Robert Tyler Addresses NU Business Club

Putting the right person in the right place at the right time is the chief job of a personnel director in business.

This opinion was stated by Robert Tyler in his talk last week to members of Alpha Kappa Psi, professional business fraternity.

Before a person can become a good personnel director, Tyler said, he must like people. Secondly, he must never lose his sense of humor.

Tyler, who is personnel director in one of Lincoln's largest department stores, told prospective directors that experience and work in a single firm is almost required before a firm member can become director of that company's personnel.

Stockman, Palmer Present UMT Views At Coffee Hour

Major James Stockman, assistant professor of naval science, supported measures included in the Universal military training bill recently defeated in Congress while Edger Palmer, chairman of the department of business research, refuted Major Stockman's arguments at a Union coffee hour Tuesday.

Major Stockman said that "UMT to me means thinking in terms of requirements. We should take the means at hand and try to solve the requirements."

The military is interested not in running the affairs of the country, but rather in protesting it, he said. A study of American history shows that many great men have believed that we must have representatives from the people who are able to fight, he said.

Pearl Harbor, continued Major Stockman, gives a preview of what could happen in the future if we aren't prepared. A commander who fails to guard against this possibly violates the code of security, he said. Major Stockman emphasized that "it's everyone's country to fight for and this fighting should be distributed."

First Piano Quartet To Perform At NU; Six Student Groups Handle Ticket Sales

Six campus organizations this week intensified ticket sales campaigns for the First Piano Quartet concert, to be presented in the Coliseum March 20.

Tassels and Kosmet Klub members and students in four music groups are conducting student sales. The music organizations are Sinfonia, Sigma Alpha Iota, Delta Omicron and Mu Phi Epsilon.

Joy Wachal, tickets sales chairman, said the student price, 75 cents, is the lowest offered for any similar program on the campus. She said 2,000 student tickets will be sold.

"The student section has been enlarged to offer some of the best seats in the house," the chairman said.

The special student price, according to Miss Wachal, is also being offered to off-campus college students and to Lincoln high school students.

Phonograph recording albums of First Piano Quartet music will be presented to the three top ticket salesmen.

it happened at nu...

An NU couple recently decided to become pinned. The only difficulty involved was that the boy had lost his pin. Deciding that small details should not stand in their way, the couple used his roommate's pin in the ceremony and three weeks later she was still wearing it while another pin was ordered.

As lost things sometimes do, the pin finally turned up—on the shirt of a fraternity brother who had had it for a month.

INVESTIGATION
Money Disappears From Law College
Representatives of the county attorney's office are investigating the disappearance of \$30 from a box in the Law college office Tuesday morning.

According to Dr. F. K. Beutel, professor of law, and Mrs. Gertrude Weber, Law college secretary, the \$30 was part of a \$42 fund set up by law students for an experiment in Dr. Beutel's Tuesday jurisprudence class.

They said that Tuesday morning, at about 10:30 a.m., Mrs. Weber gave the \$42 to Dr. Beutel and a student, who counted it and placed it in a drawer of her desk.

About an hour later, when two of the jurisprudence students collected the box from Mrs. Weber and took it to their class which was in session, Dr. Beutel found only \$12 remaining.

Mrs. Weber stated that she was out of the law office three times between the time the money was placed in her drawer and the time it was picked up by the law students.

The first time, she went into an adjoining office to help a student with some mimeograph supplies, and the second time she went to the basement of the Law college with another student to get a few copies of a law review edition. A few moments after she returned, she said, she went outside the of-

ice into the hall to unlock the bulletin board for a student.

Mrs. Weber said that she later noticed that the amount of currency, which was in bundles, seemed smaller than when it had first been placed in the box. She stated that during that hour at least four students and four professors, including Dean Belsheim and Dr. Beutel, had been in the office.

Professor Jules Cohen, who Mrs. Weber said was in the office during the hour, refused to give any statement. He said that he would retain his privilege against self-incrimination.

Another professor who two witnesses said was in and around the office during that time, stated that he would "resent the deputies casting suspicion on a man who was present on the scene of the crime, simply because he is a professor and might, in their opinion, be unable to support his wife and family without resorting to petty thievery."

Rolland Bailey from the county attorney's office, has appointed Hal Stanley, Lon Pierce and Bud Gerlach as representatives of his office to investigate the disappearance. A list of suspects, who were questioned Tuesday afternoon and Wednesday morning, should be released by Thursday.

Eisenhower Leads In N.H. Primary
CONCORD, N. H.—Early returns from the New Hampshire primary indicated that Gen. Dwight D. Eisenhower would be far ahead of either of his closest rivals, Sen. Robert A. Taft and Harold E. Stassen, for the Republican nomination for president.

However, the early trends could not be relied upon since only 100 votes had been counted up to 6 p.m. Tuesday night.

Russians Demand Talks On Germany
MOSCOW—The Russian foreign office demanded that four-power talks begin "immediately" on the question of unification of Germany and a German peace treaty.

Observers said it was obvious the Russians were not pleased at the prospect of early German rearmament, and wanted to air their views on the subject. The Communist proposal is nothing new to western diplomats, who also desire unification of Ger-

many, but hardly on the same terms as Russia usually proposes.

The Reds said that all occupation and security troops be withdrawn from both the eastern and western sectors of Germany. Allied officers have felt that such a move would pave the way for an invasion of western Germany by Communist "police" armies from the soviet zone. A similar situation actually developed in Korea.

Rail Workers Back To Jobs
CLEVELAND—The U. S. army obtained an injunction from a federal district judge in Cleveland ordering workers of three striking rail unions back to their jobs.

Judge Emerich B. Freed set the hearing on the army's request for an injunction for March 19.

Morris Appears Before Committee
WASHINGTON—Newbold Morris, the man President Truman appointed to clean out corruption in government, was before a congressional committee defending his own integrity.

Morris was asked to explain his connection with the investment company which dealt in war surplus tankers after World War II. The company realized a huge profit during its three years of existence.

Morris was also questioned about the oil which these tankers hauled to Communist China after the start of the Korean war.

The government clean-up man announced that there was no wrong-doing in his ship deals.

New York Still Hunts Schuster Killer
NEW YORK—Mayor Vincent Impellitteri announced that he would ask the city of New York to vote a \$25,000 reward for the arrest of the murderer of Arnold Schuster, the 24-year-old pants sales-

man who was killed for aiding in the capture of gangster Willy "The Actor" Sutton.

Frederick Tenuto, an old pal of Sutton, is being sought by police as a suspect in the murder.

A lobbyist, who was opposing any large appropriation for a state college, approached a legislator who boasted of his self-education.

"Do you realize," gravely asked the lobbyist, "that, at the state university, men and women students have to use the same curriculum?"

The legislator looked startled. "And that boys and girls often matriculate together?"

"No!" exclaimed the law-maker. The lobbyist came closer and whispered, "And a young lady student can be forced at any time to show a male professor her thesis?"

The legislator shrank back in horror. "By golly, I won't vote them a single red cent!"

A little advice to scholarly students: you'd better take advantage of this opportunity while it lasts. It is rumored proponents of football scholarships will soon attack these scholarships as corrupting the moral standards and sense of values of students.
