# Schedule of Cadet Teacher Shows Tribulations of TC

your days wishing you were dead and your nights wondering why you ever wanted to be a teacher.

By Amy Palmer.

There are jokes and more jokes about the various classes in Teacher's college. Most of these sly references intimate that the course future teachers take is a "snap"—in other words it's easy. This may or may not be true, but either way, there's one course that makes up for all the easy hours anyone might have had and that's Ed 23.

Ed 23, better known as practice teaching and by other less sane names, is one of these courses that makes you spend your days wishing you were dead your days wishing you were dead and tribulations begin.

a day, either from 8:30 until 11:30 psychology (like in the text books), everyone will love him and he will get an eight out of the course. What a disillusion he has coming.

There are approximately fifteen schools in Lincoln from which the prospective practice teacher may choose. She (sometimes he) is then assigned a broom and leaves. The little children, knowing they can get away with murder with that jerk, tear the room apart. At the end of the hour, the new teacher is sithing in a corner whistling one more chorus of "Life Gets Tedious, Don't It?"

Actual Practice Teaching This is practice teaching as

tent and most experienced in the schools. The student is allowed to observe for a few days and then is gradually "broken in" to the process of actually handling a class. Constructive criticism is then offered as well as instruction in all phases of teaching. If the student is eager and displays interest and enthusiasm, he gradually is given more responsibility and understands more thoroughly the intricate minds of his pupils.

All in all, the course is an excellent one. In fact, it is probably the most practical one offered to prospective teachers. Yes, it requires stamina, patience, psychology and understanding, but that is just what a good teacher must develop. If you can't take the grind for three hours a day, then try another college—for teaching is no snap vocation.
