Burp.

Four hundred years ago the University of Nebraska Board of Relents promised the state a new, ultra-modern education plant. At last, this dream will become a reality, and it's about time.

For many years, Nebraska's students have been forced to content themselves with mere drinking fountains-water drinking fountains. Water-what a replusive word. But now the students will have a new beverage with which to float their back teeth.

After four hundred years, the water (ugh) pipes of the University have rusted into eternity. And through the new platinum pipes being installed will flow the already popular campus upswallow, Burp Beer.

No longer will students pull the handles and receive a cool mouth-full of water. Now they will pull the handles and receive a mouth full of Burp.

The Board of Relents has announced that 1,009 Burp fountains will be placed at strategic points throughout the campus. And not only will there be Burp fountains, but a special saw-dust filled marble container will be installed with each fountain for anyone who does not like Burp. This special container will enable students and faculty personnel to receive the benefits of Burp twice, once on the way down and once on the way up.

Students and faculty members have, for years, under the guidance of Stringent Council, campaigned for Burp fountains.. Nebraska's PTA chapter of WCTU has also been a tireles campaigner for Burp. Both of these organizations deserve a round of Burp for their undaunting efforts

But the real credit goes to the strongest of all strong lobbyist groups. Take No Empties. For years the Take No Empties have been spreading Burp propaganda, all over the campus. In fact, they have spent many nights, even school

nights spreading Burp about the campus. So hats off to you, Take No Empties, Board of Relents, Student Council and PTA. Your names will be forever

Gene Berman.

Whoopee! . . .

The Daily Nebrsakan today points with pride to our Student Council. Amazed by the quantity and quality of work produced by Council members this year, the Rag heartily endorses the policies and program laid down by the Council.

We wish to commend especially the junior male members who have shown initiative, aggressiveness and, above all, complete independence in their committee work and VOTING in Council meetings. Selecting a president of the Council from its many outstanding junior members will certainly be a problem.

Whoever is selected, and we know that the selection will be based on leadership, work accomplished and true representation which the candidates have shown of their respective colleges, will certainly be a great change from this year's president, Dale Balk, who has shown an unprogressive spirit, an indifference in Council affairs and an emphatic reluctance to think of the good of the entire student body, rather than a passe minority group.

However, we must insert a word of caution. The Council would certainly be making a mistake to consider any of the junior women for offices. Such misfits as Dorothy Dorkens, Lucie McPhill, Pat Sack and Syl Badwallder have consistently kept quiet at meetings, refused to do any outside work and, what is worse, have done all of their voting on dictation from an outside pressure group. These girls
