Lincoln Youth To Star With Basil Rathbone

'King David' Scheduled For Sunday

Ronny Crocker, 12-year-old Lincoln youth, will star with screen, television and stage actor Basil Rathbone in Sunday's presentation of the symphonic psalm, "King David." The program is scheduled for 8 p.m. at the Coliseum.

Selected from the Lincoln Public Schools, Ronny will be featured in the role of King David as a youth. He is the son of Mr. and Mrs. Harold E. Crocker.

RONNY WILL sing the second number, "The Song of David, The Shepherd."

Three professional singers also will be featured on the program. They are Miss Margaret Goldsmith, New York City; Mrs.

Information Given To Vets On AFROTC

Student veterans desiring entrance into the AFROTC Advanced Course are given the following information by Colonel Joseph A. Stenglein:

On the basis of previous honorable active service in the Air Force, Army, Navy, Marine Corps, or Coast Guard, a cadet may request a waiver of the basic course, or any portion thereof, as a requirement for entrance into the advanced course.

Eight Initiated Into Eta Kappa Nu

Eight new members have been initiated into Eta Kappa Nu, honorary electrical engineering fraternity.

New members are: James Bailey, Willard Kallemeyn, William Rasdal, Wayne Koelle, Franklin Szama, Gene Yost, students, and Ralph M. Ibata and Waldo E. Minford, professors of the Department of Electrical Engineering.

The two faculty initiates were elected to honorary membership in recognition of outstanding work in their field.

Speaker at the initiation banquet was John Cramer of Lincoln.

Another dinner meeting of the organization will be held Saturday in the Union at 6:30 p.m. The dinner will honor Dr. Eric Gross, national president of Eta Kappa Nu.

Dr. Gross is a professor of electrical engineering at the Illinois Institute of Technology.

Cramming for Exams?

Fight "Book Fatigue" Safely

Your doctor will tell you—a NoDoz Awakener is safe as an average cup of hot, black coffee. Take a NoDoz Awakener when you cram for that exam... or when mid-afternoon brings on those "3 o'clock cobwebs." You'll find NoDoz gives you a lift without a letdown... helps you snap back to normal and fight fatigue safely!

35 regular 35¢ large economy size 99¢ (for Gross, New and Gross) 60 tablets

Exam Schedule

Laboratory classes meeting for several continuous hours on one or two days shall meet for examinations as follows: Classes meeting on Monday or Tuesday shall be examined on the date scheduled for the first hour of their laboratory meeting; Wednesday or Thursday classes on the second hour of their meeting; Friday or Saturday classes on the third hour.

Table with columns for date and time, listing exam sections for various subjects like English, Mechanical Engineering, Home Economics, Spanish, Electrical Engineering, Business Organization, Economics, and Mathematics.

KK To Celebrate 44th Birthday With 'Finian's Rainbow' Production

Talent, Not Horseplay Emphasized In Modern Shows

By BEVERLY DEEPE Staff Writer

In 1911, a small nucleus of upperclassmen earnestly undertook a new enterprise. The following years this new enterprise was realized with the Kosmet Klub's initial presentation of "The Diplomat," written by a University professor.

The "Roaring Twenties" saw hairy-chested athletes poun' the boards during their pony choruses, which were noted for riotous slapstick.

Then, in 1930, eight girls comprising a dancing chorus were featured in the mixed cast.

1931—ONLY male cast members again. Ten years later the all-male tradition was cast aside and coeds were once more included in the spring shows.

The result was emphasizing talent rather than horseplay the purpose which Kosmet Klub strives for today.

The '51 production of "Good News" marged the first year Kosmet Klub bought a play right to a Broadway show.

1952-53—same story. "Girl Crazy" and "Anything Goes" were renditions of Broadway plays of the 20's.

"FINIAN'S RAINBOW," this year's production, is the first recent (1947) Broadway show presented by KK. During its 43-year existence Kosmet Klub has produced shows progressing from "pony-lines" written by University students and faculty to \$5,000 imitations of current Broadway musicals.

This year is the first in which "Most Eligible Bachelor" will be presented at a KK production. These six "oh-la-la" men will be introduced to University female "Oh-ers" during the Thursday night intermission.

Tickets for "Finian's Rainbow" may be obtained from Walt's Music Store, KK workers, a booth in the Union, or by calling the University number, 2-7631. Price is \$1.80 for reserved seats, \$1.50 for general admission seats and \$1.10 for balcony seats.

Pre-med Day will be held Saturday from 8:30 a.m. until noon at the University Hospital in Omaha.

The first part of the morning will be devoted to tours of the campus conducted by pre-med students. At 10:30 a.m. medical demonstrations will be given in the north amphitheater. Medical fraternities will provide entertainment throughout the morning.

Pre-medical or pre-technical students who want to attend may contact Dr. Eugene F. Powell in 306 Bessey Hall or sign up on a sheet outside the office by Wednesday.

