

Speech, Hearing Labs

Services Renewed To Aid Handicapped

The University Speech and Hearing Laboratories Monday began its 12th year of services to the public and students.

The daily pre-school for children with speech and hearing difficulties began with groups meeting from 9 a.m. to noon under the instruction of Miss Georgia Dandos, instructor, who this year replaces Mrs. Madge Miller.

THE SATURDAY morning classes for children of school age will start Oct. 2. Special corrective work for children affected by cerebral palsy will be offered by Dr. Lucile Cypreansen, associate professor of speech and speech correction.

Mr. Ernest Burgi, instructor, will again be in charge of the testing of the hard of hearing and the fitting of hearing aids. He will be

assisted by Mary Janet Reed, graduate assistant. Every Wednesday from 1 to 5 p.m., diagnostic services in speech and hearing will be conducted by appointment by a member of the Speech Department.

THE NEBRASKA Society for Crippled Children will give financial assistance to the speech laboratories for the children's services, and the Lincoln Red Cross will continue its volunteer services in providing transportation facilities.

In addition, University students needing speech or hearing rehabilitation and training will be serviced during the afternoon hours.

Special groups are open to foreign students needing speech help and to adult stutterers wanting corrective speech training. Other special classes will be open to students with voice and articulation problems.

THE DEPARTMENTS of psychology and education psychology and measurements assist the speech laboratories in psychological evaluations. The College of Dentistry and department of pediatrics co-operate in checking cleft-palate children and in cases of defective dentition.

Dr. William Brill of the department of mental hygiene co-operates as psychiatric consultant for University students, and the department of audio visual aids provides equipment and materials needed for special training in the laboratories.

Lake Renamed Regional Union Representative

Duane Lake, manager of the Union, has been named regional representative for student unions in Kansas, Iowa, Missouri and Nebraska by the Association of College Unions.

Lake, president of the Association in 1950-1951, was reappointed as regional representative to the Association's Board of Advisors by current president William E. Rion.

UNDER THE guidance of Willie Hoppe, the Association of College Unions has promoted intercollegiate activities such as billiards and bowling. While union manager at South Dakota State, Lake sponsored two national championship teams.

After Lake's term as Association president terminated in 1951 he was presented with a solid ivory gavel made from billiard balls Hoppe used in winning his third national billiards championship. The presentation was made by the National Billiards Congress.

NU Offers Language Courses For Children

University romance and Germanic language departments are French, German and Spanish to children of elementary school age.

Classes are taught at 10 and 11 a.m. on Saturdays at Huntington School. The plan has been in operation for three years. When it started there were 10 students taking French. The enrollment for this session is expected to reach 150.

Charles Colman acting chairman of the romance language department, explained the course as "part of a national re-awakening of interest in languages. It is partly due to the influence of the United Nations and the feeling that we can cooperate more with foreign peoples if we can speak their language."

COLEMAN WENT on to say that "nationally the movement has mushroomed in the last few years, so that probably well over 200,000 elementary school children will be studying foreign languages in the United States, whereas several years ago there were only a few hundred."

The chief problem has been to find enough qualified teachers to handle the classes. A combination of accurate pronunciation, fluency and an elementary school certificate are required.

"One of the reasons it is so important to start a child early," said Colman, "is that they have no difficulty imitating a foreign accent, whereas adults have already

formed their speech habits."

In order to help meet the shortage of teachers, the language department is planning a workshop for four weeks during the 1955 summer school session for elementary school teachers. It will give the teachers intensive practice in conversation, phonetics and methodology.

Instructors for the elementary course now in session are Leon Rottman, Stephanie Sander and Margaret Dolezal, German; Denise Nordon, Bridget Watson, Mrs. Cook and Mrs. Ferraris, French; Mrs. Robinet, Mrs. Severns and Chincón-Bustos, Spanish.

COLEMAN, Dr. Robert Carter, Mrs. Nordon, Lloyd Teals and Mrs. Robinet have compiled a textbook based on their experiences in the course. It includes language exercises, games and songs for students.

The program was aided by the Rockefeller Foundation investigation. The Foundation gave a grant of \$120,000 to the Modern Language Association to make a study of the status of foreign language teaching in the United States. The conclusion reached was that there is a need for expansion at the elementary school level.

Queen Of Hay Days

Atkinson Sophomore Meets Movie Stars

By GRACE HARVEY Staff Writer

Another beauty queen has been added to the campus roster. Blonde, brown-eyed Fran Gotschall, a sophomore in Arts and Sciences, won a week's all-expense-paid trip to Hollywood when she was chosen Queen of Hay Days, an annual fall celebration at Atkinson, Nebr.

