Carson Asks For Liquor Control Head

Two bills were in the making Thursday by legislators in connection with the current charges against the state liquor commission.

Sen. Hugh Carson of Ord has asked for preparation of a bill to place the liquor control under one director, with three-man board to set policy and consider appeals from the director.

Gov. Val Peterson's office is working on a measure which would provide for automatic suspension of the licenses of establishments having gambling devices. A spokesman said that this would include restaurants, hotels, etc.

Carson said that his bill is "the only way it can be done" and recommended a \$10,000 a year salary for the director. "Give him the salary and the authority and he'll get the job done."

Attorney General C. S. Beck said that whether or not the governor's bill becomes law the office will, upon the suggestion of any person, file objections before the Nebraska liquor control commission as to issuance of licenses where gambling is present.

Allies Roar Ahead To 38th Parallel

One more victory is chalked up for the allies in Korea as they roar ahead to the 38th parallel. The big communist supply base of Honkchong in Central Korea was captured Thursday and other Eighth Army divisions occupied Seoul, driving north across the 140-mile Korean battlefield.

The Reds continued to withdraw along the 38th parallel, fighting only in the east central mountains. The U. S. First cavalry division, the U. S. First Marines and South Korean troops were responsible for the taking of Honkchong, main supply base of the 66th Chinese communist army corps.

Mayor Says Air Base Plans Of Reactivating Not Definite

Mayor Victor E. Anderson of Lincoln said Thursday that, despite contradicting reports, the plans for reactivating the Lincoln air base are not definite.

The city has a 99 year lease with the air force for the base and any reactivating action, Anderson said, would have to begin with talks with the city. So far the city has not been contacted.

According to earlier reports, the base was to have been temporarily reactivated. The air national guard unit stationed at the field now and to be activated April 1, would, the reports said, be trained at the base.

NU Students Included

T. J. Thompson, dean of student affairs, said that approximately 60 students from universities and colleges from within a 100 mile area, about half of whom are from the University, are included in the activated unit.

If the unit stays at the base after activation, the members living in Lincoln will be allowed to stay at home. Housing will be

found for the others. Those who live at Huskerville need not worry about being evacuated from their homes without notice, Anderson said. The army has promised the mayor that they will give residents "every consideration."

It seems likely, Anderson added, that reactivation would entail the evacuation of Huskerville by private citizens.

Stand-By Basis

The base might revert to stand-by basis if more permanent training facilities are found elsewhere, the statement from Washington said.

At Offutt air force base in Omaha, headquarters of the Strategic Air command, under whose jurisdiction the reactivated base would be, a spokesman said the field might "possibly" become an operational training base.

If this action were taken, a SAC combat wing would be stationed there to train new wings. The program would continue until SAC grows to undisclosed strength. The parent unit would remain permanently at the base.

Miss Frampton is vice-president of the tennis club, member of WAA cabinet and council Services Publicized.

Miss Frampton wants the services of WAA publicized more so students can realize what the organization offers. She also wants to encourage coeds to participate more in WAA activities.
