## Deferment Test Filings Due Mar. 9

### Selective Service Exam Determines Draftees

Applications for the 1953 Selective Service College Qualification Test must be submitted by March 9 to the National Headquarters of Selective Service announced Monday.

The 1953 Selective Service Test will be given April 23.

Bulletins of information and application blanks may be obtained at the local Selective Service Board, Room 202, Veterans Administration Building, 12th and O Sts. The applicant should fill out his application immediately and mail it in the special envelope provided.

Qualifications for the Selective Service Test are: the applicant, on the testing date, must (1) be a selective service registrant who intends to request deferment as a student (2) be satisfactorily pursuing a full-time college course—undergraduate or graduate—leading to a degree; and (3) must not previously have taken the test.

Results of the test will be reported to the student's Selective Service local board for use in considering his deferment as a student.

The present criteria for consideration for deferment as a student are either a score of 70 or better on the Selective Service College Qualification Test or class standing among the members in the upper half of the freshman class, upper two-thirds of the sophomore class or upper three-fourths of the junior class. Seniors accepted for admission to a graduate school satisfy the criteria if they are among the upper half of the male members of their senior class, or they make a score of 75 or better on the test.

Students already enrolled in graduate schools may be considered for deferment so long as they remain in good standing.

### it happened at nu

Radio listeners received an unusual treat Sunday when the "White Pillar Hotel" presented music and questions involving wonderful prizes to the lucky winner.

One coed had just received the jackpot (one candy bar for identifying "Trumpet's Lullaby" when the program came to an abrupt halt with the words, "Due to technical difficulties we must end our broadcast."

Rumor has it that the broadcasters received a "hot tip" from a neighboring fraternal group, that a FCC (Federal Communications Commission) truck was roving the immediate area, looking for a transmitter operating illegally on the air waves.

The tip seemed to be of considerable value to the broadcasters, as unlicensed broadcasting often proves to be a very expensive hobby with federal fines amounting to rather large sums.

The Arnold Air Society will sponsor a tour to Offutt Air Force Base Mar. 21. This will be at no cost to members.

## NU Enrollment Shows Small Decrease Of 13

Total enrollment of 6,363 students for second semester indicates a decrease of only 13 students compared with a year ago. Dr. Lloyd Hoover, acting director of registration and records said.

The final figures indicate a leveling-off period since the peak influx of World War II in 1947, Hoover explained.

For the first time since 1949 the mid-year drop has not approximated at least 650 students. Second semester enrollment in 1949 was 9,291 students, dropping to 8,642 in 1950, to 7,079 in 1951 and 6,376 in 1952.

The final enrollment figure includes 451 veterans and 5,912 non-veterans.

A math professor trying to inject a little humor into his classroom came forth with the problem: If there are 3,522,184 North Koreans fighting 2,947,613 South Koreans and a bomb goes off and wounds 5,687 South Koreans, kills 4,782 North Koreans, and a flood suddenly starts, how old am I?

Student: "You're 44."

Professor (going along with the joke): "Right, but how did you reason it out so quickly?"

Student: "I have a cousin who's 22 and he's only half crazy."

TELEVISION: A device that permits people who haven't anything to do but watch people who can't do anything.

First party boy to second party boy: "You drive, you're too drunk to sing."

The weather man says that there will be snow tomorrow. Not too much snow, but enough to keep up March's tradition. Also, the sky will be cloudy and the temperature about the same as today.

A perfume and soap manufacturing company advertised a contest for slogans. One of the slogans which came in couldn't be used. It read: "If you don't use our soap, for heaven's sake, use our perfume."

## Alum Elections, Awards, Speeches Mark Charter Day Observance

An ultimatum delivered to Russia by the State department indicating that any further Soviet-sponsored aggression would be met with force, was the proposal of Paul Harvey, news commentator and author, who outlined his plan to deal with the world situation.

Harvey spoke before more than 450 alumni and guests at the annual Charter Day banquet Friday night.

Declaring that any violation of the proposed note should be considered justification for sending B-36's to such targets as Minsk and Pinsk, Harvey said that U.S. planes could bomb Russian cities every 45 minutes for the next 15 years, if necessary.

Since the atom bomb is only a fourth-rate weapon, the foot soldier would not have to bear

the brunt of the assault, according to Harvey.

On the home front, he stated, the most important problem is that of balancing the budget and reducing taxes.

"Soak the rich," he said, is not applicable to today's situation, "for even if the incomes of all persons earning over \$8,000 a year were confiscated, the government could operate on that sum for only 22 days."

Harvey said that America's principal need today, is the reaffirmation of the creed, "I believe in my God, my country, and myself—in that order."

Preceding the speech the Lincoln Alumni Club elected officers for the coming year.

Mrs. Robert Russell, former secretary, was named president and Dean Kratz, chairman of Nebraska Young Republicans, vice-president.

Mrs. William Hoppe was elected secretary and Dale Tinsman, treasurer.

Mr. and Mrs. George Holyoke, Mr. and Mrs. Elmer Henkle, Dean and Mrs. Philip Colbert and Mr. and Mrs. Robert Wessker were elected to the alumni executive committee.

The highest non-academic honor given by the University "for outstanding valuable service to the state of Nebraska" was awarded

to C. Petrus Peterson. Robert Devoe presented the award on behalf of the University Board of Regents.

Reasons for increased educational costs were outlined by Walter E. Miltzer, dean of the Arts and Sciences college, as the basis of any university must be to provide a good teacher for its students, education of students takes longer, building costs have increased, there is a need for laboratories and funds for research.

Dr. Fatemi graduated from Stuart Memorial College in Iran. After leaving college, he started a Persian daily newspaper and a monthly literary magazine at Isfahan.

In 1935 he was elected to the legislature of the province of Isfahan. The next year he published a literary history of modern Persian literature.

He became mayor of the city of Shiraz in 1938 and governor of the province of Fars in 1941. He was elected to the Persian Parliament in 1943.

Dr. Fatemi traveled to the United States and entered Columbia University where he received his M.A. and Ph.D. degrees in international relations and international law.

He represented the Iranian Government at the UNESCO Conference at Cleveland and in 1951 he was an adviser to the Iranian delegation at the Security Council.

At the present time he is member of the Princeton University faculty as a teacher of Oriental languages and literature. In his own country, he is publisher of a large daily newspaper in Tehran and editor and publisher of a literary magazine.

In 1952 he published a book, "Diplomatic History of Persia," discussing Anglo-Russian power politics in Iran.

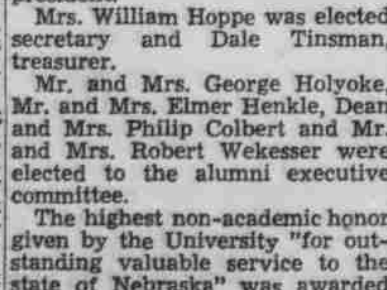

Dr. Fatemi will also speak at an All-University Convocation March 20. Dr. Carl Schneider, member of the convocations committee, said. Announcement of the time will be made later.

### Speech Broadcast

In answer to questions put to him by a Radio Station KNUS, staffer, Paul Harvey gave some of his views on the problem of Communists in the United States. The recorded interview will be broadcast on KNUS at 4:45 p.m. Tuesday.

Harvey said that he did not believe Communists should be allowed to teach in public schools; and that he believed the program of loyalty oaths is essentially sound, because if Communists did sign the oath, they would be liable to perjury charges.
