

Frank Sevigne University's New Track Coach Arrives In Lincoln—Then Heads Further West

By SAM JENSEN

Frank Sevigne, newly appointed University track coach, said Sunday in a Nebraskan interview that successful recruiting and contacting of prep athletes would be a "big factor" in the rebuilding program of the University's track program.

Sevigne arrived in Lincoln Sunday evening and left Monday on an informal tour of the state with Athletic Director Bill Orwig. They planned to visit promising track candidates and attend the National AAU meeting at Colorado this week end.

Sevigne has been track coach at Georgetown University since 1949 and was named to the Nebraska post last week by Orwig.

The 12 grants-in-aid available to the track team will be awarded to those who warrant aid, Sevigne said. He said that it would take time to bring the track program up to the level of the other three so-called major sports, football, baseball and basketball.

Orwig pointed out that track was the only major program in which Nebraska was not among the contenders for top Big Seven honors.

Sevigne said that the support of alumni and other persons throughout the state would be a necessary part of the success of the University's track program. It is necessary, he said, to sell the state's top track talent on the University and its athletic program.

and will attend the National AAU track and field meet in Boulder this weekend. Sevigne plans to contact as many track prospects as possible during the trip.

The new track coach expressed the desire to contact as many track prospects as possible before starting on other phases of his job. He was optimistic over some of the material at hand, particularly this year's freshman crop.

Red Leads Black In Collegiate Poll

Red was declared the "sexiest" color by 66 per cent of those sampled in a poll by the Tufts College Weekly. Slinky black garnered 25 per cent of the votes. Nine per cent of the voters—all men—gave their preference to lavender.

Women polled by the college weekly were almost unanimous in voting for "fiery, brazen, and active" red as the most sexy color.

Analyzing the data, the Tufts Weekly concludes that "the bold red color of the Stars and Stripes still represents courage, as it did in the days of Betsy Ross."

NU Housing Action Delayed Until July 11

At its regular meeting Monday afternoon, the Lincoln City Council postponed until July 11 action on rezoning a portion of a vacant tract of land on Holdrege St. between 38th and 39 Sts. where the University plans to construct multiple-dwelling housing units for married students.

The northern, or Holdrege, side of the tract is already zoned for multiple-dwelling, but the southern part is zoned only for single-family residences. To put the tract to different use from that called for in Lincoln's zoning ordinance which classifies land according to use, the City Council must reclassify the land.

City Attorney Jack Pace has ruled that the city can regulate the use of the land through zoning laws.
