### Two Engagements, Five Pinnings Told; Five Ag Students Pass Candy, Cigars

By NATALE KATT  
Staff Writer

#### Engagements

**Baker-Miller**  
Diana Baker, Loomis Hall, has announced her engagement to Phil Miller, Diana is a junior in Ag College and lives in Hastings, Phil, member of Gamma Club, is a junior in Ag. He is from Kimball.

#### Fuelberth-Johnson

The AOP's celebrated Monday night as Mary Fuelberth

announced her engagement to Dave Johnson, Sigma Chi. Mary is a junior in Teachers College. Dave, also a junior, is in Ag College. Both are from Hartington.

#### Pinnings

##### Villepigue-Kerr

The AGR's visited the city campus Monday night to serenade at the pinning of Jeanne Villepigue, Tri Delta, and Gene Kerr, Jeanne, senior in Teachers College, is from Wichita,

Kans. Gene, resident of Columbus, is a junior in Ag College.

#### Claussen-Giles

N Club president, Bill Giles, passed cigars to his Phi Delta brothers Monday night to reveal his pinning to Joan Claussen, Theta, Joan, senior in Ag College, is from Holdrege. Bill is a senior in Teachers College from Alliance. He attended college in California last year.

#### Lingren-Moir

Chi O twin, Lorna Lou Lingren, passed candy last week to announce her pinning to Denny Moir. Lou is a sophomore in Ag College from Wausa. Denny is a senior at South Dakota University and a member of Lambda Chi Alpha fraternity.

#### Yeakley-Cannon

DG Ann Yeakley has announced her pinning to Bill Cannon, Phi Gam. Ann, sophomore in Arts and Science College, is from Atlanta, Georgia. Bill, freshman law student, comes from Mitchell.

#### Halverson-Jeffrey

New SAE-DG pinmates are Pete Jeffrey and Peggy Halverson. Peggy, who passed candy Monday night, is a sophomore pledge in Teachers College from Seward. Pete, Omahan, is a junior in Biz Ad.

#### Social Calendar

### SC Extends Applications To Monday

Application deadline for membership of the Student Activities Committee of the Student Council has been extended until Monday.

Dottie Sears, chairman, said only international students may apply. The purpose of the committee is to study the activities for international students and to co-ordinate them in order to provide a more balanced program for international students.

MISS SEAR said, "It is hoped that the committee will be better informed about activities and problems of international students on campus if the views of the international students themselves are expressed.

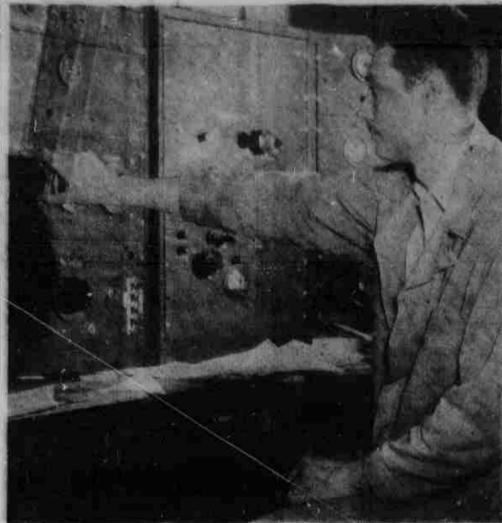

Graduates or under graduates may apply. Written application should be sent to Dottie Sears at 1520 R St., and include name, address, phone number, college and course of study.

Applicants will be notified of the time of interview.

#### Emerson Addresses NUCWA Mass Meeting

Arthur W. Emerson of the regional soil conservation office addressed a NUCWA mass meeting Tuesday.

Emerson explained "Soil conservation as it affects general world conditions." Don Rosenberg moderated the program.

### Physics Student Works

Chris Kuatt, graduate student in the department of physics, sits at the control panel of the atomic accelerator located in the Brace Laboratory. Kuatt says he plans to complete work for his doctorate using the machine. (Nebraskan photo.)

### NU Student Works On Atomic Machine

#### Ions, Family Keep Kuatt Busy

By DICK FELLMAN  
Staff Writer

Amid scientific paraphernalia of the Atomic Accelerator in Brace Laboratory, University student Chris Kuatt is engrossed in the reaction of ions as they are accelerated into a column of light gas.

KUATT is a graduate student in the department of physics, doing work in research and experimentation with the department's atomic accelerator. At the present time he attends some classes and is employed by the University as a research assistant.

"I merely keep the machine going" is the way Kuatt summarizes his job.

Kuatt has held this job for four months, and he expects to continue it for some time. Eventually, he plans to receive his doctor's degree, doing the work for his thesis in connection with

### Applications Open For Med School

Students applying for admission to the University College of Medicine will be interviewed by members of the Committee on Admissions and Scholastic Standing on Tuesday, Nov. 10, and Thursday, Nov. 12.

The committee will conduct interviews in the afternoons and evenings. Appointments may be arranged by signing the schedule posted by Room 306, Bessey Hall.

#### Sigma Delta Chi

Sigma Delta Chi, men's professional journalism fraternity will meet at noon Wednesday in Union Parlors ABC. A business meeting will follow the luncheon.

### Applications For UN Trip Still Available

#### Deadline Set For Saturday Noon

Final preparations are being made for the YMCA-YWCA-sponsored seminar trip to New York.

Six or seven openings still remain and applications must be in not later than Saturday noon at the YWCA office.

Among the recent applications for the trip are: Doris Miller, Marilyn Hinton, Peg Berget, Evin Murphy, Beverly Ellis, Marilyn Wagner, Jan Pitt Caigley, Jackie James, Carolyn Rudd,

Joan Varana, Mary Lorenson, and Cynthia Henderson.

