

Union Till To Receive \$6 From Each Registration Fee

UNION DOLLAR DIVIDED . . . The above graphs demonstrate the channels of the Union administrative dollar. The graph on the left is the expense dollar and the graph on the right is the income dollar. (Daily Nebraskan Graph by Bob Oberlin.)

(Editor's Note: This is the second story of the Student Union series. Due to the details of Union expenses, they have been eliminated from the graph and are carried out in detail in the story.)

Student tuition has just been paid and \$6 of it has been applied to the income of the Union. Eighty-two cents of the administrative dollar comes from Student fees. It is applied to the operation of building services, activities and reserves for future building programs.

None of this fee is used to support the food operations and catering services. The administrative part of the Union is self-supporting.

As noted on the above graph, the expenses and income are based on the administrative department dollar.

Students fees are the largest source of income and the next largest source is fine arts admissions. This includes all income from ticket sales of such attractions as, Vaughn Monroe, Longine Symphonette, First Piano Quartet, and such performances as Fred Waring scheduled in the near future.

Other income sources not shown on the graph are: dance admissions; two cents; room rentals, one-half cent; juke box, one cent; and miscellaneous, one-half cent.

Room rental is charged on the ballroom when rented for income dances on different occasions, and miscellaneous comes from stamp machines, cloak-room fines and various other small income items.

Of each dollar collected, one-sixths is applied to Ag and five-sixths to the city Union.

These are the main sources of income for the Union, as explained on the administrative department income dollar.

The Union expenses are divided up into three main categories—city expenses are 71 cents, Ag combined, which include both and cannot be readily separated. The city expenses are 71 cents, Ag expenses, 14 cents, and combined, 15 cents of the expense dollar.

To break down the dollar graph the various expenses are as follows:

1. Salary expenses, 28 cents.
2. Activity expenses, 12 cents.
3. Books, magazines, and record expenses, one-half cent.
4. Office expenditures, audits, and insurance expenses, two cents.
5. Maintenance supply expenses, one cent.
6. Furnishings, replacement, and repair expenses, six cents.
7. Capital addition expenses, six cents.
8. Contingency reserve expenses, 29 and one-half cents.
9. Fine arts presentation expenses, 14 cents.
10. Conference and travel expenses, one-half cent.
11. Unappropriated expenses, one-half cent.

The following explanation is based on the various divisions. Of the 28 cents for salaries, the city Union's expenses are 23 cents and Ag expenses are five cents out of each dollar. Salary expenses consist of the managerial staff, office employees, service and maintenance employees, and check stand, etc.

YWCA, YMCA To Sponsor Religion Study

The Institute of Religion, sponsored by the student religious centers, the YWCA and the YMCA, will open Feb. 9 and extend until April 30. This 10-week interdenominational venture in voluntary religious education will consist of an hour class each week.

The program offers an opportunity for University students to gain a growing understanding of their faith, secure training for religious leadership and develop concern for responsible action.

All courses taught will be on a college level and will be open to all students. The courses include: "What We Believe," "Basic Christian Doctrines," "Introduction to the Old Testament," "Basic Christian Ethics," "Jesus of Nazareth," and "Prayer and Personal Worship."

There is a \$1.00 registration fee for each course. Students may leave their registration cards at the student religious centers or at the YWCA or YMCA.

GRADUATE COLLEGE ANNOUNCES SCHOLARSHIPS

Graduate Students May Apply For Fellowships; Applications For All Scholarships Are Due March 1

Harold E. Wise, assistant dean of the Graduate College, announced the 1953-54 fellowships available to students for the coming semester.

Wise pointed out that there are approximately 600-700 graduate students on the University campus, and the scholarships are offered in a very wide variety of subjects.

Applications for all scholarships may be obtained from the Graduate Office or with the chairman of the appropriate committee. All applications must be filled out and returned by March 1.

Wise noted that special forms for making application for Miller Fellowships may be obtained in the graduate office, in the Office of the Dean of Student Affairs, or in the office of any college dean.

Wise called attention to the fact that to receive any award the student must carry a full program of graduate study or research for each semester during which he receives the fellowship stipend.

For Regents and Johnson Fellowships the recipient must be a graduate of the University of Nebraska or other university or college of recognized standing, but the applicant need not be in residence when making application.

Scholarship, character, a demonstrated ability, and financial need will be considered in determining the award winners.

Three Scholarships Also Open To Undergraduates

Three scholarships open to both undergraduates and graduate students have been announced by Harold E. Wise, assistant dean of the Graduate College.

The Donald Walters Miller undergraduate scholarships are open to all students above the freshman year in any of the schools or college of the University.

The requirements also include the stipulation, "students who are recommended shall be students of either sex who in their previous studies shall be selected not merely upon the basis of their scholastic ability but there also shall be taken into consideration the aims, character, temperament, financial need of the applicants."

