

Engineering Displays: E-Week Chairmen Named To Plan April Exposition

The 44th annual Engineers' Week will be held April 26 and 27, according to Pat Moore and George Fullerton, co-chairmen for E-Week.

The exposition is an annual spring affair conducted by the College of Engineering and Architecture. University students and the general public are invited to see displays that illustrate various phases of engineering and educational opportunities unique in the fields of engineering and architecture.

E-Week activities begin with an open house April 26. Displays will be in the buildings of the respective colleges. There will be convocations both days and E-Week will close with a banquet.

Students with outstanding ability will be honored and given awards for their achievement at the banquet.

The displays in past E-Weeks have included such diverse models as a futuramic lamp with no visible electric power, a miniature atomic pile that could make spectators' dimes radioactive and a scale model of the now-completed Lincoln Tenth Street viaduct.

As a curiosity feature, the department of electrical engineering sponsors a display of a 500,000 volt electric chair. The electric chair is harmless because the electricity passes over the "victims' skin."

The E-Week co-chairmen have announced the committees who will be in charge of phases of the event.

E-Week co-chairmen of the engineering societies are Richard Eno and James Eagan, mechanical engineers; Robert Rohde and Faculty advisors for the Engineering Society are John Toman and Dean Zimmerman, electrical engineers.

Marvin Vanek and Richard Sabbin, architects and architectural engineering; James Egenberger and John Boring, agricultural engineering; Russell Nielson, chemical engineering; Ralph Foral and Vern Sutter, engineering mechanics.

E-Week committee chairmen selected by the overall co-chairmen are Nancy Isgrig, secretary-treasurer; Lloyd Niemman, banquet; Eudell Jacobsen, contest; Roger Schutte, convocation; Aaron Schlipmann, field day; Darrel Schindler, inquiries; Robert Young, program.

Earl Barnette, ribbon sales; Darrel Ingwerseon, sledge; Eugene Aksmit, tours; Terry Wright, traffic; John Zinnecker, photographer; Rose Brown, window display; Roger Berger, newspaper publicity; Laurie Dempster, radio and TV; and Jim Souders, visual publicity.

Faculty advisor for the Engineers' Week are Lyle Young, professor of engineering mechanics and Dr. Herbert Bates, chemical engineering.

Deferment Application Due Mar. 5

College students interested in taking the Selective Service College Qualification Test have until midnight, March 5, to submit application, it was announced Thursday by Henry Cox, director of the bureau of instructional research at the University.

The purpose of the testing program is to provide evidence for local Selective Service Boards so they may consider student deferments for military registrants, Cox said.

To be eligible to apply for the test, scheduled to be given April 19 to college students, a student must intend to request deferment as a student, be satisfactorily pursuing a full-time course of instruction and must not have previously taken the test, he said.

Students interested in taking the test to qualify for possible draft deferment in order to continue their college education are urged to have their completed application postmarked no later than midnight, March 5. Applications dated after March 5 will not be accepted, Cox said.

For additional information, applications and addresses of test centers, students should consult any Selective Service board.

School: Leadership Activities Near End

Activities are drawing to a close in the first Nebraska School for Community Living, a four-week course expressly designed for out-of-school youth from across the state.

Development of leadership ability is the principal goal of the school being conducted by the University Extension Division in cooperation with the College Agriculture.

Extension Division personnel are amazed at the great interest being expressed in the course which was made possible by a grant from the Woods Charitable Fund through the University Foundation.

One of the 23 young persons attending said, "I wouldn't have missed it for anything."

Dr. Otto Hoiberg, school director and Extension Division coordinator of community services, explained that the idea for the school came from his experiences in community work during the last seven or eight years. These people, he said, want to do things but they are short on leadership talent. "Development of local leadership talent is particularly important in rural communities," he said, "since so much of the community improvement work is done by voluntary workers."

Therefore the young people attending the school were selected from those living on farms and in small towns who do not plan to attend any college or university. Six come from towns of less than 5000 population and the other 17 live on farms.

Dr. Hoiberg said the school is trying to give them three things—techniques of leadership, an understanding of their community, and power to see things which can be done to enrich life in the community.

Poetry Judges For Contest Announced

Judges for the Ione Gardner Noyes Poetry contest have been announced by the English department.

They are Walter Wright, associate Dean of Arts and Sciences, C. E. Pulos, associate professor of English, and Peter Worth, chairman of the art department.

The contest closes March 1. Two prizes will be awarded: \$30 for first place and \$25 for second place.

