

Ag College

Annex Yearly Prints Fifteen Million Pages

Fifteen million pages per year, from one page leaflets to 200 page booklets...

The annex, which has been in operation for more than 30 years, is engaged in printing bulletins and educational material...

The annex also does mimeographing, multigraphing (the printing of letterheads and addressed envelopes) and addressographing.

According to Donald K. Nelson, supervisor of the annex, most of the mailing for the entire campus is done here.

Fourteen members of the University Arnold Air Society discovered this on their recent trip to Washington, D. C.

The annex distributes all types of farm record books, including farm account books, household inventories, income tax books and some 150 different home study club forms.

Morris Fills New Health Center Post

Florence Morris has been appointed psychiatric social worker at the Student Health Center.

Her new position is designed to round out services of Student Health as an addition to its mental hygiene division.

Miss Morris's work is to talk with students who don't think that they are doing well in their studies and are concerned about improving.

Miss Morris said student problems are very common and need to be discussed with "someone who understands" and who will try to find ways to solve them.

Students can arrange appointments with Miss Morris for consultation.

Since graduating from Simmons College, Miss Morris has done social work for four years.

Miss Morris, a former New Englander, commented that she is brand new to Nebraska, but said, "I like Nebraska very much..."

Three Printing Machines

Among the publications of the monthly periodical of the Ne-

annex are "Herd Builders," a braska Dairy Breeder's Association. Some 7,500 copies are distributed per month.

The Agricultural Economics Department, has a monthly circulation of 4,000 copies. The extension service on the city campus distributes 6,400 copies each month of "Business in Nebraska."

AF Cadets Visit Capital

A map is needed to find the Pentagon and also to get around in it after it is found.

The Pentagon was one of the highlights of the trip. After entering, the receptionist marked in red pencil the route that the group wanted to take.

On the look out for VIP's the group saw a glimpse of Field Mar-

shall George Montgomery on his way into the Pentagon. They hope to rub elbows with some of the top brass and passed the offices of the chairman of the Joint Chiefs of Staff and the Secretary of Defense, but failed to see them.

In the FBI Building the group saw the different crime laboratories. As they walked down the corridors, they were able to look through the plate glass windows into the different labs.

Cadets making the trip were Robert Amick, Delain Daneky, Jerry Flaherty, Verone Gibb, Raymond Hruby, Don Hilkemeier, Rodney Link, Ralph Motogawa, Richard Olson, Jerold Johnson, Charles Stuart, Norman Reed, Charles Stewart and Ronald Reinmiller.

In the Archives Building, the group saw the Declaration of Independence and the treaty of the Korean War. The minutes of the Constitutional Congress were also on exhibit.

Arlington Cemetery was also on the list of places visited by the cadets. Here they saw the tomb of the Unknown Soldier where a 24-hour guard is kept.

The program will include a reading by Joyce Fangman, and an accordion solo by Sandy Lohenstein. The Delta Upsilon quartet, composed of Monty McMahon, Marvin McNiece, Nick Johnson and Don Deterding, will sing traditional carols.

The Red Cross Entertainment Coordination Committee is in charge of arrangements.

Special Program Planned By RC

A Christmas program will be given by Red Cross workers for patients at the State Hospital Thursday at 2 p.m.
