

Chapel Service Planned

KATHLEEN DILL

Communion Scheduled Wednesday

The desire of University students to work together without stressing denominational differences is the incentive for the all campus candle light service of meditation and communion to be held in the Campus chapel, Wednesday, March 21, at 7:30 p.m.

The Communion service, sponsored by the University YW-YM, will conclude the Religious Welfare Council's program for Holy Week. Kathleen Dill and Rudy Nelson are co-chairmen.

The arrangement of the candle light service will be a replica of the Last Supper with candles representing the disciples. The four student pastors who will participate in the service are Rex Knowles, Presby house; Dick Nutt, Methodist Student house; C. B. Howells, Baptist Student house; O. L. Turner, Christian Student group.

Prayer, Scripture

Included in the program are a prayer by Romal Rasmussen, scripture read by Ned Conger, a solo by Harriet Swanson and a reading, "Disciples in Clay," given by Audrey Flood and Neil Trabert.

"Disciples in Clay," a sermon written by the former United States Senate chaplain, Peter Marshall, and delivered to his Washington congregation, has been revised and rewritten to fit the college scene by Bob Shuler. It is a discussion of the way in which the 12 apostles were chosen, with implications for present day disciples.

Service of Great Value

"If there are those who for any reason prefer not to partake of the elements, they may feel free to remain in their seats in worship. We hope that each of us can share in his own way in this experience of worship; that this service and this season may have its greatest value in our lives," says Miss Ruth Shinn, YWCA executive director.

The candle light and communion service were initiated two years ago by the YM and YW in response to the desire of students to worship together without stressing denominational differences.

Co-chairman Kathy Dill is head of the Worship Workshop and Fine Arts committee. She is also secretary of the Residence Halls for Women. Rudy Nelson is all University program chairman of the YM, a member of the Lutheran Student choir, the Corn Shucks and past vice-president of the YM.

Five Bach Selections Presented

University Singers presented five of Bach's religious compositions Palm Sunday to an audience of 400 at the First Plymouth Congregational church.

Robert Martell, tenor soloist, and Eugene Kuyper and Jack Anderson, baritone soloists, sang difficult arias of Bach's cantatas. Cantata Four, "Christ Lay in the Bonds of Death," offered the most variation from Bach's usual big and solid bass leads. The sopranos carried the lead until the second part in which the lead shifted from one section to another.

The other cantata, "Thou Shepherd Bountiful," was unusual because it consisted of one central theme, yet many counter points.

The choir also sang "The Art of Fugue," and "Holy, Holy, Holy" as a processional and a seven-fold "Amen" to conclude their annual presentation.

Organist Myron Roberts played the choral prelude, "We Believe in One God," and the well-known "Come Sweet Death."

The Singers sing every year at Palm Sunday vespers and are directed by Dr. Arthur E. Westbrook, director of the School of Fine Arts.

Gustavson Speaks to Senators

State funds must offset the expected decrease in student tuition and meet the inflationary expenses of the University, Chancellor R. G. Gustavson told the budget committee of the state legislature Monday afternoon.

Chancellor Gustavson, accompanied by 25 University deans and officials, appeared at the committee hearing in support of the requested \$13½ million University budget—\$2½ million above Governor Peterson's recommendations.

Carl W. Borgmann, dean of faculties, explained the requested budget, item by item, presenting charts to emphasize his reports.

Budget Fund Increase

While the over-all University budget will increase only 17 percent during the next biennium, he said, state funds must be expanded 69 percent to make up for decreases from other sources and to expand the University's program.

A \$1½ million decrease in student fees and almost \$2 million for meeting inflation and competition of other schools must be offset by state funds, both Chancellor Gustavson and Dean Borgmann declared.

This would be in addition to the \$8 million appropriation for the present biennium.

Replace Obsolete Equipment

Borgmann also estimated that \$800 thousand would be required to replace obsolete equipment, make day-to-day repairs, purchase books for the library and reopen the hospital ward at the medical school in Omaha. This brought the total to well over \$12 million.

An enlargement program of \$125 thousand and a growth primarily in the Colleges of Agriculture and Medicine, amounting to more than \$1 million, must also be met by state appropriations, Borgmann said.

In explaining the decrease from student tuition, Chancellor Gustavson pointed to the decreased birth rate of the 1930's, the termination of veterans' training and the acuteness of world tension.

Higher Salaries

He also emphasized the need for increasing teachers' salaries to compete with surrounding schools. While Nebraska's tuition is the highest in the Big Seven and the Big Ten, Chancellor Gustavson said, teachers' salaries are, on the average, lower.

Dr. Harold Leuth, dean of the College of Medicine, reported that during the present biennium, "every possible economy has been made" in his college, including the closing of the hospital ward.

Medical Expansion

Approximately \$400 thousand of the \$13½ million would be used to expand the program and facilities of the Medical College.

U.S. Army Nears 38th Parallel

U. S. Eighth Army forces set up a holding line 17 miles south of the politically sensitive boundary in Korea, the 38th parallel, Monday. Allied patrols probed within a few miles of the parallel.

The brief announcement from the army, after a three-day silence, said that the holding elements are located at five points along the parallel. The announcement did not include the location of the holding points.

The Chinese appeared to have given up their last main military base south of the parallel—Chuncheon, eight miles below the line in central Korea.

Indications that the Reds had abandoned well-prepared defenses along the Hongchon river, south of Chuncheon, were given in reports to Eighth Army headquarters.

Twenty-four F-80 Shooting Stars, flying under cover of 12 F-86 Sabre Jets, firebombed, rocketed and strafed the airfield at Sinuiju on the Yalu river boundary between Manchuria and Korea.

The port of evacuation for allied troops last December, Hungnam, was bombed by the U. S. Far East air forces B-29's Sunday. The Superforts piled 150 tons of explosives on a red supply center nine miles northwest of the east coast port of Wonsan.

Lt. Gen. Matthew B. Ridgway, commander of the Eighth Army, messaged his U.N. officers and troops that they had won the winter campaign, now drawing to a close.

"1953, Year Of Preparedness," Wilson

1953 will be a year of preparedness, according to Defense Mobilization Charles E. Wilson. The United States will have a "really mighty array of weapons ready" to fight an all-out war, Wilson reported.

In the same year, the country not only will meet defense production requirements but "ought to actually be able to expand our output of civilian goods," the Defense head also said.

Wilson gave his views in a copyrighted interview with the magazine U. S. News and World Report.

Wilson said he had received the "green light" from President Truman on his program "especially on this debt-control business that I have been working on."

By debt control, he said, he meant "interest rate, credit control." Secretary of Commerce Charles Sawyer recently called for more stringent regulations on installment buying, and the treasury and federal reserve board reached agreement on government bond issues.

The Weather

Russel said that the program will differ from a talent review in that continuity, like a radio script, will be added.

Current Art Exhibit Views Discussion Topic Tonight

What are the views on the current art exhibition at Morrill hall?

Mrs. Kathryn Nash, sculpture and design instructor, will be moderator for a panel discussion on this topic at 8 p.m. in Gallery B of Morrill hall Tuesday, March 20.

Mrs. David Dow, E. N. Anderson, professor of history; and Gail Butt, art instructor; are other members of the panel.

"Art and science have gone through a drastic and revolutionary change since 1900," said Adam Skapski, physics professor, in his lecture Sunday at Morrill hall.

Appreciation of Modern Painting

He explained that modern painting can only be appreciated by a balance of co-operation between the artist and audience so that both add to the creation of a meaning. He stated that art whose only merit is novelty will not survive past its period. Pictures portraying positive ideas are the only ones that will remain popular, he said.
