Council Discloses Articles Of Proposed Student Court

DON STERN.

Seeks Student Opinion Of Initial Provisions

Articles I and II of the proposed Student Court constitution are printed below in entirety, so as to get overall student opinion of the Court plans.

Provisions appearing below have to do with the jurisdictional authority and membership of the Court. However, this is not the final draft—they are still being changed as to technicality difficulties and subject to any other changes that the student body might deem advisable.

A second important function of the court concerning advisory opinion will be discussed in a future issue of the Daily Nebraskan. It is a new provision and was discussed and planned by Ray Simmons and other members of the Judiciary committee.

Don Stern, Kosmet Klub representative on the Student Council and member of the Judiciary committee, stated: "The proposed Student Court is not something that is being forced upon anyone.

"We, on the Student Council, who have drafted the Constitution as it stands, want it considered only from the standpoint that it is a starting point, and will only be instituted if the student body feels that there is a definite need."

Objections

The majority of objections that have brought against the Court and its constitution are mainly concerned with technicalities in the first draft that appears in part below. These were brought up before the Council at Wednesday's meeting by representatives of organizations that had discussed the Constitution.

"The only valid objection," says Fred Chael, chairman of the judiciary committee, "is whether or not there is a need for such a Court."

Those who have ideas for bettering the present draft or other plans are asked to appear before Council at Wednesday's meeting or notify council members.

"The powers of the Court will be weak at first, but once it has gained prestige the Constitution could be amended and its powers increased," said Ray Simmons.

The first draft of the Constitution was written and drawn up by Simmons, Chael and Stern, all Council members.

ARTICLE I JURISDICTION

SEC. 1 Violations of accepted student discipline; parking violations.

Except as provided in Section 2 of this same Article, the Student Court has jurisdiction of:

(a) all reported violations of accepted discipline. This includes violations by either individual students or student groups, and occurring either on or off the University campus.

(b) parking violations.

SEC. 2 Serious violations; cheating; scholarship delinquencies.

The Student Court does not have jurisdiction of:

(a) violations of such a serious nature that either the University Administration or a majority of the judges of the Student Court considers should be handled by the University Administration.

(b) cheating on examinations or in classes.

(c) matters of scholarship delinquency.

ARTICLE II MEMBERSHIP

SEC. 1 Election of judges; term; impeachment.

The Student Court consists of seven student judges who are elected by the Student Council from the membership of the Student Council. The president of the Student Council prepares a slate of seven nominees. Further nominations may be made from the floor. The Student Council then elects seven judges from those nominated. Judges serve from the time elected until the end of the current school year unless they resign or are impeached by a two-thirds vote of the Student Council.

SEC. 2 Permanent and temporary vacancies.

(a) When permanent vacancies, as by resignation or impeachment, occur in the Student Court, the President of the Student Council appoints members of the Student Council to replace them. The judges thus appointed serve until the end of the school year or until they resign or are impeached as provided in Section 1 of this same article.

(b) When temporary vacancies as by sickness or disqualification, occur in a particular case, the President of the Student Council, if he sees fit, may fill them for as long a period as is necessary from the membership of the Student Council.
