### NU Theatre

## Open House Saturday P.M.

University theatre's open house will be held Saturday, 7:30 to 9:30 p. m. at the Temple building.

Information about theatre activities and their functions will be presented. Explanation will be given about the freshman acting group concerning their membership requirements. Movies of the theatre's last year production of Othello and slides of other past plays will be shown.

## Four Engines, Chiefs Combat Campus Fire

Especially for those students who never sit in class and hear a fire alarm without having an insane desire to follow the fire trucks, the excitement came directly to the campus yesterday afternoon.

The house at 520 North 14th Street was damaged by a fire which apparently started in a closet on first floor.

Two engine companies and two truck companies were called to the scene, bringing with them two pumps and two ladder trucks. Also present were the chief and the assistant chief.

Perhaps due to the proximity of the house to the places where students "coffee," a large crowd gathered to watch the fire.

Apparently the damage was confined to the interior of the Carol Wright, Sigma Phi Epsilon.

### P. M. Headlines

By SALLY ADAMS

WASHINGTON—Sen. Richard M. Nixon will go on the air Tuesday night to explain his \$18,235 expense fund donated by fellow Californians. In making the announcement, Republican National Chairman Arthur E. Summerfield said the National Committee and the GOP Senatorial and Congressional Campaign Committees have purchased more than \$75,000 worth of radio-TV time.

The broadcast will be carried by NBC television and CBS and Mutual radio stations at 7:30 p.m. Central Standard Time.

Gen. Dwight Eisenhower talked with his running-mate Sunday night by telephone. Although the results of the conversation were not revealed, indications were that the general is opposed to having Nixon withdraw from the race. Observers on the special train said the 20 minute talk between the Republican candidates was held so that the general could know more of the details concerning the Nixon expense account.

SPRINGFIELD, ILL.—Gov. Adlai Stevenson's aides kept a list of business corporations and state suppliers who contributed to his gubernatorial campaign and expense fund. The money was raised since the governor felt taxpayers' money should not be used for certain expenses.

The list was kept by William J. McKinney, former state purchasing agent. He said that he never let the donations influence him in placing orders. He resigned his post in 1950 when it was evident that the state legislature would not confirm his reappointment.

McKinney said he never knew the exact total of contributions but that it was near \$100,000.

NEW YORK—Delegates to the American Federation of Labor convention cheered when Gov. Adlai E. Stevenson repeated his belief that the Taft-Hartley act should be scrapped. He first urged repeal of the law in his Labor Day speech at Detroit.

Stevenson said Republican claims that he advocated compulsory arbitration of labor disputes was false. "My proposal was that if Congress sees fit to direct the President to intervene in a labor dispute, it should give him among other things, the authority to try to have that dispute referred to arbitration," he said.

ABOARD EISENHOWER SPECIAL—Dwight Eisenhower blamed "incompetent diplomats" for the Korean War. He attacked the Democratic record in foreign affairs in a speech at Evansville, Ind., one of the stops on his Midwestern campaign tour.

The Republican presidential candidate said there were two emergencies since 1945, when the United States was mighty enough to force peace. These emergencies—the Berlin airlift and the Korean war—were results of a diplomacy which the military had to "bail out."

WASHINGTON—Secret Chinese-Soviet agreements, recently concluded in Moscow, may bring new Communist military offensives in the Far East.

This warning was issued by U. S. diplomatic experts who are familiar with Soviet-Chinese affairs. They doubted that the negotiations would bring new hope in the stalemated Korean truce talks.

The officials fear that one of two moves may be in the offing. These are: (1) a stepped-up campaign in Korea to win a military victory rather than a negotiated truce, or (2) a new Red offensive in Indo-China. They said the military moves probably would be carried out by Chinese Communists or other red groups backed by the Kremlin.

## Jr.-Sr. Class Council Filings Due On Friday

### Pieper Lists Qualifications; Names Plans For Year

Filings for the Junior-Senior Class Councils will close Friday, Sept. 26, according to Senior Class President, Don Peiper.

Applications for the councils may be made at the Student Activities office, and selections will be made Monday, Sept. 29 by the Campus Improvements Committee of the Student Council.

Qualifications for filing are: Junior or Senior class standing, a 5 accumulative average, and an interest in student government, Peiper said.

Pieper said that a constitution of the Junior and Senior Class was begun last year but has not yet been approved by the Student Council. The eight Junior and Senior class officers will serve on the council with the 12, six from each class, selected council members.

According to this unofficial constitution, the president of the Senior Class would serve as presiding chairman at the council meetings, but each member of

## NU Will Get Psychiatrist; Selection Still Problem

Does the University need a full-time psychiatrist? This question was asked last year, and has been answered by Dr. Samuel I. Fuenning, director of Student Health.

The University is to have a full-time psychiatrist. The only problem remaining is the selection of a person for the position.

Dr. Fuenning said that interviews have been in progress for some time, and that a psychiatrist will be selected for the position during the latter part of the semester.

Work has been going on for some time to find the right man for the job, and even more time must be taken before a definite choice can be made. The reason for the delay is that such a selection is very difficult to make, Dr. Fuenning said.

First, a proper person must be found for the job. He, or she, must be able to fit into University life, he said, and must be able to work with students and their particular problems.

Second, the person selected will probably be engaged in private practice, and some length of time is involved in leaving a practice to assume a new position, Dr. Fuenning pointed out.

Last year, Rev. Rex Knowles said, "University students are as stable as anyone else, but they are also as unstable."