To make application for the scholarships, the student must also be in residence during the past semester.

Three scholarships or fellowships of \$1,000 each are available for the next academic year. These fellowships do not carry remission of tuition.

Applications should be filled out in the office of the dean of the college in which the student is enrolled. Applications should be accompanied by a letter from the student which should include a detailed statement concerning education and professional objectives.

The committee on selections also requests personal letters from one or two staff members in support of the applications, with all letters and forms being sent to the appropriate dean or director.

The final date for applications to be submitted to the deans of the respective colleges is March 1. Awards will be made on April 1 with the date for acceptance being set as April 15.

Stipends for the Regents and Johnson Fellowships are: Franklin E. and Orinda M. Johnson—several fellowships of \$750 each and remission of tuition; and two fellowships of \$1,000 each and remission of tuition. However, the latter is limited to Ph.D. applicants who will have completed at least one year of graduate work by June.

To make application for either one of the two above scholarships the graduate student should: make certain that his transcript is on file at the graduate office; include with the transcript a letter which should include a detailed statement concerning educational and professional objectives; and letters of recommendation from staff members of this or other institutions should be included under a separate cover.

Winners of the awards will be announced on April 1, and acceptance must be made on or before April 15.

Seventeen fellowships for the academic year which remit the regular resident tuition of \$80 each semester (student pays the \$20 administrative fee each semester) are available to students graduating from any of the colleges or universities of Nebraska, including the University of Nebraska.

To be eligible students must have received the baccalaureate degree in January, June, or August of 1952. The recommendation of the department in which the student is majoring is required. Awards are made on the basis of scholarship, need, and educational objectives.

The Amanda H. Heppner Fellowship for \$100 is open to women students registered in the Graduate College with preference being given to candidates holding Bachelor of Arts Degrees.

The Nathan J. Gold Fellowship for \$1,000 and remission of tuition is open to graduate students majoring in any of the departments of the biological or physical sciences, not excluding engineering and agriculture.

Candidates must be nominated by the department, and the award is made on the basis of the candidate's qualification and the merits of the proposed research project which must deal with the improvement, production, or utilization of farm products in industry.

Two \$1,100 fellowships, each carrying remission of tuition, being offered by the Rights of Ak-Sar-Ben. These fellowships are open to graduates either of the University of Nebraska or of colleges in Nebraska whose graduates are qualified for admission to the Graduate College.

The awards are based on the qualifications of the candidates and the merits of the proposed research which may be undertaken in any of the departments of the College of Agriculture or in the physical or biological sciences. The research must deal with the production or utilization of Nebraska agricultural products.

Law Scholarships Open For Two Male Students

Elihu Root-Samuel J. Tilden Scholarships with a value of \$6,600 are available for two selected unmarried male citizens of this Federal Judicial Circuit who will have completed the requirements for a baccalaureate degree (from an approved college or university) by September, 1953.

The application must be made from the state in which the applicant resides or in which he has attended college. Selection will be made by a panel in the circuit upon the nomination of a committee in each state. The state nominations will be held in March.

Chief Justice Robert Simmons is a member of the Nebraska state committee.

These scholarships provide for three years of study, subject to renewal, leading to a LL.B. degree in the New York University of Law. Selection of candidates will be made on the basis of potential capacity for public, leadership, academic record and extracurricular activities.

Interested students may obtain application blanks and further information by writing to the dean of New York University School of Law, Washington Square, New York 3, New York.

Gerald E. Matzke—a Nebraska graduate, was a winner of the scholarship, and is now a member of the class of '55 at New York University School of Law.

Five \$2000 Grants Offered For Grad Study

Five fellowships with an annual stipend up to \$2,000 each are available for graduate study in the Winterthur Program in Early American Culture at the University of Delaware.

The fellowship in Early American Arts and Cultural History are available to those who have shown marked ability and exceptional interest in Early American Studies, particularly Art, History, and Literature.

The program involved leads to a Master of Arts degree and is only available to holders of Winterthur Fellowships. Study can be completed in two years.

Application must be filed by April 1, 1953. Application blanks may be obtained by writing with the Dean of the School of Graduate Studies, University of Delaware, Newark, Delaware.

Christian Student Workshop

CONGREGATIONAL PRESBYTERIAN FELLOWSHIP

FRIDAY, FEBRUARY 6th
4:00 P.M. "The Basic Message of Christianity."
6:00 P.M. Supper served at Fresh House.
7:00 P.M. "The Purpose of a University."
9:00 P.M. Worship.

SATURDAY, FEBRUARY 7th
10:00 A.M. "Christian Ideals in a University."
12:00 N. Lunch served at Fresh House.
1:00 P.M. "The Christian Student in a University."
3:00 P.M. Worship.

