

OFF GOES PETE BECKER, rodeo clown of the 1948 Farmers Fair. Wild cow riding proved to be a problem for the riders in last year's rodeo and a source of a lot of entertainment for onlookers. This will be one of the seven events included in the rodeo program Saturday.

Two things every college man should know!

1. This is a judge. Cold-hearted, bench warmer. Known as fine man in a pinch. Would yell you up the river, but softens at the sight of a "Manhattan" shirt.

2. This is a "Manhattan" Range shirt. Summons lady witnesses. Extreme widespread collar. Stays keep points in perfect shape. Size-Fixt (fabric residual shrinkage 1% or less).

The Big Question

The big question today is not, "Will we fight Russia," but rather "Who will be the Goddess of Agriculture and the Whisker King?" If you want to know, why not drop in on the Cotton and Denim hop at the Ag College Activities Building tonight.

Ruth Hayward and Doris Eberhart; Lucille Snyder and Ruth Fischer.

In the saddle bronc riding, 11 riders will draw their mounts by lot, and must attempt to ride the horse they draw. Any rider will be disqualified if found cheating the horse to keep him from doing his best.

In calf roping, each roper is allowed two loops. The roper must make a catch that will hold the calf until he gets to him and the roper must throw the calf by hand.

BAREBACK BRONC riding rules are much the same as for saddle bronc riding. However, in this event, one hand must be on the circle and the other in the air. The rider must not touch the horse or change hands.

Steer riders will be judged by the manner in which the ride is made, the roughness of the animal, and the amount of scratching done by the rider.

In the wild cow milking contest, one man ropes and the other milks. The team that gets milk in the bottle and get back to the finish line in the shortest time is the winner.

Another duo is the co-ed calf catching contest. The girls must catch the calf, tie a ribbon on its tail and bring the calf back to the finish line. Time is the deciding factor.
