Just Between Us

Editor

Monday was a big day at the Statehouse for the other senators—but they were willing to spread the University.

In the morning, the proposal to increase the mill levy for Med School building improvements versity would get \$1 million a year for six years, official meeting at Punmunjom was discussed on the floor of the Unicameral and but under the .25 amendment, \$750,000 would Tuesday night (KST) lasted only in the afternoon, the Budget Committee heard the come in over an eight year period. University ask for increased appropriations.

There are two basic reasons for both increases: 1. The University is planning necessary ex-

pansion throughout the whole school. 2. The inflation has necessitated increased salaries for all types of employees.

The Legislature gave every University-measure most careful consideration. At the budget hearing, the senators were very courteous. When I asked the Chancellor after the meeting if he had any comment for the students, he said:

"Tell them that this committee has shown an intense interest in University affairs and I have Selleck, members of the Board of Regents and absolutely no complaints about the way this after- several deans and department heads, told the Bud- Presidential Bug noon's meeting was conducted."

In the morning debate over the Med School In the morning debate over the Med School Pernaps the most influential testimony, now convention, political medicine mill levy, nearly every speaker emphasized the ever, came from a tax-paying mother from Telementary importance of a solid medical college in a pro-kamah who told the committee that agricultural magazines started to speculate on gressive state like Nebraska.

Sen, Joseph R. McCarthy took a step too far—once again—when he tried to assume presidential duties late last week. But he was quickly checked by the Administration.

Following what his opponents hoped might develop into a dressing-down by President Eisenhower in the Bohlen case, Sen. McCarthy bepassed the administration completely Saturday when he amounced that his investigations subcommittee had obtained an agreement from owners of Greek merchant ships in which they said they would break off trade with North Korea and Red China.

The step was McCarthy's announcement was obviously calculated to catch the administration of guard and foreign relations—an area reserved by the Conting Port of the Carthy's announcement was obviously calculated to catch the administration of guard and foreign relations—an area reserved by the Conting Port of the University of Saturday when he amounced that his investigations subcommittee had obtained an agreement from owners of Greek merchant ships in which they said they would break of the deal of the proposed and the conting of the proposed of the University of the interrupted set of the University of the interrupted committee meetings and activities will be under the loos student employees of the University of the interrupted as strong U.S. defense policy in the Senate, has even picked the posters for two years, averaging out for a strong U.S. defense policy in the Senate, has even picked the posters for two years, averaging out for a strong U.S. defense policy in the Senate, has even picked the posters for two years, averaging out for a strong U.S. fefense policy in the Senate, has even picked the posters for two years, averaging out for a strong U.S. fefense policy and after graduation plans to be calculated to brush the post chairmen and four sponsors. By Bibler Rochester

To encourage productive scholarly research by University of Rochester faculty members, particularly in the humanities and so-cial sciences, the University re-cently announced a new plan of support through a series of summer fellowships.

For the coming summer, approximately five fellowships will be granted, each with a cash award of \$400 to \$600. All full-time members of the faculty of the College of Arts and Sciences below the rank of full professor dre eligible. Most or all of the fellowships are expected to be fellowships are expected to be awarded in the fields of humanities and social sciences.

The purpose of the fellowships, according to Professor Carl K. Hersey, chairman of the University of Rochester Committee on Grants in Aid, is to enable faculty members to engage in research by at least partially relieving the recipients of the financial need for additional employment, such as summer school feaching. As in the case of the grants-in-aid program conducted for some time by the University, the awards may be used to meet travel expenses and other costs.

The unique feature of the fel-lowships, however, is that the awards may be used for meeting the recipients' ordinary expenses of life while remaining in Rochester. The awards will take the place of additional salary that might be earned by summer school teach-ing or other employment.

Decisions on the fellowship awards will be based on the im-Marianne Hanson portance of the research project, the applicant's need for financial
