

Rifle Range Activities

Interest In Shooting Goes Beyond ROTC

By FRED DALY
Staff Writer

To the surprise and pleasure of everyone concerned, activities on the University's rifle range in the Military and Naval Science Building have grown far beyond the bounds of pure military matters.

Each year new students find the facilities available for them on the range. This interest has grown to the point where only 20 per cent of the time on the range is taken up with formal ROTC training. The rest of the time the range is filled with students shooting either in teams or individually.

The basic purpose of the range is to train potential service officers in the fundamentals of rifle marksmanship. But an equally important purpose is to provide good recreational facilities for University students.

Under the guidance of Capt. Arthur L. Belknap, Army ROTC range officer, and range supervisors from each of the ROTC branches, instruction periods have been opened to all students at the University, whether enrolled in ROTC or not.

Freshman Instruction
In addition to the basic rifle instruction and qualification being given to freshman Army ROTC students, the range is available for practice and advanced instruction to all students from 9:30 a.m. to 5 p.m. each school day.

Instruction is given on a joint Army, Air and Navy ROTC basis under the supervision of Sgt. First Class Francis Whitney, Army; Master Sgt. Joseph Long, USMC, and Technical Sgt. Charles E. Odum, USAF.

Rifles and ammunition are provided free of charge to all ROTC students. Students not in ROTC must furnish their own ammunition. Rifles, sighting scopes and targets of the highest quality are available for all to use.

Main activities on the rifle range at the present time are the Varsity Rifle Team, the intramural men's tournament and a newly-organ-

ized Women's Rifle Club run jointly with the Women's Athletic Ass'n.

Jordan Outstanding Marksman
The Rifle Team, recently given status as a minor varsity sport by the University athletic department with N-Club membership to all lettermen, will fire 10 to 15 matches against other schools.

Their biggest matches are two invitational matches held each year. The biggest this year will be the Second Annual Invitational Match in February. Twenty schools are expected to compete here in this match.

The Rifle Team has produced one of the nation's outstanding marksmen, Paul Jordan. This year will be Jordan's fourth on the Varsity. He is the current Big-Seven record holder.

The intramural program will begin Monday, Nov. 3. Teams will fire evenings from 5 to 6 p.m. So far only 10 teams have registered, but Capt. Belknap hopes at least 10 more will register by Monday.

Women's Interest Increases
The Women's Rifle Club is new this year. Over 200 girls have expressed interest in the organization. This is a decided increase over the 75 girls which fired individually on the range during the 1953-54 school year.

Student participation is not limited to these organized programs,

however. Last school year over 1,000 men and 75 women students used the range. Some came to shoot as many as 20 or 30 times.

The University has done much to promote interest in the program by providing such things as a new trophy case, a new rifle-storage cabinet and complete painting and renovation of the range.

National Board Coordinates
As a community service, use of the range has been provided for seven civilian organizations outside the University. This has been done in co-operation with the National Board for Promotion of Rifle Practice. The largest outside organizations using the range are the Lincoln Rifle Club and the Elgin Gun Club.

In these many ways the University rifle range has extended its scope far out of the basement of the M & N building. More students each day are drawn into it through team and individual participation. Rifle range activities at the University are well on the way to taking a high place in the scope of University activities.

On The Social Side

"U Takes Back Seat To CU; Twelve Couples Get Hitched

By BARBARA CLARK
Social Editor

The campus was almost deserted this week-end, as over 2,000 University students migrated to Boulder for the Colorado-Nebraska football game. Social activities

centered around the nightspots of Boulder, Denver, Central City and Estes Park. Monday night 12 University couples announced pinnings and engagements.

PINNINGS

Sandra Stevens, Kappa Alpha Theta junior, to Jim Feese, Phi Delta Theta junior.

Margie Swanson, Pi Beta Phi sophomore, to Dick Anderson, Beta Theta Pi at CU.

Nancy Stanley, Tri Delt junior, to Joe Huckfeldt, Alpha Gamma Rho senior.

Norma Ann Johnson to Norm Coufal, Sigma Chi junior.

Audrey Bombeck to Bill Clement, Brown Palace sophomore.

ENGAGEMENTS

Nancy Randall, Pi Phi senior, to Jerry Ingram.

Sue Simmons, Kappa Delta sophomore, to Glenna Blomendahl. Ellen Sabin, sophomore, to Don Tadken, senior.

Harriett Ruegg, Gamma Phi Beta junior, to Don Ashley, sophomore.

Madeline Gourley, Alpha Omicron Pi senior, to Joe Wachter, Beta sophomore.

Enid Levey, junior, to Lawrence Pollack, senior.

YWCA To Sponsor Night Meditations

The first series of Meditations sponsored by the YWCA will be held this Wednesday after closing hours in several of the organized women's houses. The Campus-wide topic will be "Religion in Living Units."

These programs are to be planned by the Chaplin's workshop. Glenna Berry is chairman. Representatives include: Nancy Stanley, Tri Delt; Barb Rystrom, Kappa Kappa Gamma; Janet Aunspaugh, Chi Omega; Diane De-vriendt, Kappa Alpha Theta; Sharon Johnson, Alpha Chi Omega; Janet Schenken, Delta Gamma; Kay Burcum, Kappa Delta.

