MacArthur To Embark On U.S. Tour

MacArthur reached San Francisco sometime last night, Gen. Omar N. Bradley has publicly differed with MacArthur's Asian military policies, Congress will welcome MacArthur Thursday morning and President Truman has cancelled his speech before the American Society of Newspaper Editors.

These were the headlines Tuesday night, all concerning the issue that has arisen since President Truman relieved the five-star general of his commands.

Air force officials said the General would arrive in San Francisco around 8 p.m., p.s.t. (10 p.m. Lincoln time.)

MacArthur told reporters "the welcome of Honolulu is heartwarming and marvelous in every way."

Excitement mounted by the hour as everyone from the governor of California to the man-in-the-street made plans to give General MacArthur one of the greatest hero's welcomes in history.

A crowd of 100,000 was expected to line the 16-mile route from the International airport to the St. Francis hotel where the general and his party will stay.

Gov. Earl Warren, Mayor Elmer E. Robinson and Lt. Gen. Albert C. Wedemeyer will greet the 71-year-old general on his arrival this morning.

Truman Cancels Talk To U. S. Editors

Democrats have blocked immediate action on republican demands for a quick follow-up investigation of the far eastern policy that caused the dismissal of MacArthur.

However, Gen. Douglas MacArthur has been formally invited to address a joint Congressional meeting, Thursday at 11:30 a.m., Lincoln time.

In order not "to detract" from the reception to Gen. Douglas MacArthur, President Truman has cancelled a speech before the American Society of Newspaper Editors in Washington, D. C., Thursday.

Mr. Truman was scheduled to speak to a luncheon meeting of the A.S.N.E. at 1 p.m.—about the time MacArthur parades through downtown Washington.

In announcing the cancellation, White House Press Secretary Joseph Short said "the president feels that Thursday is General MacArthur's day."

Bradley Joins Truman In Condemning Policies

"Jeopardize world peace" are the words Gen. Omar N. Bradley has used in reference to the Asia military policies advocated by the deposed commander, MacArthur.

Bradley is the first of the homecoming general's five-star brothers in rank to speak out publicly against the theory of carrying the war to China since MacArthur's dismissal.

Bradley backed the president's stand against MacArthur's ideas and defended the administration's policy of limiting the war in Korea. As chairman of the joint chiefs of staff, Bradley has a large part in policy making.

Visitors to the department will see work ranging from pencil and color exercise, to design problems which include knowledge of structures, heating, lighting, ventilating and technical specialties for which particular buildings are required to function.

In as much as the architect works with simple tools, such as drawing board, T-square and triangle, it is possible only through display of much original student work to grasp the overall picture of the architect's educational program.

Research Products Used

The student's ability to make use of the research products of the other fields of engineering, his ability to organize and coordinate such knowledge into a functional whole is evidenced only in the final presentation or working drawings of the student's design classes.

Drawing upon courses of the several departments of the engineering college for a complete program, classes in Architectural will become the unifying element in a student's training.

Guests of the department during E Week will see on display exercises in sketching and drafting which are the architect's means to clarify and record his ideas.

Value The Past

They will be able to see the value of the past to the architect's future. It will be emphasized that for large projects the architect requires active collaboration of many different fields of work.

A large part of the student work on display will be designs, varying from residential problems to entire civic centers and community plans.

There will also be displayed numerous scale models, which have been constructed as aids in the student's training.

Committee Will Submit Constitution

A joint committee of Student Council representatives and Faculty Student Affairs representatives have completed work on the new constitution.

The constitution in a final draft is to be presented to the Student Council and Faculty Senate for approval. Upon approval by these groups it will be given to the student body for a final vote, and a session will be held for submission of suggestions, ideas and comments of the document.

Originally the article on representation was the only one to be revised. On careful study of the whole constitution other fallacies were noted which led to complete revision.

The committee which has worked on it since September also feels that this Constitution is stronger than the previous one and makes possible better rules for election, publicity and general conduct.

By laws on specific procedure will be drawn up later so the whole may be submitted to the Board of Regents for the last approval.

Everyone is encouraged to read it through thoroughly and to recommend any constructive changes. If you have recommendations contact any member of Student Council immediately.

An all student vote will be taken in May for ratification after Committee and Senate approval.