Miss Gotschall competed with twenty other women to win the title of Miss Atkinson and the opportunity to participate in the Hay Day contest. She was chosen Queen of Hay Days on the basis of poise, personality and appearance in a bathing suit and formal.

She said, "We had to come out on a stage individually and walk up and around a long ramp and back again. When it was my turn, I was so frightened I thought I couldn't move!"

Miss Gotschall added that the three judges, one of whom was Miss Bette Bonn of the Bette Bonn Schools of Modeling reviewed the girls by number instead of the community they represented. "I was never so thrilled in my life as when they announced that my number, No. 3, was the new Queen of Hay Days!"

"As queen I reigned over the festivities wearing a big crown and fancy robe," she added.

Miss Gotschall and her mother flew to Santa Monica and stayed at the Hotel Miramar. Their plane was met by the publicity chairman of the Santa Monica Chamber of Commerce. She said, "He drove us all over town in the prettiest white convertible!"

Each day of her visit was filled with surprises and meetings with Hollywood stars and dignitaries. The day after she arrived Miss Gotschall met the sheriff of Los Angeles County and the mayor of Santa Monica. She gave the mayor her calling card, a miniature ball of hay.

Of all the important people she met, she said, "Everyone was so friendly and easy to talk to! They would just come up and shake my hand and say 'Hi'. I thought all the movie stars would just be up in the air above me, but it isn't hard to meet them and talk to them — they're just like anybody else."

Public relations: Mariterese Sellers, secretary-assistant.

Radiology and physical medicine: Dale Henley Davies, instructor.

Teachers College: Robert Johnson, instructor.

Television: Robert Schliater, assistant in educational television.

Psychiatric training: William Brill, assistant professor, part time, Robert Dickinson, assistant professor of neurology and psychiatry; Robert Ellingson, medical psychology associate; Walter G. Klopfer, assistant professor, part-time; Floyd O. Ring, instructor of neurology and psychiatry.

COLLEGE OF MEDICINE: Dr. Joseph Gardner, assistant professor of anatomy; Dr. Gordon Gibbs, associate professor of pediatrics; Dr. Arthur Bennet, professor of physiology and pharmacology and assistant chairman of department; Shirley Jack, assistant dietitian in hospital; Dr. Merle Musselman, associate professor of surgery; Dr. Franklyn Arnhoff, medical psychology instructor; Theresa Muller, nursing professor; Dr. Arthur Dunn, assistant professor, biochemistry; Dr. Charles Vacanti, student and personnel health instructor; Dr. Frederick Ware; physiology and pharmacology instructor; Dr. Harold Martin, neurology and psychiatry, assistant professor.

MISS GOTSCHALL said that she had the most fun of all when she toured Universal-International studios as the guest of Danny Thomas. She said, "When Danny took me to lunch in the studio cafe, all these movie stars were sitting around in costume — the studio was shooting two pictures at the time. It gave me a thrill to see the stars just relaxing and talking and eating just like anyone else on their lunch hour. And then Danny introduced me to Mala Powers, Tony Curtis and Jose Ferrer!"

Afterwards we visited all the U-I buildings. In one they were shooting "Lady Godiva in Coventry," and I was introduced to the stars, Maureen O'Hara, Victor McLaglin and George Nafar. When George came running up and put his arm around me and said, "Hi, Fran," I almost fell through the floor! Then he and I had our pictures taken—he was all dressed up in his costume for the movie."

She said, "The next set we visited was "The Looters," with Julia Adams and Rory Calhoun. I was sitting by the director watching when Rory turned around and picked up a large rock in the scene he was rehearsing and said, "Here, take it for a minute, Fran, it's very heavy." When he put it in my hands, I discovered that it was just a fake and as light as a feather."

THE NEXT DAY Miss Gotschall attended the University of Southern California — Washington State football game. She said that she was impressed most by USC's lighted student card section. That evening she went to Ocean Park on the pier and danced to the music of Lawrence Welk and his orchestra.

On the last day Miss Gotschall and her mother visited Nott's Berry Farm and Will Roger's Ranch. She said that since she lives on a ranch at home, she wanted to see what a real California ranch would be like.

THAT EVENING she attended the Colgate Comedy Hour at the Hollywood Bowl where she met Eddie Fisher, Louie Armstrong, the Vagabonds, Peggy Lee, Rocky Marciano and Debbie Reynolds.

As to the looks of Hollywood men, Miss Gotschall said, "Movies and television just don't do justice to Eddie Fisher, Rory Calhoun and Tony Curtis. They act young and gay and funny and friendly."

University Dames organization for wives of University students, will hold its first meeting of the year Thursday, September 30 at 7:30 in Ellen Smith Hall.

President Beverly Sprague urges everyone to come.
