

## It Happened At NU

The days of the Crib's low-fi jukebox, which usually sounded as if it were being played under water, are gone forever.

A shiny glass and chromium one has taken its place. But the modernization comes high... the price has gone up to ten cents.

# the NEBRASKAN

## Weather 'R Not

The Lincoln area can expect no relief from the present cold snap Tuesday. The expected high is 26, with temperatures dropping to 6 Tuesday night. Diminishing winds and no prospect of snow somewhat brighten the picture.

## Honorary Commandant:

# Escorts Named For Finalists

Escorting the Honorary Commandant and her attendants at the Military Ball Friday will be Air Force Cadet Col. Earl Barnette, Army Cadet Col. Charles Gomon, Navy Cadet Capt. Richard Hill, and Air Force Cadet Col. James Hewitt.

The finalists for Honorary Commandant are Peggy Baldwin, Janice Carman, Gail Drahota, and Phyllis Sherman. The Military Ball ceremonies will open at 8 p.m. with a concert by the University Band, directed by Donald Lentz. The concert will be followed by the grand march at 8:30 p.m. The Air Command drill squad, commanded by Valdis Jodais, will present a crack drill routine.

Distinguished guests at the ball will include Chancellor Clifford Hardin; Dr. B. N. Greebberg, University Regent; Dean Walter Miller; Dean J. P. Colbert; Col. Joseph Stenglein, chairman of the Air Force ROTC department; Col. Chester Diestel, chairman of the Army ROTC department.

Capt. T. A. Donovan, chairman of the Navy ROTC department; Gen. Claude Putnam, commander of the Lincoln Air Force Base; Col. William Gillespie, Lincoln Air Force Base; Gen. Guy Henninger, adjutant general of Nebraska; Col. Fred Bailey, Air National Guard; and their wives.

Eddy Howard and his orchestra will play for the forty-third annual dance. Ticket prices are \$3 per couple and \$1 for spectator seats and may be obtained from any senior ROTC cadet or a booth in the Union.

Howard became known in 1947 with his recordings of "To Each

His Own" and "I Wonder." Also in 1947 he won first place in Billboard magazine's popularity poll in the greatest all-around and popular music categories.

Howard and his band have played engagements at Chicago's Aragon Ballroom, New York's Commodore Hotel, New York's Capitol Theater and Los Angeles' Coconut Grove.

Besides conducting the orchestra, Howard plays the trombone and guitar, sings and composes many of the songs that his group plays. He uses "Careless" as his theme song. A male trio also does some of the vocal selections.

Howard started his career in 1939 when he sang "My Last Goodbye" which was number one song on the Hit Parade for several weeks. Shortly after World War II Howard started his own band.

## Tickets:

# ECNAD Dance Slated

This year's ECNAD dance will be held Dec. 9 at the Union Ballroom according to an announcement by the Mortar Board and the Union Dance Committee, co-sponsors of the annual turnabout dance.

The theme for the dance will be "Heaven-Sent." Six eligible bachelors will be presented by the Mortar Boards, according to Barbara Clark, chairman.

Each organized house may nominate one candidate who is at least a sophomore with a 4.5 overall average and not going steady, pinned or engaged, she said.

Campaigning may begin Monday and will run through next Monday. Each organized house is asked to take care of the publicity of its candidate, Miss Clark said.

The dance is entitled ECNAD which is dance spelled backwards. It is an opportunity for girls to "turnabout" and entertain the boys who took them to the Military Ball, Miss Clark said.

Tickets are on sale at \$2 per couple. Only 300 couples may be accommodated in the Union Ballroom so tickets will be sold on a first come, first serve basis, she said.

The music will be furnished by Bud Holloway's orchestra.

## Traveler Acts Meeting Planned

Signing up for the Coed Follies traveler acts will be held Tuesday, in Union Room 313 between 5 and 6 p.m., Phyllis Sherman, AWS board member announced.

Those who are unable to attend the meeting may call Miss Sherman at 2-7913 or 2-2526.

Tryouts for the traveler acts will be Jan. 4, in the Union Ballroom. Judges will be Mary Jane Mulvaney of the physical education department, Jerry Bass of the speech department, and Dean Killion of the music department.

