THE DAILY NEBRASKAN

.etterip

/ Thursday, October 9, 1952

(and) announced to all the world that it has writ-

ten off most of the Far East as beyond our direct

campaign handbook, answer simply, "We are

fighting in Korea to prevent World War III.

They declare they have halted aggression . . .

"have taught them (the Reds) that aggression's

formulation of Korean policy prior to 1950, but lay

They admit that mistakes were made in the

"On Sept. 26, 1947, the Joint Chiefs of Staff-

retary of State that we had no strategic interest

in continuing to occupy South Korea. Acting on

Eisenhower's advice, the United States, represented

General Assembly in October, 1947, and December.

of United States troops finally left Korea in June.

The Democrats and the Republicans both

The Republican platform declares that the

Democratic leaders "required the National Govern-

ment of China to surrender to Manchuria with its

strategic ports and railroads to the control of Com-

munist Russia. They urged that Communists be

taken into the Chinese Government and its mili-

tary forces. And finally they denied military aid

that had been authorized by Congress and which

loss and a lesson," but declares that "Chiang Kai-

shek lost China in spite of tremendous American

aid. Loss of China to Communism occurred be-

cause the Chinese people were war-weary,

hungry and disgusted. Chiang and the men

around him refused to reform and Chiang's

dispirited troops wouldn't fight . . . Loss of China

did not come because of insufficient U.S. aid . . ."

The campaign handbooks labels China as "a

price comes dreadfully high."

The handbook says:

the blame on bipartisan decisions.

The Democrats, in "How to Win in '52," their

# **Early Orchids?**

They're at work and they've got big plans. They prove of invaluable benefit to the entire Univer- Pep Section . . . meet and they propose. 'They've gone to the considerable gain.

Chancellor and they have his support. They're setting up a long-range program that might have

some continuity from year to year. They're busy. And who are these industrious people? None other than the members of the class councils and the Junior and Senior class officers. None other than those people whose titles used to be purely honorary-roads to political fame or Ivy Day glory.

Maybe they're living in glass houses, seeing their collegiate world through rose-colored glasses, setting up hypothetical work for themselves and classes to come. Perhaps they will search diligently for work, for projects, for money, for class spirit, for enthusiasm and find their searching all in vain.

What would be the results of a Junior-Senior class picnic? What is the purpose of a Junlor-Senior prom? What is to be gained through awarding of a senior scholarship trophy on Ivy Day? What virtue might lie in a united, spirited student body-and particularly Junior and Senior classes

Some people might call it busy work, non--profitable and silly but The Daily Nebraskan begs to differ. The University offers its students the alma mater

Senior class officers and councils is faintly this year .- one that must become a foundation, not glimpsed the beginning of something which might just an attempt .- R. R.

A senior class spokesman expressed to The Nebraskan that three factors-detrimental to the functioning of past class officers and councils and vitally necessary for their development-have

been added to the credit side of this year's work. Financial backing for the classes, a legal lowa. Surely they were also foundation for the existence of the councils and mighty proud of the band. Yet, I student interest to keep the councils going are joyed seeing part of the players

these three factors. Chancellor Gustavson is work- in blue outfits, some in green, ing on getting financial backing for the classes and the officers and council members will be selling graduation announcements this next spring.

A constitution for the "Junior-Senior Class Board" has been drawn up, revised and is nearly ready to be brought up for Student Council action. And 52 persons-a record number-applied for positions on the councils this year-all agreeing in interview to work on committees if not chosen for the councils.

So it looks like orchids for the class officials, We would like to call them early orchids. The work thus far this year-perhaps labeled "school spirit"-appears, from this angle, to be sincere, concentrated and worthwhile.

The class councils and class officers can be of instruction and the materials for better, happier invaluable service to their University and to the living. And what do these students return to their student body they serve. They've got a good start sity. If the start provided, thus far, is more than Through the efforts of this year's Junior and just a beginning, the student body stands to make

## Here's Your Pub Board

new representatives on the Board of Student Pub-The Nebraskan and The Cornhusker.

These new members were chosen by interviews before the Student Council and these interviews brought out the fact that most of the do think that, if nothing is said to the contrary, Board positions-do not know exactly what that board is. Since The Nebraskan sincerely feels that the board is one of the most powerful on the campus, we would like to outline exactly the policies which it has followed in the past and and make a few suggestions for the future.

We feel that the Board of Publications has relied to too great an extent on interviews to find the problems of its wards. The faculty members in particular have never made it a habit to frequent our offices. Many of these members have never been seen here. The student members have not been quite this negligent, and we hope that the new members will be even better. Since, actually, this is your newspaper and your yearbook, The Nebraskan would like to ask you students if you think that the board is serving the school like it

### You, the students on this campus, have three does not show who is doing the most work. The Nebraskan invites the new members and

lications. They will serve, with four faculty mem- the faculty members to come to our offices at any Voting .... bers and a publications advisor, in an advisory time and see first hand how we are running things position for publications and select the staffs for Likewise, we invite you students to come down to letter was submitted to The Daily are helping pay for it.

> have an interest in the board that supervises those umns.) publications. The Nebraskan does not think that it is wise to say that the Pub Board this year will eligible voters voted and it is ex-pected that the percentage will follow the path taken in the past. However, we only slightly increase this year. this is very apt to happen.

We would like to say that the board has never attempted to interfere with the editorial policy of The Nebraskan. For this we congraulate it. If it did. The Nebraskan would object, and loudly. However, we feel that the board has taken just the opposite view of its job; it seems to profess a hands off policy.

is concerned, hands off is a good policy but The braska, write to your county clerk build up adequate strength in Korea's own defense is concerned, hands off is a good policy but The Nebraskan has problems which cannot be solved Give your name, Lincoln address forces. We are in that war because this Adminby executive meetings which are not even held and home address. A Student Looks Toward Politics

concern."

(This is the second and final article on the place of foreign policy in the current political campaign. It is the third in a series of columns investigating campaign issues.)

The two major points on which the two Presidential candidates disagree in the field of foreign policy, as was noted Wednesday, are:

1. Eisenhower's "liberation" policy versus Stevenson's "negotiation" policy.

2. The place Korea and Asia should play in foreign policy planning.

The first point was discussed in Wednesday's article. The effect of the negotiation thesis on the including Gen. Dwight Eisenhower-told the Sec-Democratic Korean policy was also mentioned.

Despite the similarity of the two platforms, the

Democratic and Republican parties appear to differ on the two points which have been discussed during these two articles. The lines are still in the process of being drawn, however. The candidates ing helped set up the Korea republic and knowing will undoubtedly further clarify their stands dur-1. If you live in a community that strength was being massed against that re- ing the remaining weeks of the campaign.

Details, as they disclose them, will probably follow the general outline that has been drawn thus far. If so, the voters will have a definite

The primary duty of the board is to pick the student staffs for these publications. How can this duty be performed efficiently the way it is handled now? The present method involves interviews during which the applicants have to present their policies for a semester. They have to try to tell how well they are able to perform the necessary duties of running a student publication. It might be argued that anyone could get a fair idea about how the publications are doing by just reading them. But this method