Further information and rules may be obtained from the department of English offices, Andrews Hall.

The Inside World

Ag Meetings

A meeting to discuss new housing for University women will be held Tuesday at 4 p.m. in Room 320 of the Food and Nutrition building, according to Dr. Florence McKinney, chairman of the Home Economics Department. All Ag College women are urged to attend.

Home Ec Club

The University Home Economics Club will meet Thursday at 4 p.m. in the Ag Union lounge. Members may bring guests to this meeting.

Ag Interviews

Representatives of the Doane Agricultural Service will be on the Ag campus March 7 to interview senior job applicants. Appointments for interviews should be made in Room 206 Ag Hall.

Theta Nu

Two men have been initiated into Theta Nu, honorary pre-medical fraternity. They are Robert Pelly, a sophomore and Lee Roy Meyer, a junior.

Alpha Kappa Psi

Alpha Kappa Psi, professional business fraternity, will hold a professional meeting Wednesday at 7:30 p.m., Union Room 316. Chuck Sayre of a local real estate firm will speak on "Project Developments."

Stiss Honored

Sol Stiss, senior in accounting was among the guests at a get-acquainted session at Newton, Ia.,

Slote Announces Contest Judges

The judges for the Prairie Schooner Fiction Contest have been announced by Miss Bernice Slote, chairman of arrangement. They are Walter Wright, assistant Dean of Arts and Sciences; R. W. Frantz, professor of English, and Edgar Johnson, professor of history.

Mari Sandoz sponsors the Prairie Schooner Fiction Awards. Prizes are \$50 for first prize and \$20 for second prize.

The deadline for submitting stories is March 1. All stories are to be handed in at the Department of English office. Rules and other information can also be obtained at the office.

for all winners of supplementary scholarships awarded by the Maytag Co. Foundation. Recipients of the \$200 scholarships were given a tour of both Maytag plants at Newton and were honored at a special luncheon.

Dance Lessons

The first session of Union dance lessons will be held Tuesday at 7:30 p.m. in the Union Ballroom. Subsequent sessions will be held March 6, 13 and 20.

Band Honorary

Eight members were initiated into Gamma Lambda, professional band fraternity, Tuesday noon at the Union. New members are William Raecke, Allen Ziegelbein, Bob Maag, Merle Fegley, Phil Coffman, Bob Hill, Orlean Thomas and Duane Booth. Wendell Friest was elected vice president at the meeting.

Hours Extended

All University women will be granted an extension of hours to attend Coed Follies Monday and Tuesday evenings, Paula Broady Wells, AWS president, has announced. Women students should sign out for 15 minutes after the show is over and return then.

