When You Join The "Men Who Measure" . . .

When you leave school as an engineer and join the ranks of the "men who measure," you'll want the most accurate and durable measuring tapes. Lufkin Chrome Clad Tapes ARE the most accurate and durable because their markings are bonded to the line and protected by multiple platings of metal that also protect the fine steel in the line. This all-metal line is longest wearing—it won't crack, chip, peel—it is easiest to keep clean—it is most rust and corrosion resistant. Chrome Clad Tapes are the choice of engineers the world over.

Whether you're running a survey, building a bridge or a building, railroading, road building, mining or drilling—there's a Lufkin measuring tape exactly right for the job.

Specify Lufkin when you get out on the job—send today for our free catalog.

Ivy Day '54 Marks Fifty-One Years Of NU Innocents Society Existence

Group To Tackle Thirteen New Members May 8

The Innocents' first efforts of their second half century will be completed Ivy Day when the senior men's honorary tackle their successors.

Thirteen new members will be chosen to carry out the traditions formed in the 52 years of existence of the Innocents. The outgoing Innocents will award the Scholarship-Activities trophy to three outstanding fraternities on Ivy Day also.

The Innocents Society was established on the University campus in 1903 because of a lack of co-operation between students and faculty that existed at that time.

Many active faculty members and students felt that the proper school spirit and attitude was lacking. Small fights and riots occasionally broke out on the campus.

Many believed that a group of students chosen to improve spirit and relationships would strengthen the University and improve

the school's reputation. Chancellor Andrews, Dean Bessey, Dean Condra and a few outstanding senior men met and decided that an organization could make the difference between improvement and the present state of affairs.

The traditional number of thirteen was then decided upon for limiting membership and the Innocents Society was formed. Members were to be chosen for scholarship and participation in activities. The group then drew up a constitution.

The Innocents Society was the first group to back the adoption of cheerleaders for University sporting events. Dad's Day and other honorary days were introduced by the Innocents.

A recent contribution of the Innocents was the "Victory Bell" which is rotated between Missouri and Nebraska Universities depending on the winner of the previous year's football game. The Innocents also exercised a

great deal of influence in the naming of the field house after Henry Schulte.

IT'S ALL A MATTER OF TASTE

They're all the rage with college kids, With gals and men alike. So round, so firm, so fully packed—I speak of Lucky Strike!

Barbara Bennett Lawrence College

When you come right down to it, you smoke for one simple reason... enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco... light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better... always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

When buddies ask me for a smoke, What do they get from me? "Here's finer smoking, pal," I say, "Cause L.S./M.F.T.!"