Workshops will meet every Thursday at 3 o'clock in Ellen Smith Hall. Rev. Rex Knowles will be the speaker.

Candidates Named

Local Beau Brummell To Get 'Gold Oscar'

Twenty-four University men have been selected as candidates for the "Beau Brummell" contest which is being sponsored by a downtown theater.

Those competing for the title are: John Chappell, Acacia; Wayne Spilker, Alpha Gamma Rho; George Gohde, Alpha Tau Omega; Bill Englekmeier, Beta Sigma Psi; Andy Smith, Beta Theta Pi; Jim Copp, Delta Sigma Phi; Roger Sack, Delta Tau Delta; Bill Harmon, Delta Upsilon.

Marx Peterson, Farmhouse; Maurice Niebaum, Kappa Sigma; Charlie Haupt, Phi Delta Theta; Bill Campbell, Phi Gamma Delta; Joe Smith, Phi Kappa Psi; Von Innes, Pi Kappa Phi; Denny Smith, Sigma Alpha Epsilon; Norm Veit-zer, Sigma Alpha Mu.

Bruce Martin, Sigma Chi; Earl Barnette, Sigma Nu; Phi Shade, Sigma Phi Epsilon; Tom Hunton, Tau Kappa Epsilon; Fred Long-acre, Theta Chi; Len Barker, show after the close of the com-poned until next Wednesday night, November 3, at 7:30.

Theta Xi; Howard Vann, Zeta Beta Tau and Dan Brown, Selsack Quad. To vote for "Beau Brummell," one must clip the coupon in the Nebraskan and drop it in the Ne-braskan box in the Union base-ment before midnight, Oct. 29.

Discussion Postponed
Roger Wait, co-chairman of the "Great Books Discussion Group," has announced that the regularly scheduled meeting of the group for Wednesday night has been post-

Bibliography Center Near To Completion

A bibliography center has been nearly completed at Love Memorial Library after five years of work. Library officials report that the center is presently in use.

Need for a bibliography center was felt as early as 1945, and efforts have been made since then to build such a facility.

Gathered in the center are the principle general bibliographies of the world of printed books and periodicals. It includes catalogs from the great national libraries, such as the Library of Congress and the British Museum, and trade bibliographies.

Union Tickets Now On Sale

Tickets for the annual Kosmet Klub fall revue are on sale in a Union booth for 80 cents or may be purchased from Kosmet Klub workers.

The revue, "Fantastic Fables," will be presented Friday at 8 p.m. in the Coliseum. The show will include six skits, two curtain acts and the presentation of Prince Kosmet and Nebraska Sweetheart.

University Foundation Given Chemical Grant

The University Foundation has announced that a \$2000 grant from the Spencer Chemical Company of Kansas City has been received to help finance a continuing study of nitrogen requirements in soil to support the growth of corn under varying conditions.

Perry W. Branch, director-secretary of the Foundation, said the money will be turned over to the Agronomy department in two installments.

AWS Workers

The first meeting of Associated Women Students workers will be held Wednesday at 5 p.m. in Union Room 316. The meeting will be an orientation session to acquaint freshman coeds with the functions of AWS.

ROTC Cadets Tour Wichita Plane Factory

The Command Squadron of the University Air Force ROTC detachment flew to Wichita, Kan., Oct. 22 for an orientation tour of the Boeing Aircraft Corporation factory.

According to Major J. G. Duval, escort of the group, the purpose of the trip was to familiarize the cadets with the aspects of aircraft production and design.

The group of 18 basic AFROTC students left Lincoln Air Force Base by C-47 Friday afternoon. Saturday the group was taken on a tour of the Boeing factory, where the B-47 six-jet medium bomber is manufactured.

Later in the afternoon the group was conducted around McDonnell Air Force Base.

Saturday morning the cadets watched a base review including vehicles and marching personnel. After the review they were individually orientated on the B-47.

Farmers' Fair Board Names Junior Members

Newly-selected juniors for the Farmers' Fair Board are Larry Conner, Boyd Stuhr, Al Schmid, Joyce Taylor, Shirley Slagle and Jan Lindquist.

The Board plans the Farmers' Fair, held every spring.

Senior members of the board are Charles Watson, Nancy Hemphill, Madeline Watson and Rogene Ripp.

IMPORTANT DECISIONS

Choice of Parents

Choice of Wife

Choice of Job

You don't have any choice on the first and very little on the second . . .

On the third however, it's strictly up to you — a poor choice can throw you years behind your classmates and a good choice can put you years ahead.

At Chance Vought, young engineers (Aeronautical, Mechanical, Civil and Electrical) have every opportunity to make a mark for themselves in the industry that places the greatest value on engineering skill and ingenuity.

The very nature of the modern aircraft — its immense complexity and its never-ending development — presents technical problems that are unparalleled in any other field of engineering.

The chart illustrates two things; first, the extent to which our work involves the various engineering and scientific specialties and second, the scope of the opportunities that exist for the young engineer.

For more information regarding these employment opportunities please contact your placement office in order to arrange for an interview with our representative when he is on campus, or write for a copy of "Your Career With Chance Vought Aircraft".
