Extension Club Meets

Nebraska extension club members met Wednesday at the University College of Agriculture for their annual Home Economics Day.
Wayne Whitney, horticulturist, serves coffee (left to right) Mrs. Diane Newbold of Minden, Mrs. Rex Kniestadt of Gibbon, Mrs. Phillip Nelson, Funk, and Mrs. Warner Dahlgren of Holdrege.
A welcome by Chancellor Clifford Hardin preceded a talk by Mrs. Carl Deitemeyer, Mrs. America.
Also included in the day-long

conference were a panel discussion on, "Roles of Women in Their In-Law Relationships," a fashion show, and an address by Dr. Ray Price of the University of Minnesota. Two thousand members from all over the state attended the day long activities.
"Harvey," a movie made from the Pulitzer Prize-winning play of the same name, will be shown as the Sunday night movie in the Union ballroom.
Starring in the picture are James Stewart, Josephine Hull and Peggy Dow. The story, by Mary Chase,

concerns a nice old man named Elwood P. Dowd and his friend Harvey, a rabbit six feet, one inch tall.

'Harvey' Scheduled For Sunday Night

Starring in the picture are James Stewart, Josephine Hull and Peggy Dow. The story, by Mary Chase, concerns a nice old man named Elwood P. Dowd and his friend Harvey, a rabbit six feet, one inch tall.

Germ Warfare Feasible Now

A University professor of bacteriology said Friday evening that "germ warfare is feasible."
Dr. Carl Georgi said the prime purpose of germ warfare is to infect the masses. "This could be done by contaminating food and water or by dissemination of airborne organisms which cause respiratory diseases, or of vector-borne organisms such as those transmitted by animal to man or man to animal."
He spoke at the evening banquet of the Engineering College Magazine Association, which concluded its two-day meeting at the University Saturday.
Georgi added, "In the Great Plains region, we are concerned with attempts to destroy plant crops. There are agents which could wipe out an entire crop during the growing seasons."
Although germ warfare is feasible, Dr. Georgi feels in his own mind that this type of warfare will not be used. "It would be retroactive on the user. That is, when invading troops come to occupy an area they would be subjected to the same disease. Another reason is that the detection and anticipation of germ warfare is extremely difficult, and because of this, they would fear retaliation."

Bridge Master To Instruct Union Classes

The Union recreation committee will sponsor bridge lessons every Tuesday beginning October 18 through November 15. The lessons will be for advanced and beginning students.
James Porter, assistant professor of architecture will give the lessons at 5 o'clock in room 316 of the Union.
Porter began playing bridge at the age of 10. He attended the University of Michigan where he won the Michigan Intercollegiate Championship for two years in the late 1930's.
Porter is now a full-master in bridge. To become a master one must accumulate 1000 rating points in bridge tournaments.

Chancellor Speaks:

Hardin Predicts Growth In University Program

Demand for higher education outstrips high school growth according to Chancellor Clifford Hardin's Nebraska State Grange Tuesday. Trends developing in Nebraska will require physical expansion and an increase in teaching staff at the university. Each year more students are attending college and this increase has been welcomed by the university, the Chancellor said.
Population not only has been growing but it has been shifting. In the next 15 years there will be a noticeable shortage of people between the ages of 20 and 30. This spells a continued need for education through short courses and institutes, Hardin said.
Responsibility has fallen on the university to prepare students for this revised pattern. Growth of interest in foreign affairs has brought the need to equip students to understand students world tensions and teach them how to ease these problems, he added.
In the past few years, demand for higher education has increased greatly. Enrollment at Nebraska is up 9 per cent this year but still there is no increase in high school graduates in the state. By 1960 Hardin predicted that the enrollment of the university will grow from this year's 7,800 to 12 to 14 thousand.
Serious consideration should be given the idea of expanding junior college programs, this is one way we can meet the growing de-

mands for education, Hardin said. In closing Hardin warned that universities should not be expected to "water down" their quality of teaching and research to serve increased enrollment.

Sigma Alpha Iota Honors Pickett

Muriel Pickett, a June graduate of the University now teaching in Plattsmouth public schools, has received the 1955 national leadership award of Sigma Alpha Iota, national music fraternity of women.
The award is given annually to one of the society's 24,000 members. It is based on scholarship, personality, student activity and fraternity service.
Miss Pickett was a member of Pi Beta Phi sorority and Mortar Board.
