Y's To Hold Vocational Seminars

Vocational seminars during the summer will be sponsored by the YMCA and YWCA for students interested in a field which will give them experience relating to their vocational plans.

A College Summer Service Group will be held June 20-Aug. 15 in which the members will have intimate acquaintance with life in two large cities, Chicago and New York. They will hold regular jobs in the most effective social agencies in these cities. Some will work only for room and board, others will be paid salaries of \$125-\$200 per month. Gretchen DeVries attended this seminar last summer.

June 18 to Aug. 31 are the dates of the students-in-industry projects where students hold regular jobs in factory, office or service industries. They gain actual experience in dealing with major social and economic problems of our country. University students who attended this seminar last summer were Lichu Chin and Kay Burcum.

Jan Osborn, University YWCA director, will direct a work-study seminar June 1-Aug. 31. Students in this seminar will work twelve weeks in a YMCA camp at Estes Park, Colo., earning room and board plus a small sum of money.

The YMCA and YWCA are also sponsoring three Citizenship seminars under which a member will hold a regular job in a government agency in Washington, D. C. There will be opportunities to visit Congress and meet with top government officials. Students will study the major problems of government in terms of the Christian understanding of man, society, and history. Another feature of these seminars will be a visit to the United Nations and a close observation of the UN at work.

YWCA Library Contains Books On Human Relations

By BARR SHARP Staff Writer

Although Ellen Smith Hall may not be as modern as Love Library, the books contained in the YWCA office in Ellen Smith are of the same range and quality as those found in the University library—the most different kind of library.

"The YWCA library has been described by some students," said YWCA director Jan Osborn, "as the most different kind of library on campus in its wide range of books that appeal to all students."

The majority of the books and magazines contained in the library are related to religion and personal growth. Some magazines are The Inter-Collegian, the official National Student YWCA publication; The Reporter; Adult Leadership, published by the National Education Association; and The Christian Scholar, published by the Commission on Christian Education of the National Council of Churches.

There are a number of study group pamphlets for working with small groups in the area of Bible study, religion, politics, world affairs and human relations.

The most popular books in the library according to Miss Osborn, are those dealing with worship materials. These books range from books of prayers, poetry and worship services to art and personal

It Happened At NU

All mortal flesh must come to an end sometime or another. Tom Crane's flesh came to its end Monday, and now he lies buried on the University campus.

To be specific, he is interred under a small mound of dirt at the northwest corner of the south unit of Selleck Quadrangle. At the head of the grave, there is a miniature light blue paper cross inscribed "Tom". Adorning the top of the mound is an "N" feather; Tom was a loyal Cornhusker to the last.

His cardboard grave marker reads, in the sad words of the bereaved owner:

"Here lies Ted Crane, a true friend and loyal parakeet. Born January 13, 1955; Died, March 28, 1955."

It is hard to believe that, while Spring is bringing life into every corner, the awesome presence of death can be felt.

On The Social Side Spring Fever Fails To Affect Pinnings

By GRACE HARVEY Society Editor

"Spring is sprung . . ." In spite of the influx of spring fever, only five couples lost their heads and announced pinnings and engagements Monday night. The reason could be that they were too busy having a ball at the ten house parties and dinner dances held last weekend.

WHAT'S THIS?

For solution see paragraph below.

YOU'LL GET A BANG out of the Droodle above. The title is: Daredevil enjoying better-tasting Lucky just before being shot from cannon. Luckies are going great guns everywhere. The reason for their booming popularity is simply this: Luckies give you better taste. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is *toasted* to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, mild, good-tasting tobacco to make it taste even better . . . cleaner, fresher, smoother. Enjoy yourself when you smoke. Have a little fun. Light up the better-tasting cigarette . . . Lucky Strike.