Students at the University will have double benefits from their student health in the near future, Dr. Fuenning said. Now we will have sufficient facilities for taking care of physical problems and will

be equipped to help in other problems that may arise.

According to Dr. Fuenning, yearly expenditures for psychiatric services total, "about \$2,700." He indicated that the School of Social Work and the clinical psychology department often enlist the aid of psychiatrists for lectures and other things. Student Health Center often has requests from the University departments for the services of a psychiatrist, he said.

To the chant of "We will beat South Dakota," the first rally procession followed the pep band from the Coliseum to the Union steps Friday night.

An estimated 850 University students took part in the rally.

Leaving the Coliseum at 7 p.m., the rally marched down Vine Street, up North 16th, and down R Street to the Union steps.

Game captains Carl Brasee, Ed Husmann, and Bob Reynolds were introduced. Coach Bill Glassford also spoke to the rally crowd.

Ira Epstein and his Yell Squad, assisted by the pep band, led the rallyers in yells and songs.

### ALL-NU CONVOCATION

## Sparkman Will Speak 'Off The Cuff'; Speech Will Deal With Foreign Policy

By TOM WOODWARD  
Staff Writer

In a personal interview last night, Sen. John Sparkman disclosed that his speech Tuesday would concern the U. S. foreign policy.

His speech is to be an off-the-cuff affair with no previously prepared text.

Senators Sparkman met with labor leaders from both the CIO and AF of L last night. In these meetings, the senator was asked about his opinion of the Taft-Hartley Labor Law. He said that he favored starting from "scratch" and building a new law that would be more efficient in its workings. He reminded labor leaders that were in favor of scrapping the Taft-Hartley law, that they would not have even the privilege of organizing, if the Taft-Hartley law were repealed and no new legislation installed in its place.

When asked about his stand on Civil Rights the Senator said, "In my opinion there are two planks concerning Civil Rights. The two planks are: (1) This problem can be worked out by men who are willing to sit down at a conference table, if they are completely devoid of political opinions. (2)

Cleveland was the last stop for the senator before he came to Nebraska. In several of his press interviews there, he noted that reports he had given seemed to have a "way of getting garbled up" by the press.

Sparkman spent the time from his arrival at Lincoln airport touring Lancaster County. He said that he went to Waverly where he looked over some of the government storage areas. He had expected to eat a farm meal at a farm home outside Lincoln, he said, but was treated with a feast instead. All members of the party, including Sparkman, were remarking about the dinner they had.

Mr. Sparkman said that he had been on the move almost constantly for the past weeks, and was ready to keep on doing just the same thing right up until the final bell.

Personally, Sparkman is a friendly, polite man. He is a non-smoker and non-drinker. He works hard, and still manages to keep his personal charm. His schedule includes speeches, meetings, interviews such as this one, and conferences. His day begins at 7:45 a.m. and may last until midnight.

## First Of 'Know-How' Series To Be Given Wednesday P.M.

"Nebraska Does It This Way" will be the theme of the Coed Counselor's Campus Know-How presentation Wednesday afternoon.

## 4-H Club To Sponsor Watermelon Feed Wednesday Night

The University 4-H Club will sponsor a watermelon feed Wednesday, at 6:45 p.m. on the lower Ag campus.

All new students, as well as upperclassmen, are invited to attend by the 4-H Club.

In case of foul weather, the feed will be held in the Horse Barn arena.

The 4-H Club requests that students sign one of the posters on the Ag campus bulletin boards if they wish to attend.

### PARKING ANECDOTES

## Coed Wants Sticker For Three Cars; Brown Palace Barely Gets Permits

By PAT PECK  
Feature Editor

Harder to talk into letting you park than a prudish girl on a first date.

That's the best way to describe the members of the Student Council who man the table in the Student Union lobby and sell parking permits.

In order to obtain a parking permit and a sticker it is necessary to present your University identification card and your car registration. The first to prove that you have a right to park on campus and the second to prove that you have a car.

Even if you keep a motor pool for your own private use you can only get one parking sticker. If you have classes on both Ag and City campus, you can get one sticker for each campus—at 25c and adequate proof.

The rules are designed to be airtight, and every student who applies for a permit has an alibi designed to wiggle out of them. Example include the gal, un-

doubtedly a relative of the late King Midas, who insisted that she needed a parking sticker for each of her three cars, which she drives alternately.

Less wealthy and more frequent in the annals of parking sticker applicants is the student who has only two cars and drives one to-day and the other tomorrow.

It is necessary to live at least eight blocks from the campus in order to obtain a permit to park. Only handicapped people are the exception to this rule. If you live between Second and twenty-second, between Holdrege and J Streets, you must park off campus. The people who issue parking stickers are very strict about checking this address. What a surprise to find that the person being checked commutes from Millford or Seward.

Brown Palace Inc., 1201 J St., had a narrow escape. Nearly all of the tenants have cars. The house is on the south side of the street. If it were on the north side, all the men would have to park off campus.

One alibi good enough to rate a permit was one tried by a roomer at the apartment house next to the Residence Halls for Women. He insisted that he often drove to Wymore, his home town, and back and needed a permit to park on campus, because his home was more than eight blocks from campus. He got the permit.

Residents at the Men's Dorm are issued permits to park in their own private parking lot because it is on the campus.

It could have been an accident, or it could have been a get-even measure with the alibi boys, but the person issuing permits was a little hard on one applicant. They asked him for his license number. He was only one of a great many people who don't know their own license numbers. While he returned to his car to get it, the committee changed the rules, requiring him to have his whole car registration. You guessed it, he had to go back after it.
