## SC Votes To Appeal Calendar

### Interviews Set For Wednesday

Student Council members voted to appeal the proposed elimination of the two-day reading period before 1954 first semester exams at a meeting Wednesday.

The action was taken following presentation of a tentative schedule drawn up by the student-faculty calendar committee.

**DANNY FOGEL**, Student Council member of the committee, presented other features of the tentative calendar, which included:

1. The 1954 summer school will run from June 10 to July 30.
2. Freshman Week will begin a week later than usual, Sept. 13, and classes will convene Sept. 20.
3. There will be a one day grace period at the end of the second semester due to Memorial Day.

This schedule now goes to the Faculty Senate for approval.

Fogel explained that the elimination of the two days before first semester exams was made to facilitate the graduation of mid-term students. He also explained that the faculty did not believe students used these two days for studying. This two day reading period will come at the end of exams before second semester classes.

**HE EXPLAINED** that school was starting a week later in order that summer school might begin a week later. It is the belief of the committee that this will attract more high school teachers as students since they would have time to close their schools before coming to Nebraska.

Due to the ROTC parade, interviews for the Student Council vacancy were postponed till next Wednesday.

The Campus Improvements committee reported that a "gripe box" has been constructed and turned over to the Student Union. As soon as the Union puts up the box, students and faculty members may turn in criticisms or suggestions about campus problems.

**THE JUDICIARY** committee reported that the Business Administration Executive Council constitution was returned in order to work out several problems; the BABW constitution was approved to read that members must have a 5.5 average instead of 75 per cent, and the AWS constitution was returned for clarification and editing.
