Governor Names University Grad

Gov. Val Peterson Saturday named his executive assistant, James S. Pittenger, as Secretary of State to fill the vacancy caused by the death of Frank Marsh.

Marsh, dean of elective state-house officials, died Friday night after an extended illness.

Pittenger was graduated from the University College of Business Administration.

Approximately three-fourths of a total of 1576 students used as guinea pigs for a poll taken during second semester registration here at the University favor universal military training.

The poll was taken for the purpose of informing the public and the Nebraska congressmen as to how students in this region feel about UMT. Nearly all of the students

are in the age group involved in selective service and any UMT program that might be adopted. Although they are not in the voting age group, their opinions, according to Robert Raun, president of the Student Council, should be given "serious consideration."

Most of those in favor of UMT want a training period of 12-21 months after completion of high school or upon reaching the age of 18. A total of 77 per cent are in favor of the issue, men taking a 79 per cent preference over the women's 73.

Length of training period threw a different light on the statistics. Men favor the three-month period with a weak 3 per cent, while the women come up with 5 per cent. The overall total for this category was 3 per cent.

Eight per cent favored the six months training period. The women came to the front a little more with their 16 per cent bid, the men trailed with a meager 5 per cent.

The 12 months period showed the most favor, by both men and women. Their percentages were 46 and 63, respectively. The result, in combination was 50 per cent.

A training period of 21 months came in with a close second, getting a 37 per cent preference bid. The women disagreed, with their 13 per cent, while the men fell one mark below their 12-month high. One per cent stated no preference. Two per cent more women than men, however, did not wish to express an opinion on the matter.

78 Percent Want Early Training. A total of 78 per cent favored the idea that the time of training should be after high school or at 18. The men scored an 83 here, the women, a 74. Anytime between the ages of 17 and 20 came out with a rating of 17 per cent. The women ranked high here with a 25 per cent. The men's status fell to 16 per cent. Five per cent gave no preference on the issue. At this point the men and women agreed, each with a 1 per cent.

Of the 1567 students polled, 1,155 were men and 412 were women.

This project was undertaken as a result of action taken at the Annual Convention of the Big Seven Association of Student Governments held in Norman, Okla., last Dec. 8 and 9. All of the schools in the Big Seven are taking similar polls and the results for the entire conference will be released by the association chairman at the University of Colorado in the near future.

Second Floor Modern Staff Room Added to Love Library

A modern artistic staff room was a September addition to Love library.

The room, occupying a place on second floor, is the exclusive meeting place for the employees of the library. There, staff meetings are held and relaxation is the primary calling card.

Interior decorations in the room are all in tune with the latest in color and furnishings. The walls are light green, with contrasting dark green ceiling. Drapes are predominately green, beige and tan with furnishings of the same colors in various blending shades. The floor is covered with dark rubber tile.

A convenient kitchenette occupies an alcove in the room with canisters of coffee and tea available for use at all times.

Funds for the room were entrusted to the library on the death of Nellie Jane Compton, former librarian, who designated that the interest in the endowment be used "for comfort and enjoyment of the employees."

Plans are underway for the completion of the room in the near future. Among the proposed additions is a console radio-phonograph, folding tables and chairs and a partition to be placed in front of the door.

ARTISTIC ADDITION—Above is shown a recent addition to the Love library. It is the exclusive meeting place for the employees of the library. Although decorating is not complete, walls, drapes, and other furnishings have been provided which are all in accord with the latest in color and style.