## Performance's Soloists Named

Soloists for the University Singers Christmas Carol concert Sunday are (left to right, front row) Shirley Halligan, Phyllis Maloney, and Carol Asbury; (left to right, back row) Monty Mc-

Mahon, Dennis Coleman and Joe Feeney. The concert will be presented from 3 to 4:30 p.m. in the Union Ballroom. Tickets are free and are available at the Union and Walts' Music Store.

The University Singers include 49 women and 54 men and are directed by Dr. Arthur Westbrook. Accompanists are Marilyn Miller, pianist, and Roger Wischmeier, organ.

Free Tickets Available:

# University Singers To Present Saint-Saens 'Christmas Oratorio'

"Christmas Oratorio" by Saint-Saens will be the featured presentation of the University Singers Christmas Carol concert to be held Sunday in the Union Ballroom.

Tickets for the concert to be given at 3 and 4:30 p.m. at the Union are free and will be available at the main office of the Union starting Monday, and at Walt's Music Store.

Other numbers to be presented by the Singers are:

"Gloria in Excelsis Deo".....Bach  
"O Domine Jesu Christe".....Haydn  
"The First Nowell".....Palestrina  
"Jesu Thou Dear Babe Divine".....Jean Huefle, Mary Carol Huston, Janet Jenkins, Ruth Kluck, Mary Ann Konegni, Jeanette Kroese, Sally Lasse, Kathleen Lang, Carolyn Lee, Alice Logie, Judith Lundt.

Phyllis Maloney, Marilyn McHargue, Shirley McPeck, Virginia McPeck, Louise Meldrum, Carol Ann Meyers, Laurel Morris, Alice Mumme, Carolyn Novotny, Victoria Nuss, Lois Panwitz.

Enid Pearson, Marianne Sayer, Phyllis Sherman, Betty Sorenson, Jane Steven, Velda Stokke, Gerayne Swanson, Cecilia TeSelle, Norma Jean Wright.

Clark Alexander, Fred Allen, Joseph Babcock, Ronald Bath, Pete Berge, Delmar Bohlmeier.

\$9483 Collected:

# Final AUF Count Tops All But 1954's Record

A complete total of \$9483.33 for the 1955 AUF drive for funds has been reported by Sam Ellis, AUF treasurer.

Ellis announced the final total Monday night. The total is \$500 below the all-time record set in 1954, but \$100 above the previous record, set in 1953, he said.

Among the divisions of AUF solicitation, the annual AUF Auction was the greatest money-maker. The auction grossed \$2,999.48, nearly doubling the amount made at the auction last year. Cynthia Henderson, AUF special events chairman, was in charge of the event.

Sorority donations totaled \$1873.56, Ellis said. Beth Keenan, vice-president in charge of sorority solicitations, was in charge of sorority solicitations.

Net total for fraternity solicitation was \$1348.65. Chuck Stewart was in charge of the division.

Solicitations in the men's dormitories netted \$486.56. Roger Berger headed Selleck Quad division. Solicitations of unaffiliated students living out in Lincoln amounted to \$780.58. Judy Joyce was in charge of the division.

Organizations and organized houses donated \$637.09. Jeanne Elliott, president elect of AUF, headed solicitations in organizations, and Ruth Ann Lucke headed organized house solicitations.

Faculty donations amounted to a total of \$336. Sandy Reicher was in charge of faculty donations.

Solicitations on the Ag campus reached a total of \$588.90. Leo Dam kroger was in charge of the division.

Medical School donations amounted to \$124.91. Cathy Olds, vice-president in charge of solicitations, was in charge of the division. Board members travelled to Omaha and solicited medical students there.

Solicitations in the "convenience booths" totalled \$19.14. AUF inaugurated a new policy of not using booths for solicitation purposes this year, Ellis said. Booths were used at the end of the drive for students who wished to give, but had not been contacted, he said.

Ben Belmont, secretary-elect, was in charge of the booth education program. Donations from board members totalled \$85.50. Ellis was in charge of soliciting board members.

Proceeds from the 1955 drive will be divided among the World University Service, the Lincoln Community Chest, the American Heart Association, the American Cancer Society and Lancaster Association for Retarded Children (LARC School).

Five per cent of the funds are retained by AUF for campaign expenses and an emergency fund.

Other executive officers for next year include Sam Jensen, vice-president in charge of publicity, and Art Weaver, treasurer.

Selection of board members to serve in 1955-56 will take place soon, Jensen said.

An awards meeting to recognize outstanding workers will also be held in the near future, he said.