Nine University coeds were initiated into Sigma Alpha Iota, professional music sorority Sunday.

They are: Lois Bramer, Nadine Bosley, Janet Boettcher, Donna Steward, Shirley McPeck, Ruth Kluck, Sue Kirkan, Phyllis Sherman and Phyllis Maloney.

Richard Ayers, senior in the College of Engineering, was awarded the Lt. Theron A. Dreier Memorial Fund Scholarship in engineering.

The fund was established in 1946 by Lt. Dreier's parents, Mr. and Mrs. Albert A. Dreier of Lincoln.

Two Grants Given To NU Foundation

Funds totaling \$1,500 have been donated to the University of Nebraska Foundation.

The Chester B. Brown Company of Morrill donated \$1,000 to finance research studies on bean production and diseases. Dr. Marvel L. Beker, associate director of the Agricultural Experiment Station, will direct the work.

Unusual E-Week Displays Planned

Engineers' Open House To Feature 'Hot Seat,' Musical Grinding Wheels

Visitors to the annual engineers' open house Thursday will have an opportunity to see engineering in action through displays and demonstrations.

Musical grinding wheels, rubber roads and an electric chair, are a few of the bizarre items which will be on display from 8 to 10 p.m. The event is planned by students from the College of Engineering and Architecture.

More than 10,000 people are expected to attend the open house which will carry out the theme, "Engineering—It's all Around You."

CHEMICAL ENGINEERS will concentrate on color by showing the methods by which industries dye everything from plastics to clothing. The chemical engineers are prepared to demonstrate the method used in selective coloration, the process whereby a dye can be made to color only certain fibers in a piece of cloth.

Agricultural engineers are building their displays around the Nebraska Tractor Testing Laboratory. The lab test the capabilities of all types of tractors as is required by law, before they can be sold in the state. The display will show how tractors are tested.

ARCHITECTS AND Architectural engineers are planning to present ideas concerning high school work necessary for entrance into the school. They will also present a resume of the curriculum and aims of the architect.

The architectural engineers will also present specific problems concerning homes, churches, office buildings, hospitals etc., and student solutions to these various problems. The problems will be presented through the use of models and other three-dimensional means. There will also be a display of contemporary furniture.

The mechanical engineering department is preparing their first public concert. They will present a symphony on ordinary grinding wheels.

THE CIVIL engineering department will utilize a newly-remodeled Sanitation and Hydraulics Lab for their displays this year. In the Hydraulics Lab they will display a hydraulic jump in which flowing water is induced to flow straight uphill.

Methods used in Lincoln to purify water will be on display in the new Sanitation Lab. Civil engineers are also planning to put on a display of rubber roads.

COMMUNICATION AND power will be the general theme of the electrical engineering displays. A telephone display will show the intricate operation of the dial system, and the operations which are necessary to connect the two parties will be shown.

A mechanical fox and rabbit will stage an electronically-controlled chase. Color television will be shown for the first time in Nebraska.

There will be a Van DeGraff generator in the power lab which will cause spectator's hair to literally stand on end and door knobs to glow. The electrical engineers are also planning to put approximately 200 people in their electric chair and apply a half-million volts. They declare that in four years of operating this particular attraction, they haven't lost a customer yet.

The engineering mechanics department will show how the design of a manufactured article progresses from the sketching stage to the final working blueprint.

UP GO SALES. DOWN COMES PRICE OF L&M

You Save Up to 4¢ a Pack—40¢ a Carton!

FROM L&M TO YOU... JUST WHAT THE DOCTOR ORDERED

1. THE MIRACLE TIP... for most effective filtration. Selects and removes the heavy particles, leaving you a Light and Mild smoke.
2. PURESTAND BEST filter made. Exclusive with L&M. Result of 3 years of scientific research... 3 years rejecting other filters. This is it!
3. MUCH MORE FLAVOR... MUCH LESS NICOTINE. L&M Filters are the first filter cigarette to taste the way a cigarette should. The premium quality tobaccos... and the miracle filter work together... to give you plenty of good taste.

Now Every Smoker can afford L&M... America's highest quality Filter Cigarette

Since L&M Filters were put on sale across the country they have gained a nation-wide demand never before equaled by any other cigarette in so short a time.

So naturally...down goes the price to you of L&Ms—America's highest quality and best filter tip cigarette.

Thousands of dealers in America's largest cities (New York, Boston, Philadelphia, Chicago and Los Angeles) in signed statements report L&Ms their largest selling filter tip cigarette.

Why have L&M Filters rolled up sales records like this? For the first time filter tip smokers are getting what they want... much more flavor and aroma... with much less nicotine. After the first few puffs from an L&M, most smokers sum it up this way, "THIS IS IT—JUST WHAT THE DOCTOR ORDERED."

When you pause... make it count... have a Coke

DRINK Coca-Cola