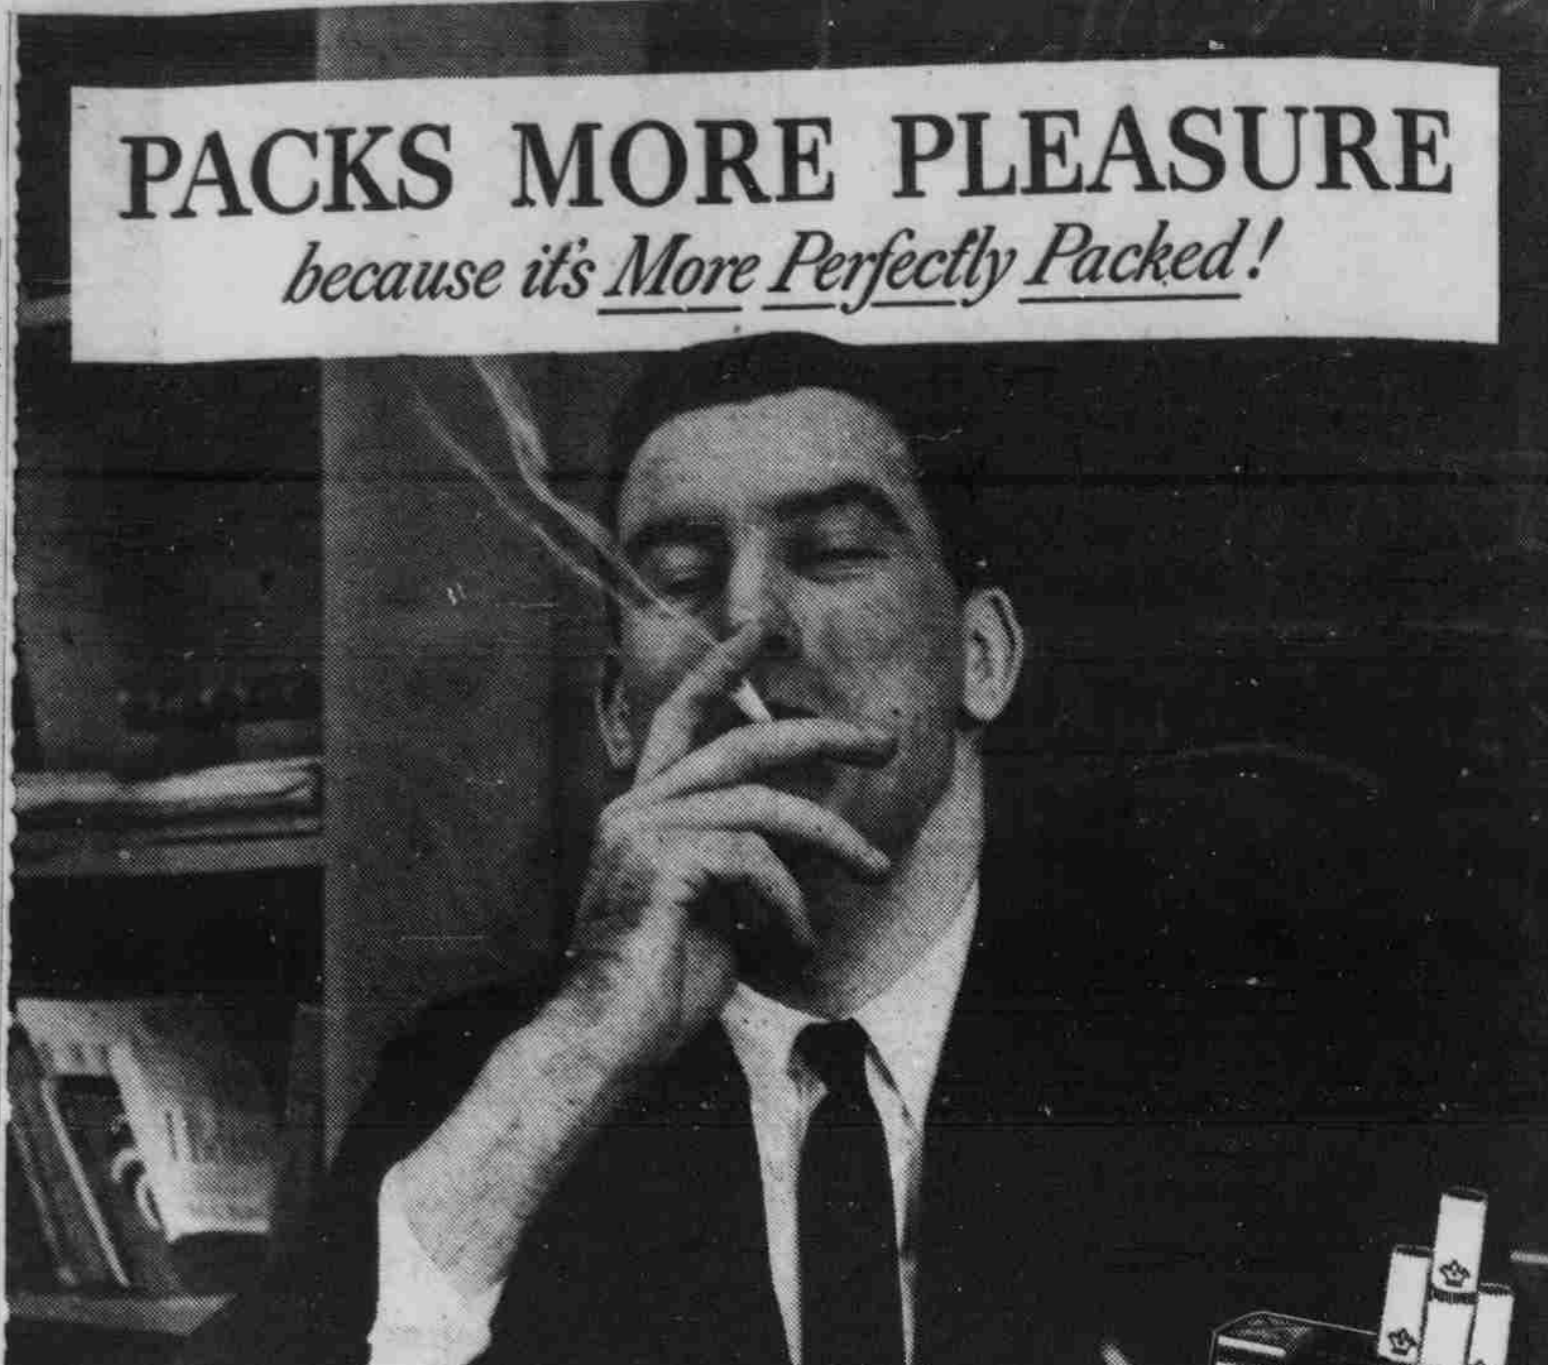

Lab Theater To Present Passion Play

Laboratory Theater will present the play, "The Childhood of Man", Friday, at 8 p.m. in Laboratory Theater, Temple Building and again Sunday at 7:30 p.m. in the University Episcopal Chapel.

There is no admission charge. James Tomasek, a graduate student, will direct and produce the medieval drama to complete work for his Master's thesis.

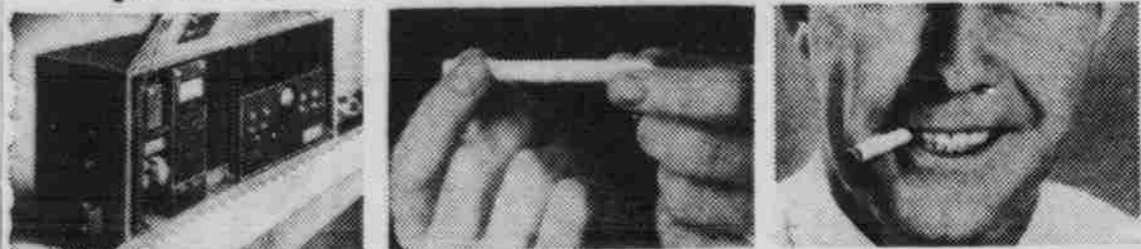

Cast members include: Bob Wells, Charles Weatherford, Karen Peterson, Millard McCormack, Barbara Coonrad, Jack Parris, Nathan Miller, Gloria Kollmorgen and Margaret Samani.

Ted Nittler, Beverley Giltner, Len Schropfer, Bonna Tebo, Dolly Rejda, Don Aulds, Boyd Ronney, Schoenrock, Kathleen Schmutte, Clarence Evans, Stephen Schultz and Bill Raecke.

PACKS MORE PLEASURE
because it's More Perfectly Packed!

Satisfy Yourself with a Milder, Better-Tasting smoke—packed for more pleasure by exclusive Accu-Ray

The more perfectly packed your cigarette, the more pleasure it gives... and Accu-Ray packs Chesterfield far more perfectly. To the touch... to the taste, an Accu-Ray Chesterfield satisfies the most... burns more evenly, smokes much smoother. Firm and pleasing to the lips... mild yet deeply satisfying to the taste—Chesterfield alone is pleasure-packed by Accu-Ray.

CHESTERFIELD *MILD, YET THEY Satisfy!*

LOCKHEED

Aircraft Corporation

California Division Georgia Division

Staff Representatives will be on campus to discuss your future **Wednesday, February 29** in Lockheed's expanding research and development program

Both divisions of Lockheed are engaged in a long-range expansion program in their fields of endeavor.

California Division activities in Burbank cover virtually every phase of aircraft, both commercial and military. 46 major projects are in motion, including 13 models of aircraft in production—extremely high-speed fighters, jet trainers, commercial and military transports, radar search planes, patrol bombers. The development program is the largest and most diversified in the division's history. New positions have been created for graduates in: Aeronautical, Civil, Electrical and Mechanical Engineering and Mathematics and Physics.

At Lockheed in Marietta, Georgia, new C-130A turbo-prop transports and B-47 jet bombers are being manufactured in the country's largest aircraft plant under one roof. The division is already one of the South's largest industries. In addition, advanced research and development are underway on nuclear energy and its relationship to aircraft. A number of other highly significant classified projects augment the extensive production program. New positions have been created for graduates in: Aeronautical, Civil, Electrical and Mechanical Engineering and Mathematics and Physics.

This broad expansion program is creating new positions in each division. Graduates in fields of Aeronautical Engineering, Electrical Engineering, Mechanical Engineering, Mathematics and Physics are invited to investigate their role in Lockheed's expansion.

Separate interviews will be given for each division.