## NU Staffs Plan Third Annual Tea

The third annual Christmas Tea for the University Press and the University Library staff will be held Friday from 3 p.m. to 5 p.m. in the Compton Room, third floor, Love Library.

All books of the University of Nebraska Press and announcements of forthcoming publications will be on display. During tea hours, the books will be offered for sale at 40 per cent discount to staff members.

## First Institute:

# Atomic Experts To Meet At NU

The first clear picture of how atomic energy may be used to perform useful, fruitful work will be unveiled Thursday and Friday at the University at the Nuclear Energy Institute.

At the first Institute of its kind held in the Midwest, authorities will attempt to explain the business and industrial application of nuclear energy on the level of the businessman and industrialist.

Scientists who have made rapid progress in harnessing atomic energy since the first controlled chain reaction occurred in 1942 believe that "the possibilities are unlimited."

A few accomplishments which will be discussed include the application toward food, medical diagnosis and treatment, generation of power, agriculture and plastic and metal manufacture.

What use can be made of the by-products of an atomic power pile, such as the one to be constructed in Nebraska by Consumers Public Power District?

How can Nebraska management plan for the future with atomic energy included in the picture?

Scientists who have made rapid progress in harnessing atomic energy since the first controlled chain reaction occurred in 1942 believe that "the possibilities are unlimited."

Here are a few specific accomplishments which will be discussed at the Institute:

Sterilization and preservation of meats and vegetables through atomic radiation.

Medical diagnosis and treatment of various diseases with atomic radiation, including cancer, brain tumors, diseases of blood and thyroid.

Generation of electricity by atomic power plants.

Atomic engines powering ocean-going vessels.

Transformation of ordinary alcohol into permanent anti-freeze.

Sterilization of penicillin, cortisone, and rabies vaccine through irradiation (sterilization by heat not possible because of spoilage).

Discovery of new physiological facts through the use of radioactive isotopes as tracers.

New and improved plastics through the rearrangement of nuclear structure of matter.

New strains of rust-free wheat.

## Engineers:

# Sigma Tau Initiates Members

Twenty-three University students were recently elected new members of Sigma Tau, national professional engineering honorary society.

The new members are:

Herbert Ahts, Cary Baltzer, John Dahlmeier, William Engelkemier, Anton Fretbergs, Robert Getfred, James Hagan, Charles Herpolsheimer, Henry Hofferber, Dennis Huffman, Darrell Ingwerson, Donald James, John Jurek, Richard Kissinger, Walter Linder, Kenneth Lowin, Eliot Pyle, Aaron Schlipmann, Roland Straszheim, Irven Wagner, William Wenzlaff, Benjamin Witte and Lloyd Zelewski.

In addition the following alumni were elected to professional membership: Gerald Swihart, assistant professor of civil engineering at the University; Wilbur Schmall, Allentown, Pa.; Orville Lund, Lincoln; and H. P. Troendly, LaGrange Park, Ill.

## Biochemistry Building Bids Authorized

Board of Regents Saturday morning authorized the chancellor to seek bids on the proposed Biochemistry building to be constructed on the College of Agriculture campus.

The three-story structure will house the department of biochemistry and nutrition which is concerned with the basic research in problems relating to agriculture and other fields.

The modern building will have a detached lecture room which may be used as a small auditorium on the College's campus. The room will seat 192 people.

Consisting mainly of laboratory and research areas, the building will contain 35,000 square feet of floor space and will measure 50 feet wide by 200 feet long. Construction is expected to begin next March, and the completion date is January, 1948.

Financing will be under the 10-year institutional building levy.

Courtesy Sunday Journal and Star

early harvest of tobacco and cotton.

Among the speakers at the Institute will be Dr. Chauncey Starr, vice president of North American Aviation and general manager of the company's Atomic International Division.

Starr, who will be the Thursday evening banquet speaker, directed the design, development and completion of the low-power plant which is to be constructed for Consumers Public Power by North American Aviation.

Explaining the reactor power plant will be Dr. Sidney Siegel, technical director of Atomic International Division. Before joining North American Aviation in 1950, he was a member of the Westinghouse Atomic Power Division and was associated with initial development of the submarine reactor.

Prior to Siegel's talk at 11:15 a.m. Thursday, Ray Schacht, general manager of Consumers, and his special assistant, Dr. Emerson Jones, will discuss reactors and power development in Nebraska at 10:30 a.m.

