A new two-month project is being undertaken by the college Red Cross motor corps unit. The project will involve taking five handicapped children to school each morning and home each after-

The children attend a special course held at Park elementary school which is designed to help correct their handicaps. According to Lois Rodin, motor corp chairman, four trips will be made daily, two in the morning and two in the afternoon. Two university students will go on each trip, one to drive the Red Cross station wagon, and another to help with the children.

The project is to be handled completely by University students who are members of the Red Cross motor corps.