THE STUDENTS will have the opportunity to visit two UN general assemblies, a briefing session with the UN Secretariat, and a meeting at the delegation headquarters of the Indian, Middle East, Indonesian, British, French and US Missions.

The total cost of the four-day trip is estimated at \$85 a student.

### Graduates May Apply For Civil Service Jobs

#### Two Examinations To Be Given

Two civil service examination applications for agricultural assistants and management assistants are now available.

Ephraim Hixson, associate director of resident instruction at the College of Agriculture, has announced.

Students who expect to complete their courses and graduate before June 30, 1954, are eligible to apply.

Hixson urged students to apply now if they think they may be interested in an opening at some future date. He said, "even though students may not be immediately interested in the opening, if something should come up that they want a job, the only way they can be considered is to be on the roll by taking the exam."

APPLICATIONS FOR agricultural assistant close December 1. The application forms may be picked up in Dr. Hixson's Ag Hall office or in the post office. The exams may be taken in Lincoln or in several county seats in Nebraska.

The majority of positions to be filled will be located in the Department of Agriculture and in the Department of the Interior in Washington, D. C., and throughout the United States. Positions available are agricultural economist, agricultural writer-editor, agronomist, animal husbandman, bacteriologist, botanist, dairy husbandman, dairy manufacturing technologist, entomologist, fishery biologist, entomologist, fishery biologist, plant pathologist, poultry husbandman, soil scientist, statistician, wildlife biologist, and zoologist.

Qualifications are passing a written test and earning a bachelor's degree in the appropriate field or its equivalent in experience and education. For the position of agricultural writer-editor, pertinent experience alone may be qualifying. The salary for these positions is \$3,410 a year.

THE MANAGEMENT assistant program is not specifically centered around agriculture. Successful candidates would work for promotion to higher level administration and program work would be concerned with one or a combination of the following assignments:

1. Staff management assistant engaged in organizational and procedural studies, budget preparation, analysis and review; in personnel activities; or in other management operations.
2. Staff assistant engaged in substantive program analysis, planning and operational work.
3. Professional assistant in the fields of economic history, political science, international relations, intelligence or other social science fields.

Appointments will be made to positions paying entrance salaries of \$3,410 and \$4,205 a year in various Federal agencies.

REQUIREMENTS FOR a management assistant position are similar to agricultural assistant in that a four-year college course or a comparable education must have been completed. At least 30 semester hours of study must be in the field of application.

Two written tests must be passed; and the candidate must demonstrate in an interview that he possesses personal qualities necessary for the positions.

Closing date of application for the next written test is Nov. 12. The test will be Dec. 5. Application forms for management assistant may be picked up at any post office or Dr. Hixson's office.

### RCCU Volunteers Teach Convalescents To Swim

#### Program To Instruct Palsy, Polio Patients Started In 1948

By GRACE HARVEY  
Copy Editor

Teaching convalescent children to swim is the project of 11 University students.

The voluntary group, which is made up of members of the Red Cross, instructs polio, palsy and other convalescing patients one afternoon a week at the YWCA pool. Eleven patients attend these Tuesday swimming sessions.

The instructors are: Ann Koker, Barbara Grow, Arline Harte, Blaine Ward, Barbara Turner, Nancy Mueller, Marilyn Eaton, Billie Howalt, Nancy Hall, Jane Spencer and Adelle Chassnov.

EACH STUDENT teaches the same patient throughout the swimming program. "This way the patient knows his instructor and the instructor knows how much to expect of his patient," Arline Harte, chairman of the Red Cross Water Safety Division, explained.

University students have worked on the project since 1948. Interest increased and in 1952 a separate college water group was formed.

The patients range from 18 months to 45 years of age with the largest percentage of them in the 5-15 year old group.

THE PATIENTS are either able to walk with the help of crutches or braces or motivate themselves in wheelchairs. Although most of the victims are homebound, some of them attend school. The water, because of its buoyancy, enables the patients to walk and stand easier than they can on land.

"Although we are pleased when our pupils finally learn to swim," the instructors said, "a slight improvement is enough to make us feel the worthiness of this project."

Miss Harte said, "As one teacher instructs only one student, more instructors are needed for work this summer and next fall." Requirements for instructors are a Water Safety Instructor's Certificate, interest and training course attendance.

THE ELEVEN students working with the patients have completed a course at the YWCA which taught them how to instruct the handicapped. During the course, which met in three sessions, the students learned anatomical terms, different movements of the body and how to apply these movements to the swimming process.

In the sessions they worked with blind persons and blindfolded themselves while swimming so that they could comprehend the problems the blind are faced with when learning how to swim.

Students interested in giving swimming lessons to the handicapped should call Miss Harte at 3-7331.

"THE ONLY aim of the student instructors is to teach the patient to swim," Miss Harte emphasized. "Some people have the incorrect view that the instructors teach muscle coordination."

field or its equivalent in experience and education. For the position of agricultural writer-editor, pertinent experience alone may be qualifying. The salary for these positions is \$3,410 a year.

Closing date of application for the next written test is Nov. 12. The test will be Dec. 5. Application forms for management assistant may be picked up at any post office or Dr. Hixson's office.

"Muscle coordination and side reactions develop naturally, but they are in the doctor's field, not the instructor's," Miss Harte said.

She added that swimming, besides being helpful physically, builds morale because patients, when swimming, are doing something which normal people do.

"Most of the children like the water," Miss Harte said, "but when they don't we play with them until they do like it."

Applicants will be notified of the time of interview.