At 1:30 p.m. Thursday, Shelby Thompson, deputy director of the division of informational services of the U.S. Atomic Energy Commission will discuss "The Atomic Enterprise of the U.S."

Also speaking Thursday afternoon will be Ashton O'Donnell, manager of Nuclear Economics of Stanford Research Institute. He will speak on "Nuclear Economics" at 2:45 p.m.

# Scholarship Filings Open For Radio-TV

Applications are open for the second annual AWRT scholarship for women planning a career in radio on television, sponsored by American Women in Radio and Television, Inc.

Applicants must have recommendations from the Dean of Student Affairs, two faculty members under whom she has studied and two personal references. Applicants will be judged not only on scholarship, but also on character, personality, stability, cooperation, and adaptability.

Jan. 16 is the deadline for scholarship entries, announced Gertrude Broderick, radio-TV education specialist with the U.S. Office of Education, who is chairman of the AWRT Scholarship Committee. Application blanks may be obtained from American Women in Radio and TV, 70 East 45th St., New York 17.

Announcement of the winner will be made at the 1956 annual AWRT convention at the Somerset Hotel, Boston, Mass., April 26 to 29. The winner will be a guest of the convention, with all expenses paid by AWRT.

The scholarship of \$500 is to be awarded to a woman student enrolled in her junior year during the current academic year at an accredited American college or university which offers a degree or elective major in radio or television.

Designed to encourage talented young men to enter the broadcasting industry, the scholarship must be used for academic study in radio and/or television, or for necessary expenses in on-the-job training, subject to approval of the AWRT Board of Directors.

## Campus Police Assigned Car For Patrols

The University's police department for the first time in history will have a regular car of its own for use 24 hours a day.

John K. Selleck, University business manager, said the car is being assigned from the auto pool. It will be radio-equipped and maintain communication with the Lincoln police transmitter.

"The University police," Selleck said, "need transportation other than foot to cover the expanded campus area. We believe the car will insure increased protection of University property, better traffic control, and provide more effective prowler call service for the campus residential areas."

Sgt. John Furrow of the police Department said one officer will be assigned to the car on a round-the-clock shift. The car will carry the usual University identification marks.

## Names Omitted

The names of four students recently initiated into Beta Gamma Sigma, national scholastic society in business administration, were inadvertently left out of a Nebraska story.

The students are Gerald Igou, Patricia Morgan, Rexford Paul, Ralph Retzlaff and Frederick Saathoff.

## The Outside World:

# Hall: 'Talk Encouraging'

By BARB SHARP Staff Writer

After a conference with President Eisenhower, Republican National Chairman Leonard Hall declared he felt "very much encouraged" about prospects that the President will run for re-election. Hall, however, indicated that the President himself did not say what his decision will be about a second term. He predicted that Ike will run in 1956 "if he feels able" and that he will defeat the Democratic candidates by a larger margin than in 1952.

The conference with Hall was the President's first political discussion since his heart attack Sept. 24.

## Better Farm Information Asked

Secretary of Agriculture Benson called upon agricultural economists and educators to help farmers by supplying them with adequate, reliable economic information.

Speaking before the department's 33rd annual agriculture outlook conference, Benson declared that farmers' problems are very real but "they are working out of their difficulties with fewer hardships than in any other postwar period in history."

## Army-Air Squabble Grows

The feud between the Army and the Air Force over the Army's growing aircraft fleet is expected to reach a showdown before Secretary of Defense Charles Wilson.

Denying any intent to duplicate the combat jobs of the Air Force, the Army intends to change a 1952 agreement which it believes gravely restricts its flying rights. The Air Force suspects the Army of trying to establish its own air force.

The disagreement came to a head last week when Donald Quarles, Air Secretary, revealed that he had overruled an Air Force general and permitted the Army to test a new aviation unit in the Louisiana war games.

## Cold War To Push South

Diplomatic experts in the U.S. predict that Communist strategy for Round Two of the Cold War will be to hold the line in Europe and push steadily south in the Middle and Far East.

The new Communist plan is expected to involve trade concessions and economic aid. A study of communist strategy by U.S. officials indicates that this Communist policy is not the kind that can be checked solely by a "policy of containment."

The Committee on International Policy of the National Planning Assn. reviewing the situation in a report, said the cold war is in its "most perilous phase."
