

Dr. Cypreansen Wins Achievement Award

National Society Recognizes Speech Work

Dr. Lucile Cypreansen, assistant professor of speech and speech correction, is recipient of the 1955 outstanding achievements award given by the National Society for Crippled Children and Adults.

Dr. Cypreansen's activities in the field of speech have included the founding of courses and clinics for children with speech and hearing difficulties.

Under her initiative the University is sponsoring a daily pre-school clinic for children with speech and hearing difficulties.

She has begun two courses in speech training for foreign students. Presently Dr. Cypreansen is working on a plan for a year study in which portable artificial respirators would be used in speech therapy.

For helping children whose speech is retarded, she is making recordings to be used in stimulating speech development for children and is completing a book on speech correction through group therapy.

"While I feel pride in the fact that the society has chosen me to receive a national award, I think perhaps the credit should be given to modern science and its achievement in the development of hearing aids and to the modern educational methods of rehabilitating the hard-of-hearing person," Dr. Cypreansen said.

Dr. Cypreansen's doctorate research concerned special problems of children with cerebral palsy. Her study suggested the use of chest respirators to develop regular rhythmic patterns in breathing and voice production.

'Books For Democracy' Drive Planned For NU

In cooperation with the Asia Foundation, Pi Beta Phi is sponsoring a "Books for Democracy" drive on the University campus, Saturday morning.

Used textbooks donated by students will be sent to Asian students and professors for classroom work. The purpose is to spread a better understanding of Western thought among Eastern peoples.

The Asia Foundation is a non-profit organization with headquarters in California. It was established to promote and strengthen cooperation and mutual understanding between Americans and Asians.

The used textbook project of the Foundation has been conducted at several colleges and universities throughout the nation. Muriel Pickett, chairman of the Pi Phi project, said:

Saturday at 9 a.m., Pi Phis will collect books at each organized house. Students may also bring books to the Union Lobby at this time.

1. Books must have been published in 1945 and after.

2. Standard authors or basic works in older editions are acceptable.

3. Types wanted include humanities, social sciences, English, classics, anthropology, economics, education, history, journalism, philosophy, political science, psychology and sociology.

4. Donors may write their names and addresses in books or enclose a personal note to encourage exchange of correspondence.

ALL NEW! LUCKY DROODLES!

WHAT'S THIS? For solution see paragraph below.

A STUDENT'S BEST FRIEND is Lucky Strike. At any rate, the greatest, up-to-date college survey shows that college smokers prefer Luckies to all other brands—and by a wide margin. Once again, the No. 1 reason: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "It's *Toasted*"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better. Luckies taste better anywhere, any time, as illustrated in the Droodle

above, titled: Skier enjoying Lucky while whooshing under bridge. Next time you make tracks to a cigarette counter, Be Happy—Go Lucky. Enjoy the better-tasting cigarette . . . Lucky Strike.
