now costs 21½ cents.

Schedule of Student Meet Proposal Gives Procedure

Open letter to the Student Council:

In order to put some flesh on the skeleton of an idea—one of having a student assembly to consider changes in the Student Council constitution—The *Daily Nebraskan* today outlines a plan of procedure which might be used by the Council (with its own revisions, of course) in sponsoring the student convention.

The method of authorizing students as delegates is, as we suggested before, by presentation of petitions signed by students, the number of which would be determined by the Council. For example, a delegate would be required to have the signatures of fifty University students. No student could, of course, sign more than one petition.

The day by day schedule of proposed events is as follows:

FIRST DAY

12 noon—5:45 p.m.

Registration: presentation of authorization petitions.
4:30 p.m.—5:30 p.m.

Welcome to delegates by Student Council official.

Speaker: University administrative official.

Explanation of procedure and goals of temporary chairman appointed by Student Council.

Second Plenary Session

7:15 p.m.—10:15 p.m.

Speaker: Nebraska state governmental official on subject, "Representative Government."

Tentative acceptance of report of temporary credentials committee. Roll call of delegates.

Election of permanent assembly officers and administrative committees:

Chairman	Drafting committee
Secretary	Steering committee
Parliamentarian	Credentials committee

Naming and election of working committees:

Representation committee
Election rules committee
Duties and administrative organization of Student Council

Adoption of assembly rules for:

Method of acceptance of constitution
Minority report presentation

SECOND DAY

Meetings of the working committees to consider proposals to be presented to the assembly. Each committee shall elect its own chairman.

THIRD DAY

Third Plenary Session

3:30 p.m.—5:45 p.m.

Consideration of proposals drawn up by the working committees

Fourth Plenary Session

7:15 p.m.—10:15 p.m.

Continuation of discussion and consideration of working committee reports.

Between fourth and fifth plenary sessions, there would be meetings of the drafting committee to draw up proposals accepted by the assembly.

FOURTH DAY

Fifth Plenary Session

7:15 p.m.—10:15 p.m.

Consideration and adoption of draft constitution.

Completion of business.

Let us restate that the proposed assembly stems not so much from a dis-satisfaction with the present constitution as from a need to interest students in student government and to enable the student body, rather than just the present Council, to have a hand in the solution to the current problem of student government.

By outlining the procedure of the assembly, *The Daily Nebraskan* does not mean to imply that this is the procedure which should be used. It is our means of being specific and showing in a clearer way than we have previously just what the proposed assembly entails.

NU Enrollment Drops 700; Non-Vets Lead

Non-veteran students outnumber veterans at the University for the first time since the first semester of 1946-47 according to enrollment figures for the second semester of the current academic year announced by Dr. G. W. Rosenlot, director of admissions.

A consolidated table of enrollment, by classes, prepared by the Bureau of International Research, shows a shift of veteran enroll-

ment from the freshman-sophomore level to the junior-senior-graduate level. The total number of students is 9,377, compared with 10,073 for the first semester of 1948-49 and 9,476 for the second semester of 1947-48. The figures also show approximately three and one-third men enrolled for every woman.

The figures for the current semester:

Class	Vet.	Non-vet.	Total
Freshman	873	1,852	2,725
Sophomore	483	808	1,291
Junior	1,375	828	2,203
Senior	972	496	1,468
Unclassified	27	245	272
Graduate, Professional	651	503	1,154
Totals	4,663	4,714	9,377
Percent	49.7	50.3
