

Homecoming: Display Deadline Announced Oct. 21

Deadline for all houses to enter the competition for Homecoming displays is 5 p.m., Oct. 21, according to Von Innes, chairman of the house decorations committee.

Houses will be divided into three groups this year. There will be two groups for men and one for women. Men's houses will be divided according to number of members.

All displays must be completed by 6 p.m., Nov. 11, Innes said. A fairly detailed sketch of the theme must be included.

The displays must be evaluated at less than \$100 with lumber, paint and other supplies listed at face value whether used or new, and motors and other special equipment evaluated at rented value.

The top three houses in each division will receive plaques and 10 grand champions of the men and women's divisions will receive traveling trophies. The winners will be presented at the Homecoming dance.

On The Social Side: Social Drouth Hits Campus

By GRACE HARVEY
Social Editor

Either cupid's arrows are blunt or this just isn't the romantic season. Husker couples fell to an all-time low Monday night as only two engagements and six pinnings were announced.

Perhaps the reason for the social drouth was the complete lack of house parties last week end. With the football team sweating it out against Pitt Saturday, NU couples are looking forward to another party week end of listening to the game during Saturday Afternoon Club meetings and painting the old

campi red in general.

Engagements:
Dorothy Buckley, senior from David City, to Bob Harder of Lincoln.

Marie Duerr, Howard Hall junior from Louisville, to Charlie Wright, Pi Kappa Phi senior from Lincoln.

Pinnings:
Carolyn Carter, Kappa Kappa Gamma sophomore from Lincoln, to Jack Holmquist, Phi Gamma Delta junior from Oakland.

Maryclare Dodson, Alpha Omicron Pi junior from Omaha, to Bob Jacobsen, Sigma Chi junior from Superior.

Joan Grass, Kappa Delta sophomore from Tecumseh, to Bill Schwalm, Theta Xi junior from Omaha.

Vivian Lemmer, Delta Delta Delta senior from Atkinson, to Merlin Otteman, Sigma Phi Epsilon alum from Pender, who is a freshman at the University School of Medicine in Omaha and a member of Phi Rho Sigma.

Tish Lowe, Kappa Kappa Gamma senior from Omaha, to John Peperon, Phi Delta Theta alum of Dartmouth, who is a member of Phi Rho Sigma at the University School of Medicine in Omaha.

Rosemarie Pasmatic, Sigma Delta Tau pledge from Kansas City, Mo., to Allan Rice, Zeta Beta Tau junior from Omaha.

New House: Regents Approve DU Lot Exchange

University Regents approved a citizens' committee suggestion that the University trade lots with Delta Upsilon at 16th and Vine at a meeting Saturday.

In 1953 the fraternity, now at 1701 E. bought the northeast corner of 16th and Vine expressly to build a new fraternity house. The price was \$36,000.

Later the University decided the entire block, of which the DU's owned part, would be needed for

further University dormitory development. Previously, the University had purchased land on the northwest corner for \$55,000.

The Regents voted Saturday to trade lots with the fraternity, explaining that although the University's lot originally cost more, it was bought when a business firm was established there.

Since the building has since been removed, the purchase price was more than the property is now worth, they explained.

Funds Willed To Chemistry Department

A retired University professor of chemistry has left part of his estate to the University Foundation for the benefit of the chemistry department.

Dr. Denton Jacobs Brown, who died Tuesday, specified in his will that after bequests were made to relatives, the residue of the estate should be used to set up a trust fund for members of staff.

The fund, named the Slo-Brown Memorial Fund in memory of his son, will be used for or gifts to the staff, assist in search for retired members of staff and other financial aids.

Student Directory: Builders Need Information

Builders student directory committee does not know the addresses or phone numbers of the following people. Students whose names are on the list should call or report to the Builders office, committee members announced.

Arthur Hoekner, Eldon Hoelting, Dwain Hoffary, Jerry Hofrichter, Betty Hogue, Francis Hoing, Carleton Holmes, Richard Horrocks, Kenneth Howard, Millard Howell, Lois Howsden, Gerald Hruza, James Hubbard, Norman Huber, Darlene Hubka, Arlene Hubka, Charles Hughes, Doyle Hulme, Lloyd Hunziker, Mary Hunziker, Shirley Hurtz, Norman Husa.

What's doing

at Pratt & Whitney Aircraft

Here's something unique in education.

Near the Pratt & Whitney Aircraft plant in East Hartford, Conn., a full-fledged graduate center was established this fall by Rensselaer Polytechnic Institute. Located 115 miles from R.P.I.'s home campus in upper New York State, the new graduate facilities will enable working engineers from Pratt & Whitney Aircraft and other companies in the Hartford area to continue their studies. Without interrupting normal employment, it will be possible for students to obtain advanced degrees in specialized fields from the nation's oldest engineering college.

Designed to raise the level of knowledge and to broaden the base from which advanced research can be approached, this entire program will simultaneously lead enrolled engineers to greater achievement in their careers.

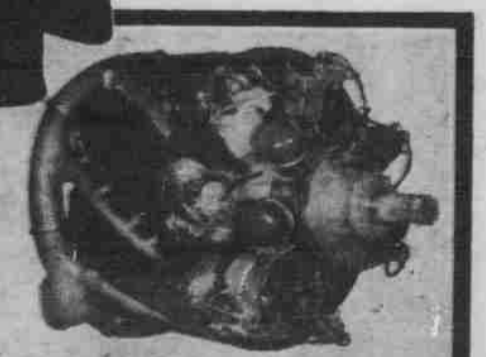

Working engineers of P & W, waiting for classes to begin at R.P.I.'s new graduate center. Courses include Aeronautical Engineering, Physics, Mathematics, Nuclear Technology, Management Training.

First 702 Computer in East. Just installed, this advanced I.B.M. computer joins earlier electronic marvels that played a vital role in the development of Pratt & Whitney Aircraft's famed J-57 jet engine.

Newest Supersonic Fighter. The Chance Vought F8U, latest in a growing group of military aircraft to fly faster than sound. Like most other record-breakers, it is powered by a P & W A J-57 turbojet.

Last Wasp Major. most powerful piston engine ever developed, is shipped by P&W. This marks the end of an era as turbojets take over as the source of power for heavy bombers, transports and tankers.