SUNDAY, FEBRUARY 8th
5:30 P.M. Supper Forum at Fresh House.
6:15 P.M. "The Challenge Facing a Christian Student."
7:15 P.M. Closing Worship.

Candidates must be nominated by the department, and the award is made on the basis of the candidate's qualification and the merits of the proposed research project which must deal with the improvement, production, or utilization of farm products in industry.

Two \$1,100 fellowships, each carrying remission of tuition, being offered by the Rights of Ak-Sar-Ben. These fellowships are open to graduates either of the University of Nebraska or of colleges in Nebraska whose graduates are qualified for admission to the Graduate College.

IF YOU CAN WIN THESE WINGS YOU CAN EARN OVER \$5,000 A YEAR AFTER GRADUATION

Important facts about the opportunities for YOU as a Commissioned Officer—Pilot or Aircraft Observer—in the United States Air Force

Must I be a college graduate to be a Pilot?
No. But you must have completed a minimum of 60 semester hours or 90 quarter hours toward a degree. In addition, under the new Aviation Cadet Pilot training program, you must be between the ages of 19 and 26½ years, unmarried, and in good physical condition—with high requirements for eyes, ears, heart and teeth.

How long before I get my commission?
60 calendar weeks. You will receive the finest aviation training in the world—training that not only equips you to fly modern military aircraft but prepares you for executive and administrative work as well. At the completion of your training, you will have acquired a commission as a 2nd Lieutenant and won the coveted silver wings of the United States Air Force.

Where do I take my training?
Pre-flight training will be at Lackland Air Force Base, San Antonio, Texas. Primary, basic and advanced training will be taken at any one of the many Air Force bases located throughout the South and Southwest.

What happens if I flunk the training course?
Every effort is made to help students whose progress is unsatisfactory. You can expect extra instructions and whatever individual attention you may require. However, if you fail to complete the course as an Aviation Cadet, you will be required to serve a two-year enlistment to fulfill the minimum requirement under Selective Service laws.

What pay do I get as an Aviation Cadet? And after?
As an Aviation Cadet you draw \$109.20 a month pay. In addition, you get summer and winter uniforms, flight clothes, equipment, food, housing, medical and dental care and insurance . . . all free. After you are commissioned a 2nd Lieutenant you will be earning \$5,300.00 a year—with unlimited opportunities for advancement.

Are all Aviation Cadets trained to be Pilots?
No. You can choose between becoming a Pilot or an Aircraft Observer. Men who choose the latter will become commissioned officers in Navigation, Bombardment, Radar Operation, or Aircraft Performance Engineering.

Do Aircraft Observers get flying training, too?
Yes. Aircraft Observer Cadets receive approximately 200 hours of "in the air" instruction. The primary phase of Aircraft Observer training is the same for all branches (navigation, bombardment, etc.). The basic and advanced phase of training varies, depending on the specific course you wish to pursue.

What kind of ships will I fly?
You will fly jets. The Pilot Cadet takes his first instructions in a light, civilian-type plane of approximately 100 horsepower, then graduates to the 600 horsepower T-6 "Texan" before receiving transition training in jets. You then advance gradually until you are flying such famous first-line aircraft as F-86 Sabre, F-49 Scorpion, B-47 Stratojet, B-50 Superfortress. Observer Cadets take flight instructions in the C-47 Dakota, the T-29 Convair, and the TB-Superfortress before advancing to first-line aircraft such as the F-89 Scorpion, B-47 Stratojet or TB-50 Superfortress.

Will my commission be in the Regular Air Force or Reserve?
Aviation Cadet graduates, both Pilots and Aircraft Observers get Reserve commissions as 2nd Lieutenants. Some outstanding graduates in both programs will be offered Regular commissions.

How long must I remain in Service?
After graduation as an Aviation Cadet, you are tendered an indefinite appointment in the United States Air Force Reserve and are called to active duty with the United States Air Force for a period of three years.

What recreation and leisure time will I have as a Cadet?
Discipline will be rigid—especially for the first few weeks. However, it is not all work. You'll find swimming pools, handball courts, movies and other forms of recreation on the post. After your first 4 months, your commandant may allow you to apply for overnight passes.

Where will I be stationed when I get my commission?
You may be stationed anywhere in the world . . . Hawaii, Far East, Europe, Puerto Rico, elsewhere. During your tour of duty, you will be in close touch with the latest developments in new flying techniques. You will continue to build up your flying experience and later, should have no difficulty securing a CAA commercial pilot rating.

Your future is assured if you can qualify! Here's what to do:

- 1 Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.
- 2 If application is accepted, the Air Force will arrange for you to take a physical examination at government expense.
- 3 Next, you will be given a written and manual aptitude test.
- 4 If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

WHERE TO GET MORE DETAILS
Visit your nearest Air Force Base or Air Force Recruiting Officer. Or write to:
